

Our Vision

An education system where every school educates for a green future.

Our Mission

To support teachers to weave climate, nature and sustainability through their teaching.

Our Goals

- Inspire and motivate educators to integrate sustainability into their teaching.
- Curate the best resources that save teachers time in implementing environmental education.
- Promote environmental education initiatives or opportunities from a wide variety of organisations.
- Offer professional development and disseminate the latest academic research on environmental education.
- Catalyse partnerships between schools, local authorities and local communities to support sustainability efforts.
- Share best practice between educators, schools, and organisations within the environmental education landscape.
- Connect learning with real-world issues and solutions.
- Share the vision for a Green Britain and prepare young people to be agents of change for a sustainable future.

What we do

- We weave together the best free resources and opportunities from 100's of organisations into learning journeys - saving teachers time and building their confidence to integrate climate, nature and sustainability across their existing teaching**
- A Cross-Curricular Approach based on 7 Themes / 60 Big Questions - Access Learning Journeys via MEE Website**
