

SISU GTT

ALL-TERRAIN VEHICLE

PROTECTION

SISU GTT keeps the crew safe and maintains crew performance even in hazardous environment.

Protection level can be increased with add-on kits.

The V-shaped hull deflects underbelly detonations, contributing to all-round protection.

MOBILITY

SNOW – DESERT – MUD – SWAMP – WATER BODIES

SISU GTT is made with a focus on flexibility, protection and mobility for any mission needs.

SISU GTT is a high-performance multi-purpose platform intended for all geographical environments, including extreme climate conditions and the harshest Nordic terrains.

Truly MODULAR vehicle suitable for various operational roles

MEDEVAC VEHICLE

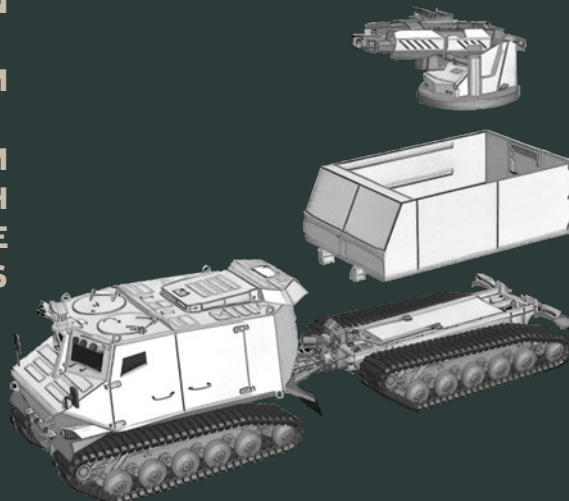

**COMMAND / CONTROL
AND COMMUNICATION**

MORTAR PLATFORM

**PLATFORM
FOR ANY SYSTEM WITH
10' CONTAINER INTERFACE
UP TO 5 TONS**

SISU GTT All Terrain Vehicle program

SISU GTT originates in ST Engineering Land System's famous Bronco ATV design, which has been completely harmonized with advanced SISU GTP technologies and solutions. As a result, SISU GTT vehicle benefits from both, maturity of proven Bronco ATV vehicle generations, and a selection of commercially available and locally sourced components utilized in SISU GTP vehicle family.
