Component Selection

1 Locking Devices (Pages 3-17)

- Electric Strike
- Delayed Egress
- Electrified Lockset
- Exit Device
- Frame Actuator Lockset
- Magnetic Lock

2 Access Controls (Pages 18-21)

Standalone or Network

- Keyswitch
- Digital Keypad
- Card Reader

3 Egress Devices (Pages 23-31)

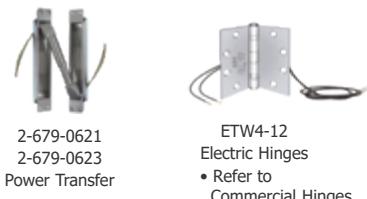

- Exit Switch
- PIR Egress Sensor
- Exit Sense Bar
- Emergency Door Release

4 Electric Power Transfer Devices (Pages 33-34)

Required With Locksets & Exit Devices

- Electric Power Hinge
- Power Transfer Loop
- Concealed Power Transfer
- Electrified Roton

5 Door Position Sensors (Pages 35-36)

6 Power Supply & Door Controllers (Pages 37-43)

2903

Power Supply

- Provides power for Fail Safe or Fail Secure locking devices
- 24 V output; 2 AMP capacity
- Filtered/regulated

2904

Power Supply

- Provides power and control for openings with an electrified locking device and automatic door operator
- 24 V output; 2 AMP capacity
- Filtered/regulated

2909-2A PSU

Power Supply

- Modular
- Provides power for Fail Safe or Fail Secure locking devices
- 12/24 V output; 1 AMP capacity
- Filtered/regulated

2910-4A PSU

Power Supply

- Provides power and control for openings with an electrified locking device and automatic door operator
- 12/24 V output; 1 AMP capacity
- Filtered/regulated

2911-6A PSU

Power Supply

- Provides power and control for openings with an electrified locking device and automatic door operator
- 12/24 V output; 2 AMP capacity
- Filtered/regulated

Locking Devices

Hager offers a comprehensive product line of electronic locking devices ranging from strikes, delayed egress systems, and magnetic locks.

Electric door strikes allows for a range of functionality for any access control system. Ranging from an exterior door such as an employee entrance or an interior door such as a stairwell, Hager's electric strikes have a variety of universal features as well as factory configurations to accommodate a range of locksets, doors, frames, applications, and building codes. Hager's line of electric strikes fit any application. All of our strikes have compact designs, are non-handed, and can be field selectable to fail safe or fail secure configurations allowing for universal installations and simpler inventory management.

Delayed egress systems are ideal for security, safety, and loss prevention applications. Many of Hager's delayed egress systems are installed in public facilities such as airports to control pedestrian traffic. Other Hager units are installed in brick and mortar retail stores to prevent theft while other installations include assisted living facilities to protect patients and childcare facilities to protect children. Typically used on exit doors, when unauthorized egress is initiated when in the locked mode. The system delays egress through the door for 15 or 30 seconds (where approved). Meanwhile, the person exiting must wait while personnel or security respond. The door unlocks after 15 seconds has elapsed, permitting egress. A signal from the fire life safety system will release the lock for uninhibited egress in an emergency. Typical installations include airports, convention halls, wholesale stores, retail stores, long term care, drug and alcohol rehab, psychiatric care, infant nurseries, museums, art galleries, warehouses, and technological facilities.

Hager's magnetic locks are designed to be used on interior doors, perimeter exit doors, and entrances that require fail safe emergency release. Hager's magnetic locks have no moving parts and provides positive and instantaneous release, whether caused by a signal from the fire command center, remote control or access control.

Locking Devices – 2925 Electric Strike

MODEL

2925

4-7/8" (124 mm) faceplate for aluminum, wood, and hollow metal frames

WARRANTY

One-year warranty

APPLICATION

- Cylindrical locksets with up to 5/8" (15mm) throw latch bolts
- Access controlled ingress for fail secure or fail safe openings (field selectable)
- Economy option provides great performance and value

Latch

1/2" (13 mm) [5/8" (16 mm) with 1/8" (3 mm) door gap]

FEATURES

Components

- Quick and easy installation with low profile 1-1/4" (32 mm) backset
- All stainless steel parts with durable diecast body for corrosion resistance
- Compact low profile design with internally mounted solenoid and factory supplied mounting tabs
- Non-handed (reversible)
- Latch status output (standard)

Certifications

- ANSI/BHMA A156.31, Grade 2

ELECTRICAL SPECIFICATIONS

Input:

Current/Voltage

200/100 mA @ 12/24VDC (Field selectable)

Monitoring:

Latch Status (Std)

SPDT, DRY 3A @ 30VDC

MECHANICAL SPECIFICATIONS

Dimensions

1-1/4" (32 mm) W x 4-7/8" (124 mm) H x 1-1/4" (32 mm) D

ACCESSORIES

BUZZ

- Part no. 2-679-0028
- Plug-In Buzzer 12/24VDC
- Indicates fail secure strike is energized and unlocked

RECT

- Part no. 2-679-0029
- Converts AC to DC
- Wire leads

FINISHES

Locking Devices – 2928 Multi-Application Electric Strike

MODEL

2928-SC
2928-RC
2928-6R
2928-7R

- 4-7/8" (124 mm) x 1-1/4" (32 mm) square corner faceplate
- 4-7/8" (124 mm) x 1-1/4" (32 mm) radius corner faceplate
- 6-7/8" (175 mm) x 1-1/4" (32 mm) radius corner faceplate
- 7-15/16" (202 mm) x 1-7/16" (36 mm) radius corner faceplate

WARRANTY

APPLICATION

One-year warranty

- Cylindrical and mortise locksets with up to 3/4" (19 mm) throw latch bolts with 1/8" door gap
- Access controlled ingress for fail secure or fail safe openings (field selectable)
- Field selectable voltage - 12/24V, AC/DC
- Ideal for medium traffic openings

Latch

- 1/2" (13 mm)
- 5/8" (16 mm) with 1/8" (3 mm) door gap
- 3/4" (19 mm)

FEATURES

Components

- Quick and easy installation with low profile 1-3/16" backset
- Latch position status (standard)
- Keeper locked/unlocked status (standard)
- Keeper open/closed and status (optional)
- Compact low profile design with internally mounted solenoid and factory supplied mounting tabs
- Non-handed (reversible)
- 1/4" (6 mm) horizontal alignment adjustment
- All stainless steel parts with durable diecast body for corrosion resistance
- Fewer moving parts for maximum life
- Stainless steel is standard with square corner faceplates
- Aluminum standard with radius corner faceplate
- Plug in tail connectors

Certification

- ANSI A156.31, Grade 2
- UL 1034 - Burglary Resistant Electric Locking Mechanisms (interior use applications)

Locking Devices – 2958 Integrated Delayed Egress Lock

MODELS

2958
2958T

WARRANTY

APPLICATION

FEATURES

Components:

Single magnetic lock with 1650 lbs. holding force (748 kg)
Tandem magnetic lock with 1650 lbs. holding force (748 kg)

One-year warranty

- Control pedestrian traffic
 - Airport & Public Facility Security and Safety
 - Loss Prevention
- Wandering Patient and Infant Protection (Compatible with Hugs® and other patient tracking systems)
- Intended for single doors with latching or non-latching hardware
- Tandem model intended for use with pairs of doors with latching or non-latching hardware where activating the lock unlocks both doors
- Field selectable voice and tone or tone only (75 db @ 3 feet)
 - Voice and digital display provides informative annunciation for people without prior knowledge, including the blind and hearing impaired
 - Voice provides warning or safety message, countdown and time of door release
 - Digital countdown display indicated if the door was opened after lock release
- Choice of 15 second exit and 1 second nuisance delay or field selectable 15 or 30 second exit delay and 1 or 2 second nuisance delay
- Field selectable security or safety message
- Field selectable activation
- Field selectable automatic or manual relock upon power up after emergency release
- Integrated 3 position key switch
 - Provides lock and alarm reset Manual power up sustained bypass, time bypass, adjustment for 1, 15, 20 or 30 seconds
- Field selectable door prop alarm
 - Alarm sounds when the door has been left open after selected bypass time has elapsed
- Anti-tailgate feature
- Alternating 85db tone and voice message

Control Inputs:

- Remote access control and REX input, field adjustable for 1, 15, 20, or 30 seconds
- Remote reset input
- Manual power-up input
- Emergency release input
- Anti-tailgate input

Monitoring Outputs:

- Door secure and unlocked output
- Delayed egress activation alarm output

Locking Devices – 2961 Series Magnetic Shear Lock

MODELS

2961

Single magnetic shear lock with 2000 lbs. holding force (907 kg)

WARRANTY

One-year warranty

APPLICATION

For commercial grade hollow metal and wood doors and frames and Herculite doors with top rails

FEATURES

assemblies

- Concealed, high security, Fail Safe locking mechanism
- Incorporates floating armature assembly and special alloy steel locking tabs on both lock and armature

Components:

- May be adjusted both vertically and laterally to compensate for wide door gaps and warped or misaligned doors
- 2,000 lbs (907 kg) holding force without current inrush or high operating temperature
- 8" x 1-1/2" (203 mm x 38 mm) lock
- Integrated electronics
- 1-5/8" (41 mm) depth for 1-3/4" - 2" (44 mm - 51 mm) frames
- Armature supplied with lock (specify type required - ITC, FTC, or HTC)
- Door static sensor ensures door is at rest and aligned, before the magnet is permitted to energize (eliminates the potential for lock misalignment)
- Lateral adjustment of shear tabs to compensate for warped or misaligned doors, permitting accurate locking
- Vertical adjustment of both the armature and the adjustable delay relock sensor compensates for wide door gaps
- Unique floating action for easy armature lift when the magnet is energized and provides ability to overcome wide door gaps
- Alloy shear tabs ensure continued high holding force
- No profiling of the soft armature steel that may be prone to wear and reduced holding force
- Advanced electronic circuitry that incorporates door static, positioning and timed relock sensor and automatic voltage sensing for 12/24 VDC input
- Noise dampeners reduce the noise associated with locking and unlocking

OPTIONS

MBS

- Bond sensor indicates proper armature contact or reduced holding power due to improper armature contact or tampering
- SPDT 0.25 amp

DPS

- Door position switch indicates door open or closed
- SPDT 0.25 amp maximum

HTR

Herculite top rail armature adjustment bracket for leading edge adjustments

ELECTRICAL SPECIFICATIONS

Locking Devices – 2965 Series Magnetic Shear Lock

MODELS

2965

Single magnetic shear lock with 2700 lbs. holding force (1225 kg)

WARRANTY

One-year warranty

APPLICATION

For commercial grade hollow metal and wood doors and frames and Herculite doors with top rails

FEATURES

- Concealed, high security, Fail Safe locking mechanism
- Incorporates floating armature assembly and special alloy steel locking tabs on both lock and armature assemblies
- May be adjusted both vertically and laterally to compensate for wide door gaps and warped or misaligned doors

LISTED

Components:

- 2,700 lbs (1225 kg) holding force without current inrush or high operating temperature
- 10-7/16" x 1-1/2" (265 mm x 38 mm) lock
- Integrated electronics
- 1-5/8" (41 mm) depth for 1-3/4" - 2" (44 mm - 51 mm) frames
- Armature supplied with lock (specify type required - ITC, FTC, or HTC)

Access Controls

As the demand for access controls continue to grow, Hager Companies offers proven, reliable, and innovative solutions. While access control keypad devices are fairly definitive, customer requirements and building codes can vary. Hager Companies keypad product line offers solutions for these differing demands and requirements.

Key switches are ideal for a range of electrified openings such as an auditorium or gate operation that you might find near a hotel pool. With many different types of applications, key switches are an economical and viable devices in many installations.

Hager's line of heavy duty keypads has an array of ideal installations. The 2915 is perfect for secure areas such as a records archive room or server room. The 2916 and 2916P are ideal for outdoor installations such as college dormitories, apartment buildings, remote buildings, and office buildings.

Hager Companies provides proven and reliable products for the ever growing access control market. For more information, please visit the Hager Companies website at www.hagerco.com

Access Controls - 29KS Key Switch

MODELS

29KS

Key switch

WARRANTY

One-year warranty

APPLICATION

- Access control
- Automatic gate operation
- Alarm shunt
- Alarm reset
- Machine operation

FEATURES

- Provides an economical method of providing authorized control for a variety of applications
- Choice of several contact configurations ensures compatibility with virtually any system
- Compatible with U.S. standard 1.125" and 1.25" mortise key cylinders and interchangeable core cylinders (not included)
- Compatibility with a new or existing facility mechanical key system is maintained
- Standard switch assemblies are single gang box mounted

Components:

- Single gang, wall mounted, recessed key cylinder
- Tamper resistant, recessed cylinder
- Tamper resistant spanner screws
- Heavy duty all steel assembly
- 20 gauge stainless steel faceplate
- Large actuator for positive and consistent activation
- Compatible with 1.125" or 1.25" mortise cylinder (non included)

Functions:

ASD	Alternate Action (on/off) SPDT
MSD	Momentary SPDT
ADD	Alternate Action (on/off) DPDT
MDD	Momentary DPDT

ELECTRICAL SPECIFICATIONS

Voltage:

- 6 amp @ 30 VDC
- 7", 22 gauge wire leads

OPTIONS

LEDG	One (1) green LED
LEDR	One (1) red LED
2LED	One (1) green and one (1) red LED

CYLINDER

NOTES

- Single switch assembly requires cloverleaf cam
- Dual switch assembly requires standard cam

Access Controls - 2-679-0708 Under Desk Push Switch

MODELS

2-679-0708

Under Desk Switch

WARRANTY

One-year warranty

APPLICATION

Enables the remote control of doors equipped with electric locks and access controls

FEATURES

Components:

Mounts to the underside of a desk for remote door control

ELECTRICAL SPECIFICATIONS

Momentary push switch

MECHANICAL SPECIFICATIONS

Dimensions:

1" (25 mm) W x 2-1/4" (57 mm) H x 2-1/2" (63 mm) D

Access Controls - Door Prop Alarm

29EA

Door Prop Alarm

Key Switches

DESCRIPTION

- Provides audible alarm when a door is accessed or left open
- Installs in single gang or double gang enclosures
- Compatible with U.S. standard 1.125" and 1.25" mortise key cylinders and interchangeable core cylinders (Sold Separately)

FUNCTIONS

- N - No Key Switch
- M - Mortise Cylinder Switch (Sold Separately)
- K - Key Switch

FEATURES

- Audible sirens with adjustable timer settings
- Bypass status indicator light
- Vandal-resistant aluminum construction with security screws
- Optional key switch or mortise cylinder
- Adjustable Timed Delay
- Exit Alarm on Door Opening
- Automatic or Manual Alarm Reset
- Output Relays
- Integral Bi-color LED Status Indicator
- Compact Universal Mounting
- 85dB Piezo Buzzer Alarm

ELECTRICAL SPECIFICATIONS

Inputs:

Voltage:

12 or 24 VDC

Trigger Input:

Dry, N/O or N/C (Selectable by on board jumper), Door Contact (Sold Separately)

Remote Reset/
Bypass Input:

Dry, N/O or N/C. Reset by momentarily shorting the input when alarmed. Bypass by shorting & holding the input when secure.

OUTPUTS

Alarm Output:

Form C, 2A @ 30VDC max

Auxiliary Output:

Form C, 2A @ 30VDC max. Follows Door Contact input, or Alarm output (fieldselectable)

LED Indicators:

Green - Normal Operation

Red - Alarm Activated

CYLINDER

3902 - 1-1/8" recommended (order separately)

HS4 - HN02 NEO Mortise Cylinder

THIS PAGE INTENTIONALLY LEFT BLANK.

Egress Devices

Just as important as access controls are egress controls. With fail secure openings, egress controls send a signal to unlock the locking device. With low energy automatic operators, knowing acts are needed to send signals to the power operator. These are all essential functions to an electrified opening. Hager Companies provides a wide range of egress controls that will satisfy your customers while being easy to install.

Egress Devices - 2972 Exit Switch

MODELS

2972-M	Momentary SPDT Exit Switch
2972-T	Integrated electric timer (adjustable 1-60 seconds) exit switch

WARRANTY

One-year warranty

APPLICATION

- 2" (50 mm) illuminated switch button for easy activation
- High impact resistant material stands up to abuse
- "Push to Exit" sign complies with NFPA requirements
- Blue illuminate button designed for access and egress applications for the disabled

OPTIONS

MODELS

2977

WARRANTY

Stainless Steel Piezoelectric Request-to-Exit Switch

APPLICATION

- Designed for indoor, outdoor, commercial, and industrial egress applications
- Ideal for harsh or high traffic conditions

FEATURES

Components:

- Vandal and weather resistant
 - 3/32" (2 mm) stainless steel vandal resistant faceplate
- No moving parts
- Selectable bi-color illumination status (Relay OFF - red or green) (Relay ON - red or green)
- Adjustable timer output, 1-30 seconds
- Superior performance in virtually any environment
- Can be used to control an automatic door, electromechanical lock, strike, or magnetic lock
- May be tied into the remote bypass (request-to-exit) input of an access control system
- Can be used to shunt an alarm system to allow egress from a secure area

ELECTRICAL SPECIFICATIONS

Input:	12/24 AC/DC
Current:	Idle - 30 mA Active - 150 mA
Output:	SPDT dry contact, 3 amp @ 30 VDC
Operating Temperature:	-40° to 160°F (-40° to 71°C)
Relay:	<ul style="list-style-type: none"> • 100,000 cycles @ 3 A 30 VDC life expectancy • 200,000 cycles @ 1.5 A 30 VDC life expectancy

MECHANICAL SPECIFICATIONS

MODELS

2978

Touchless Exit Switch

WARRANTY

One-year warranty

APPLICATION

- Designed to control electric locks/strikes, magnetic locks, or automatic door operators
- No touch wave-to-exit switch
- Active with wave of the hand
- For sanitary entry/exit applications

FEATURES

Components:

- Bi-color status illumination
- Quick connect screwless terminal block for easy installation
- No moving parts
- Uses infrared sensor technology

ELECTRICAL SPECIFICATIONS

Current:	<ul style="list-style-type: none"> • 30 mA standby; 70 mA Active @ 12 VDC • 15 mA standby; 35 mA Active @ 24 VDC
Output:	DPDT, 3 amp dry contact
Activation Time:	1 second or as long as sensor is triggered
LED Color:	Standby - red; Active - green
Range:	4" (10 cm)

Egress Devices - 4801 Non-Latching Pressure Sense Push Bar

MODELS

4801

The Sure Exit is a non-latching, heavy duty, request-to-exit push bar that will activate the 2958 & 2958T when slight pressure is applied to the bar.

WARRANTY

One-year warranty

FEATURES

Components:

- Magnetic lock release
- Access control request-to-exit
- Delayed egress trigger
- Alarm shunt
- CCTV or alarm activation
- Tri-Failsafe
 - *a third redundant micro switch is automatically activated to release the door if both sensors or electronics fail*
- No moving parts, quick, and quiet operation
- Human touch not required
- Sensor calibration not required
- Field installed green sign with 1" letters
- Heavy duty construction
- Narrow, low profile
- Two outputs
 - *two dry contacts for lock release, request-to-exit, alarm shunt, alarm activation, CCTV activation*
- Armored power loop
 - *18" flex stainless conduit*

ELECTRICAL SPECIFICATIONS

Voltage Input: 12/24 VDC $\pm 10\%$
- no field adjustment

Current Input: 20 mA @ rest, 115 mA active

Output: Two, SPDT Dry, 3 Amp @ 28 VDC

Operating Temperature: 0° to 150° F (-18° to 66° C)

Electric Power Transfer Devices

Electrified cylindrical locks, mortise locks, and exit devices all require power provided to them. Depending on the application, Hager offers power transfers and ETW Hinges to pass the power source through the door to the device. (See Commercial Hinges for ETW information.)

Electric Power Transfer Devices - Heavy Duty

2-679-0620

Concealed Mortise Mount Power Transfer Loop

- Frame mortised steel dust box with flexible steel loop and chrome finish
- Recommended for use with hollow metal frames
- UL Listed
- 11-1/2 (h) x 1 (w) x 3/4 in (d)
(292 (h) x 25 (w) x 19 (d) mm)

- Provides a concealed and secure means of transferring electric lock and exit device power and signal wires from the frame to the door
- Completely concealed when the door is closed
- Ideal for heavy traffic and applications requiring higher security to inhibit tampering and abuse
- QC not available

MODELS

2 conductor

Two (2) 18 ga. wires, 5 amp @ 12/24 V AC/DC

2-679-0621

Aluminum powder coat (US28 equivalent)

2-679-0622

Dark brown powder coat (US10B equivalent)

10 conductor

Ten (10) 24 ga. wires, 1 amp @ 12/24 V AC/DC

2-679-0623

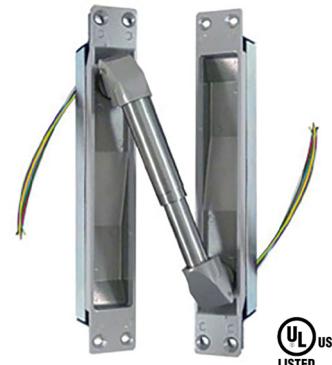

Aluminum powder coat (US28 equivalent)

2-679-0624

Dark brown powder coat (US10B equivalent)

FEATURES

- Power control, input for electric locks and exit devices, locked, latched, mantrap, forced entry, open status signal wiring
- Mortise door and frame installation
- PTM is completely concealed when the door is closed
- All metal design with stainless steel tubular wire transfer and heavy cast housing with steel back boxes provide weather and tamper resistance when door is open or closed
- Fasteners for wood, steel, and aluminum doors and frames included
- UL Listed Miscellaneous Fire Door Accessories
- UL 10C Listed for up to 3-hours on fire-rated doors and frames
- Classified according to Uniform Building Code (UBC) Standard 7-2, Fire Test of Door Assemblies (1997)

COMPATIBLE OPENINGS

- 1-3/4" (44 mm) thick doors
- 0-180° opening swing with up to 3/4" (19 mm) offset pivots
- 0-180° opening swing with up to 5" wide butt hinges
- 0-130° opening swing with up to 5-1/2" (140 mm) wide butt hinges
- 0-130° opening swing with up to 6" (152 mm) wide butt hinges
- Not compatible with center hung doors, swing clear hinges, pocket pivots, butt hinges larger than 6" (152 mm), and 1-1/2" (38 mm) offset pivots

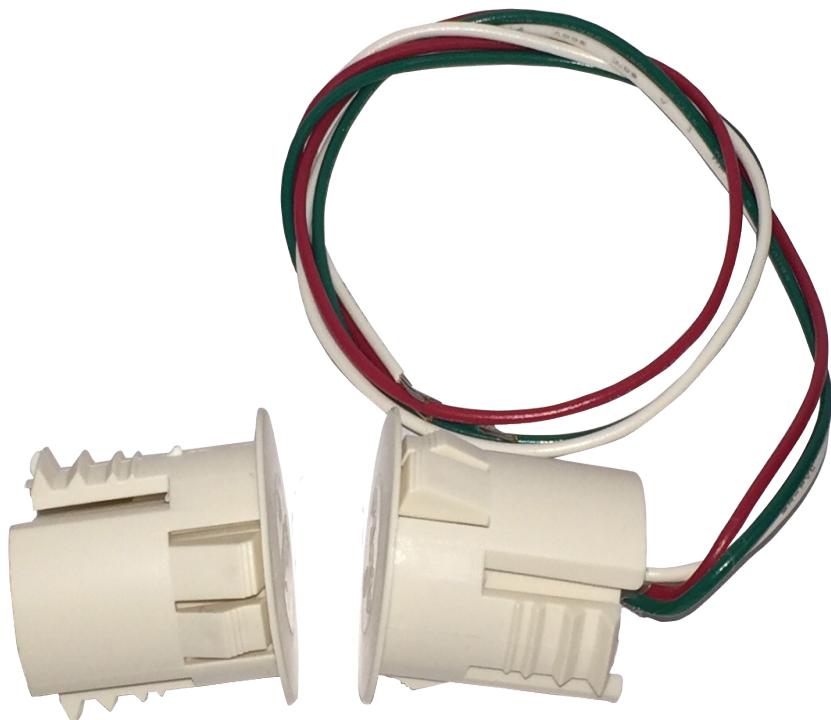

DIMENSIONS

9" (h) x 1-1/4" (w) x 1-5/8" (d)
229 mm (h) x 32 mm (w) x 41 mm (d)

Door Position Sensors

Monitoring the position of the door is crucial security. Hager Companies offers multiple sensor types that provide monitoring solutions for both new construction and retrofit.

Power Supply & Door Controllers

The functionality of power supplies differ based on the electrified components and their intended use. In order to have an optimized and properly operational electrified opening, the power supply should fit the opening, not the other way around. Hager offers different power supply solutions for different types of openings.

The 2903 is designed to optimize the functionality of Fail Safe or Fail Secure locking devices that interface with the building's alarm controls, card readers, keypads, and other access control systems.

The 2904 is designed to optimize openings that include a locking device and automatic door operator.

The 2908, 2909, 2910, and 2911 are modular designs that provide functionality for any type of opening whether it is an electric latch retraction exit device, locking devices that interface with other access controls, door operators with sequencing locking devices, or combination of all of those or just something completely different.

6A Modular Power Supply

WARRANTY

One-year warranty

DESCRIPTION

- Modular design allows customization of each power supply
- Equipped with a high performance transformer and highly reliable electronic components
- Filtering and output voltage regulation provides protection and ensures the longevity of all system components

FEATURES

Components:

- Output filtering stabilizes the DC output voltage and eliminates AC line noise
- Regulator maintains output voltage at 12 or 24 VDC regardless of load changes and battery charging
- Fire alarm input that provides simultaneous release of all Fail Safe/Fail Secure locks and door holders in case of an emergency
- Field selectable output that provides 12 VDC or 24 VDC
- Circuit breaker protected AC input voltage - secondary output is PTC protected
- LED status indicators Separate PTC protected charging output
- Optional dual 12 VDC or 24 VDC outputs

ELECTRICAL SPECIFICATIONS

Input:

- 800mA @ 115 VAC, 50/60Hz
- 230 VAC optional

Output:

- 12/24 VDC, 2A
- Class 2

Battery Charger:

13.5/27 VDC, 500 mA

LED INDICATORS

Amber:

AC and DC voltages are OK

Green:

No DC output

Red:

No AC input, powered by batteries

MECHANICAL SPECIFICATIONS

Dimensions:

- 12" x 12" x 4", 18 GA (305 x 305 x 102 mm)
- 20 gauge steel

ACCESSORIES

HAGER
COMPANIES

8300 Series Low Energy Power Operator

As more and more buildings are becoming ADA compliant, more options need to be made available. Hager's low energy operators allow you to do just that without a long list of part numbers to keep track of. Instead, Hager's low energy operators are customizable so that you can meet your customer's requirements and expectations each and every time.

The 8300 Series is Hager's most versatile low energy power operator. The 8300 was designed for easy installation and programming, along with quiet operations and features that make it an ideal choice for ADA openings.

------	---------------------------------

WARRANTY

Two-year warranty

APPLICATION

- For use on interior and exterior fire-rated outswing or inswing doors

FEATURES

Application Features:

- Non-Handed
- Three Operating Modes (On/Off/Hold Open). 8319: switch is shared between both doors on independent configurations.
- Designed for doors up to 48" wide (1219 mm) single, 96" wide (2438 mm) double
- Designed for doors up to 350 lbs. (125 Kg)

Operational Functionality:

- Power Open Spring Close
- Microprocessor controlled for ultra-flat reactions

Certification:

- ANSI A156.19 compliant
- Complies with all U.S. and Canadian ADA requirements for low energy operators
- Appropriate door signage included with each operator
- ANSI/UL 325 listed for both United States and Canada
- ADA compliant
- UL/cUL Listed for up to 3-hours
- UL10C Listed for Positive Pressure Rating

ELECTRICAL SPECIFICATIONS

Power Requirements: 115 VAC 60 HZ

Current Draw: 0.4 A to 1.2 A (Max)

Onboard Power Supply: 24 VDC 1 A

Electric Lock Relay Type: Form "C" SPDT

Lock Relay Rating: 5.0A @ 28 VDC

Fused Protection: 3.5A Fuse

Actuators

Actuators are what allow the “knowing act” of a low energy operator. Hager offers various styles and types of actuators that will appeal to every installation, including hardwired, wireless, and kinetic. Hardwired (or wired) actuators functionality is not hindered by interferences that a physical barrier may present. Wireless actuators eliminate the need for wiring and kinetic actuators harness power during the physical activation of the actuator, creating the required power to wirelessly transmit the command signal.

Actuators - How To Order

Kinetic Actuator Switches

APPLICATION

- Ideal for any existing facility needed to meet ADA public access requirements
- Kinetic switches generate power when the plate is pushed, removing the need for wires or batteries to transmit the signal to the receiver.
- For use with ADA low energy power operators
- Including medical facilities, assisted living facilities, offices, clean rooms, schools, and buildings with public access.
- Ideal for new installation in an existing facility.

Low Energy Operator Sensors

Pedestrian sensors are programmed with the door path and if there is anything within the path that was not mapped, it will stop the door from opening. These are useful on any ADA opening. Typically, assisted living facilities, daycare facilities, healthcare facilities, education institutions, multi-family, commercial structures, and government buildings all have ADA openings.

Low Energy Operator Sensors

2-659-0332

Overhead Presence Sensor

DESCRIPTION Overhead presence sensor designed for pedestrian automatic doors.

APPLICATIONS

- Provides protection for pedestrian automatic doors.
- Prevents a closed door from opening and an open door from closing when a pedestrian is in the detection zone

FEATURES

- Versatile sensor can be used on single swing, simultaneous pair, dual egress and folding doors when coupled with an interface / lockout device
- Maximum flexibility with separate pattern width, depth and sensitivity for open and closed door states
- Visible LED monitoring indicator
- Active infrared technology and presence detection
- Easy installation and adjustments with optional programming remote

SPECIFICATIONS

Mounting Angles: 5°, 10° (5° is default setting)

Input: 12-24VAC/VDC (50-60HZ VAC)

Contact Relay: 1A @ 60 VDC/125 VAC

0.5 - 9s Hold Time

Temperature: -22°F - 140°F

Dimensions: 11.8" (W) x 1.9" (H) x 1.9" (D)

Opt. Accessories: 2-659-0333 - Programming Remote

2-659-0334 - Mounting Kit

Low Energy Operator Sensors

2-659-0335 / 2-659-0336

Active Infrared Safety Sensor

DESCRIPTION | Door mounted

APPLICATIONS |

- Low energy swing doors
- Designed to mount at the top of the door to reduce accidental damage

FEATURES |

- Detect the presence of a pedestrian, while the door is opening and closing using triangulation
- Each module detection zone can be adjusted independently
- Active Infrared with background suppression allow for infinite presence detection

SPECIFICATIONS

Models:	2-659-0335 - Single module unit 2-659-0336 - Single unit w/ master and slave modules
Power Supply:	12-24 VAC/VDC
Detection Range:	0" - 96" (0'-8')
Max. Mounting Height:	96" (8')
Detection Time:	< 50ms
Input Inhibit:	12 – 24 VAC \pm 10% / 12 – 24 VDC \pm 10% / Inhibited when voltage is applied
Contact Relay:	1 A @ 30 V (resistive) 0.1 s – 4.5s hold time
LED Indicators	
Master:	Red LED = Detection Green LED = Active Output Red LED = Detection
Operating Temp:	-30°F - 140°F
Dimensions:	34.5"(L) x 1.95" (W) x 1.89" (H)
Functions	
Selection:	Detection mode - NO or NC Normal mode Background analysis mode

Individual (2-659-0335) or single w/ slave module (2-659-0336)
