

THE UNDISPUTED LEADER IN SPECIALTY TOOLS

A close-up photograph of a car's interior. A set of car keys with a black fob and a metal key is resting on a dark, textured surface. To the right, a portion of a car's center console is visible, showing a button with a child safety icon and the word "OFF", and a larger button with a red triangular hazard light symbol.

SERVING THE CAR OPENING INDUSTRY WITH PRIDE SINCE 1986

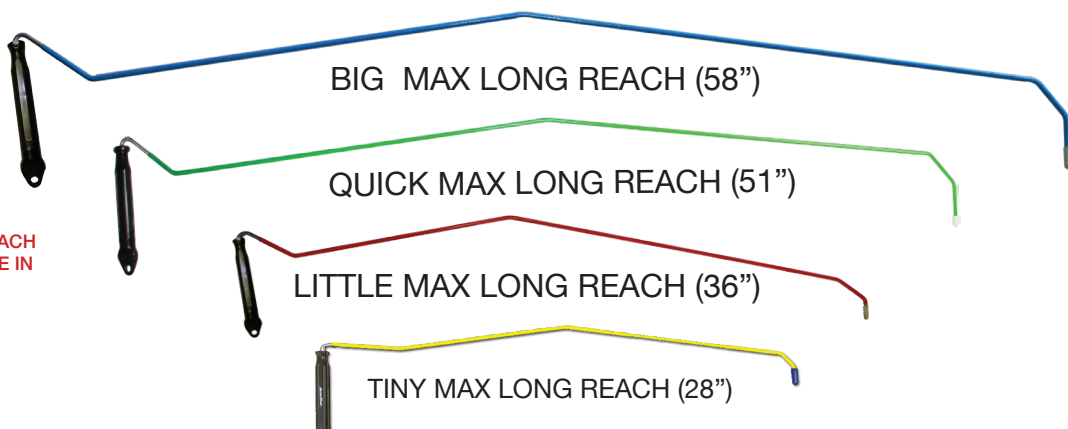

JACK SETS LIKE NO OTHER IN THE INDUSTRY

OUR LONG REACH TOOLS COME IN 4 DIFFERENT LENGTHS

ALL OF OUR LONG REACH TOOLS ARE AVAILABLE IN STAINLESS STEEL

STAINLESS STEEL

BASIC USE OF YOUR JACK SET

- 1 Carefully insert the One Hand Jack in between the door frame and the center frame to create enough room to insert the Air Jack air wedge. **Door-to-door frame only.** DO NOT pry the One Hand Jack against the roof of the vehicle or against any other part of the vehicle that consists of sheet (soft) metal.

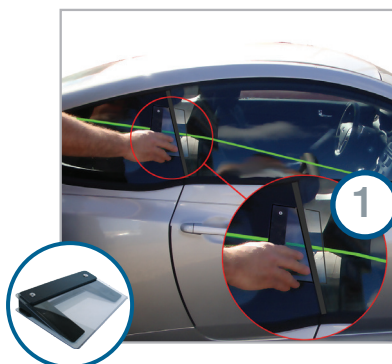

- 2 Inset the Air Jack air wedge at the top of the door. Swing the Air Jack left and right to help insertion. Once inserted, close the air valve and inflate the Air Jack to create enough room to insert the long reach tool.

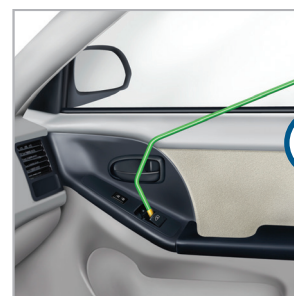

- 3 With the Air Jack still inserted and inflated, carefully insert the long reach tool and maneuver it to the lock button or to the handle to open the vehicle.

FRAMELESS WINDOWS

For vehicles without frame around glass **do not use** the One Hand Jack as it might break the glass. Instead, carefully insert the Glassman tool under the glass. Swing the Glassman up and down to aid insertion.

- 2 Carefully insert the long reach tool inside the Glassman Wedge and maneuver it to the lock button or to the handle to open the vehicle.

CHOOSE YOUR JACK SET BASED ON:

Air Wedge Size | One Hand Jack Style | Long Reach Tool Length | Special High Strength Rust proofed Alloy

AIR JACKS™

AIR JACKS

Our Air Jack® air wedges are the industry standard and best-selling available. They all feature Ballistic Nylon construction, an internal stiffener for easy insertion, and interchangeable Bulb-Valve assemblies.

The Mini Starter Air Jack™ is used to start the opening process for tight situations. Its small compact size makes this process a cinch.

MINI STARTER AIR JACK® AIR WEDGE

ITEM # MAW

This is the workhorse of the industry. Our most popular Air Jack™ for a reason. Sized just right for most openings this Ballistic Nylon beauty will get the job done

AIR JACK® AIR WEDGE

ITEM # AW

This is the largest of all our Air Jacks™ and is powerful enough for any opening. Super sized for extra power. Ballistic Nylon to withstand the rigors of daily use.

SUPER AIR JACK® AIR WEDGE

ITEM # SAW

AIR WEDGE REPAIR KIT

ITEM # AW-RPK

This two bladder Air Jack™ is used to provide even opening pressure across two areas of the door at the same time. For the discerning user that wants precision

TWIN AIR JACK® AIR WEDGE

ITEM # TAW

JACKS™

ONE HAND JACKS

The best way to get started on four door vehicles. Use the One hand Jack to create working room to insert your Air Jack™. Use this tool with confidence. Two sizes for your convenience.

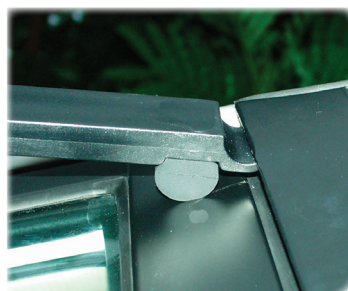

ONE HAND JACK

ITEM # OHJ

SUPER ONE HAND JACK

ITEM # SOHJ

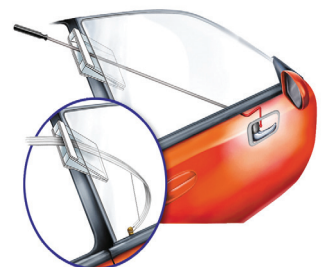

GLASSMAN WEDGE

A must-have tool for any frameless window vehicle, the Glassman Wedge replaces the One Hand Jack and Air Wedge typically used on vehicles. The Glassman Wedge provides the gap needed to insert the long reach tool inside the wedge itself, preventing the glass from shattering.

GLASSMAN WEDGE

ITEM # GM2

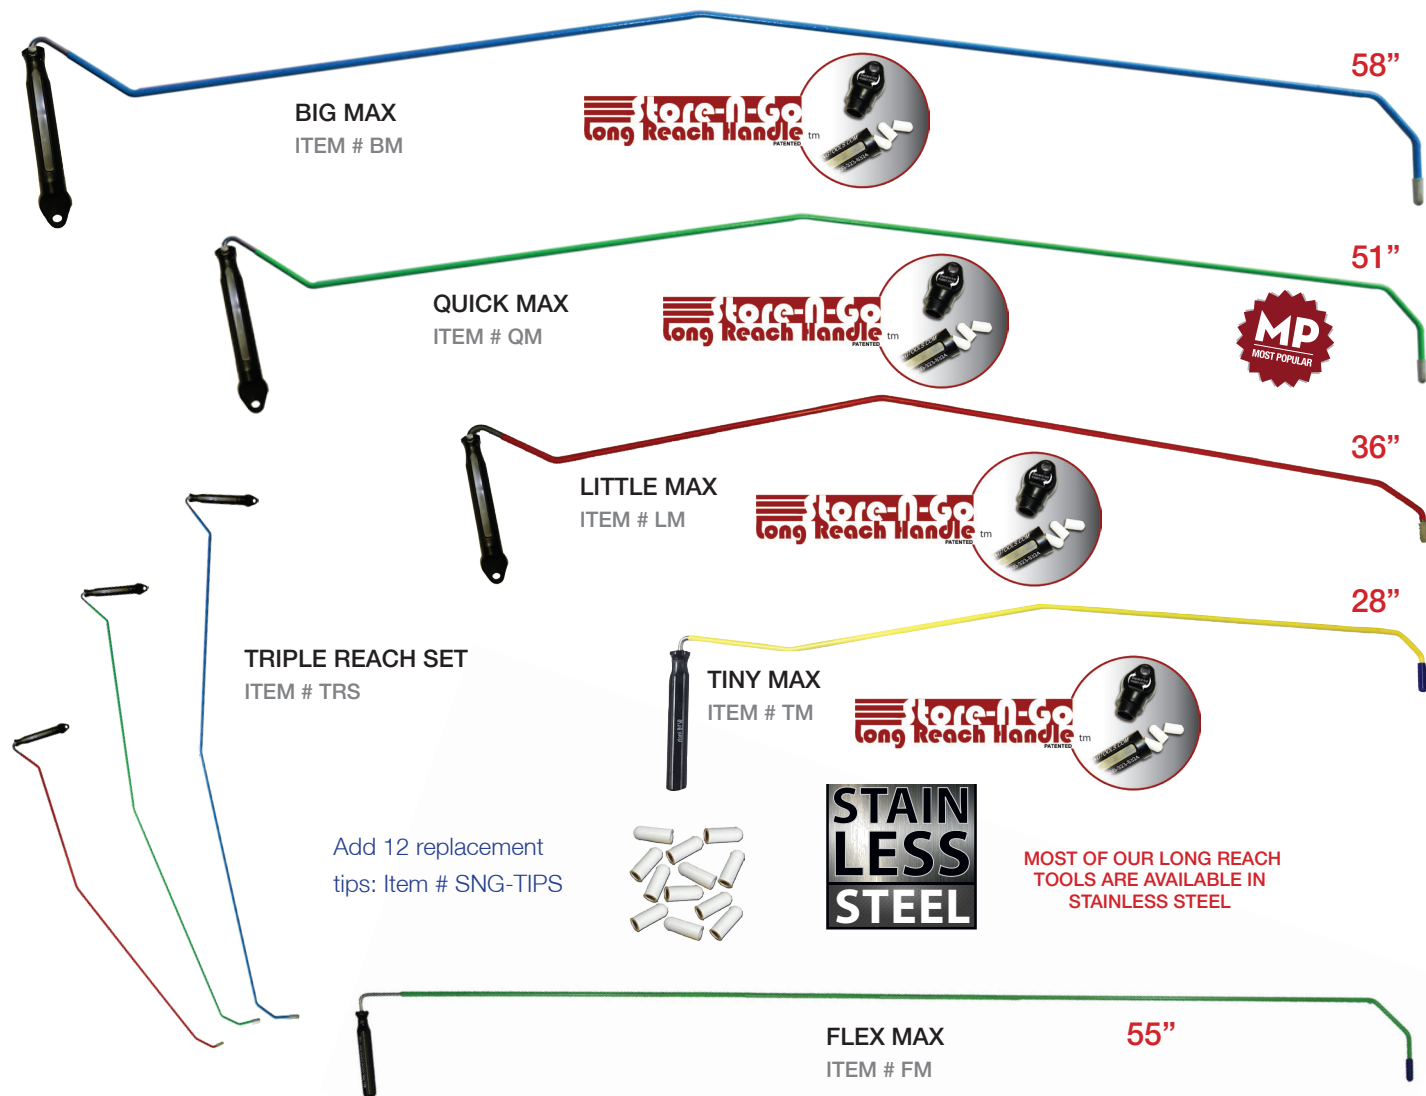

CHOOSE YOUR LONG REACH TOOL BASED ON:

Tool Length

Tool Material

Tool Flexibility

The only long reach tools on the market that are vinyl coated rather than painted, keeping the user from scratching the vehicle when performing a lockout. Available in multiple lengths and flex-levels, there is a long reach perfect for every vehicle. The Store-N-Go handle on most of the tools holds multiple extra long reach tool tips, as well as provides a place to clip the accessory bag.

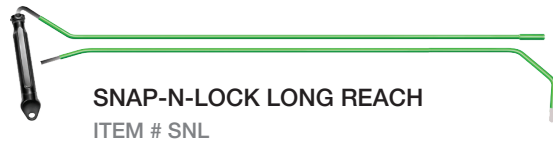

LIGHTNING ROD ITEM # LR

The perfect long reach for anyone working in low-light conditions where the LED tip on the Lightning Rod sheds much needed light inside the vehicle.

SNAP-N-LOCK

The only two piece tool on the market that does not screw together. The Snap-N-Lock design ensures a strong, durable, easy to use connection that allows the long tool to break down for each storage and transportation. Optional accessories in the Complete Kit make the tool more usable with the LED lighted tip, magnetic tip, and loop tip for vertical button vehicles.

SNAP-N-LOCK LONG REACH
ITEM # SNL

SNAP-N-LOCK COMPLETE KIT
ITEM # SNL-CK

VERTICAL LOCK BUTTON TOOLS

BUTTON MASTER ITEM # RCBM

The world's best way to open vehicles with vertical lock buttons. A flexible tool with a snare loop that makes it easy to maneuver inside the vehicle and grab any button, opening a vehicle in seconds.

HEAVY DUTY BUTTON MASTER ITEM # RCBMHD

The Heavy Duty version features a thicker more durable curl-resistant wire.

STAINLESS STEEL BUTTON MASTER ITEM # RCBMSS

The Stainless Steel version is an upgrade to the standard Button Master featuring a rust-resistant material.

MEGA MASTER ITEM # RCMM

The Mega Master is twice the length of the Button Master, Over 5 feet Long with a loop large enough to grab door handles and loose keys inside the vehicle.

68"

BUTTON STRIP TOOL ITEM # BS

A favorite for decades, this flexible tool features a gritty material in the center which grips most vertical buttons with ease.

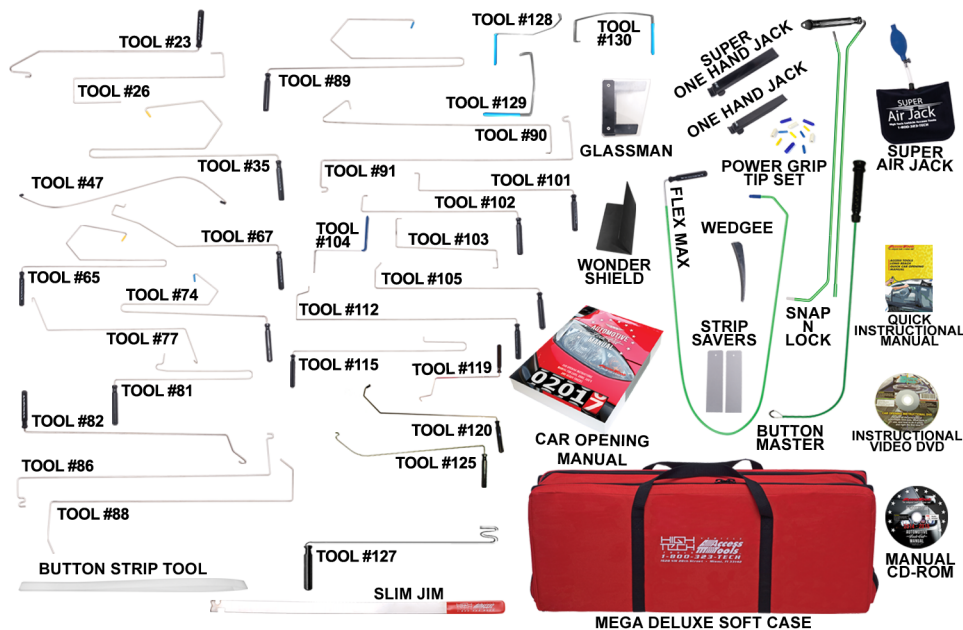

CHOOSE YOUR COMPLETE LOCKSMITH SET BASED ON: Number of In-The-Door Tools | Included Accessories

WONDER SHIELD
ITEM # WS

SMASH FILM

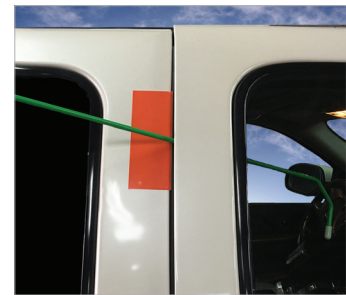

Heavy Duty Collision Film designed to protect a vehicles interior during transport and storage. Cover any broken or damaged window or windshield. Features a high-tack no-residue adhesive, UV protective coating, and a puncture resistant extra thick 4MM material. 36" wide x 100' long. Great for the towing, recovery, and transportation industries as well as in body shops and repair facilities.

SMASH FILM
ITEM # SF

DAMAGE GUARD

Vehicles with delicate painted B-pillars and door frames require extra protection to ensure a damage free opening. This roll of heavy duty 5MM protective tape is perforated every 6" for easy dispensing. Apply a small strip to the vehicle where you will be working and enjoy the peace of mind knowing you will not scratch the vehicle. 100' roll provides enough for about 200 lockouts.

DAMAGE GUARD
ITEM # DG

LONG REACH TRUCK RACK

Gone are the days of throwing your long reach tools and accessories behind the seat in your pickup truck or tow truck cab, only to find them mangled and damaged from knocking around under your seat. This rack installs with no vehicle modifications or tools required. No drilling, taping, gluing, cutting, or welding. Simply slip into place, secure the tension nuts and hang all of your tools. Fits virtually all pickup trucks and tow trucks.

LONG REACH TRUCK RACK
ITEM # LRTR

ROADSIDE CREEPER

The foldable padded creeper, that keeps you clean and dry. Use it when changing tires, hooking up a vehicle, removing a drive shaft, getting under those low clearance vehicles. Especially useful in rain or snow, **ROAD SIDE CREEPER**
