# Safety & Enviroment

# Port Security

## All our Cruise port facilities are ISPS certified

- Port facility is fenced off and security checked prior to each arrival
- Security guards on site while ship is present at port facility
- Minimum two security guards area on duty
- At passenger turnaround, more guards are called in.

## It is strictly prohibited to open fence gates unless port security is present

- Extra guards are added on duty if additional gates are needed for example at turnaround

## Access control at terminals

## Guests and provisions need to be noticed in advance

### Provisions

- Drivers need to announce their presence in terminal
- Port security will control access through gates

## Manned guarding on site and CCTV accessible on site and remote

## Mandatory baggage screening at all turnarounds

# Port security overview

Terminal / Quay		ISPS Security level	Public access restricted	Entering ISPS area. Access control / Id check	Ship ID/pass check	Vehicles entering ISPS area access control	Security guards on site	PAX/crew screening on port call	Baggage screening	Hand luggage / passenger screening	Passenger area CCTV surveillance	Quay cctv surveillance	Waterside Lighting (May-July natural light 24/7)	Bus access to gangway	Taxis/private vehicle access to gangway

# Attention!

## Gangways:

- Yokohama fenders are mandatory (diameter 3,5m) if port gangways are used:
  - Pier is only 14m wide
  - Outer part of the pier, approx. 55 meters, is not accessible for passengers

## Please note that activity area on pier is limited.

- Garbage, Baggage and provision arrangements to and from ship need to be planned prior to call.
- Shell doors must be allocated in line with asphalt pier
  - Any other arrangements will require additional resources

# City & Terminal Shuttle

**Schedule:**  
Approximately: Every 20 minutes / 08:00-18:00

# Wayfinding

## Öryggisskoðun Security

The wayfinding system includes several pillars and signs:

- Information Pillars:** Two large pillars with 'Upplýsingar Information' at the top, featuring maps and icons for Terminal, WC, Check-in/Security, Baggage drop-off, and various bus routes (Bus 1-14, Bus 15-23, Taxi/Small bus, City bus, Terminal Bus, Walkway/City center 5 km).
- Bus Route Pillars:** Pillars for 'Miðbær City Bus' and 'Miðbær City center' with icons of buses and walking figures, and maps showing routes to Skarfabakki 312 and Kongurinn.
- Security Sign:** A sign for 'Vegabréfa áttírita Passport control' with a magnifying glass icon.
- Bus Number Pillars:** Pillars for 'Rúta Bus 32' and 'Smá-rútur Small buses' on grey trapezoidal bases.
- Distance Pillars:** Pillars indicating distances to 'Skarfabakki 312' (500m) and 'Miðbær City center' (5 km).
