

Single Line PSTN Replacement

A like-for-like replacement for the traditional phone line.

Next-generation connectivity with an included over-the-top voice solution, ready for the switch-off.

Single line PSTN replacement

A ready-made replacement for your single PSTN line

This combined next-generation connectivity and over-the-top voice product is the perfect like-for-like replacement for an existing single-line PSTN.

Designed as a voice-only product, it uses 0.5Mbps SoGEA. VoIP doesn't need high bandwidth, so this is perfect for carrying the voice service and ensures you are ready for the switch-off.

Priced in a similar way to a traditional PSTN line, it is a foundation IP Voice product that ensures your customers don't lose their voice services and are future-proofed.

At a glance

Use your existing phone

keep the handset you already have

Retain your phone number

port your number, or take a new one

Everything included

Voicemail, 1471, Call Waiting, Caller Display

How it works

A simple, on-premise setup

Your existing phone connects through an on-premise unit to our voice platform over next-generation SoGEA.

Key features

Contract options of 12, 24 or 36 months

Retain your existing phone number

A reliable, high-quality voice service

Web portal configuration

Two installation options: standard managed and premium managed

Voicemail, 1471, Call Waiting and Caller Display included

The benefits

How it will benefit your business and customers

A like-for-like replacement

A direct replacement for the telephone line, so customers keep making and receiving calls without disruption.

Keep your number and handset

Port an existing number or take a new one, and carry on using the phone you already have, with Voicemail and Call Waiting.

Easy provisioning

Order quickly through our dedicated partner portal, with flexible options that are right for you and your customers.

UK-based support

Dedicated account management and professional services support, tailored to your business needs.
