# Electromagnetic Locks

# M380E EcoMag<sup>®</sup> Series Magnalock<sup>®</sup>

*600 lbs holding force,  
bracket mounted,  
sustainable Magnalock*

Intelligent, stylish and secure, with up to 80% reduction in energy consumption over the previous M380 Series.

With integrated features such as built-in smart voltage sensing, tamper sensor and an updated strike plate mounting template, the M380E joins the M680E in the family of sustainable magnalocks.

The M380EBD and M380EBDX models offer additional integrations, such as Securitron's patented BondSTAT lock sensor, Door Position Switch, built-in door prop sensing (which allows the magnet to de-energize the coil when the door is held open for extended periods), and a passive infrared request to exit (PIR REX).

## Features

### Standard Features

- Sustainability documentation
- Energy efficient, low power usage
- Synchronous double door release using a single Request to Exit
- Auto calibration upon installation
- Automatic dual-voltage – no field adjustment required
- LED Indicator shows the lock is secure, open, or has an incomplete bond
- Tamper Switch sends an alarm output if the cover is removed and is selectable to NO or NC
- Rust resistant – all ferrous metal surfaces plated for durability
- Adjustable automatic relock timer (0 to 30 seconds)
- Wire chamber anti-tamper switch
- Size optimized for use with door closers

- Patented BondSTAT lock sensor and integrated Door Position Switch (DPS) with relock timer
- MagnaCare<sup>®</sup> lifetime replacement, no fault, no questions asked warranty

### Optional Features

- Integrated passive infrared request to exit

# M680E EcoMag Sustainable Magnalock®

*1,200 lbs holding force,  
bracket mounted,  
sustainable Magnalock*

The same unsurpassed intelligence, style and convenience as the previous M680 series, but with 80% reduction in energy consumption.

The M680E is intelligent, with built-in door prop sensing allowing the magnet to de-energize the coil when the door is held open for extended periods. The M680EBD offers built-in smart voltage sensing, integrated patented BondSTAT, tamper sensor as well as door position status monitoring. The aesthetics and design finishes of the EcoMag are refined enough for the most discriminating designer openings. It also offers the fastest, easiest, most secure installation of any bracket mount maglock with an updated strike plate mounting template. The optional integrated request to exit (REX) provides optimum coverage for detecting an approaching person so the door unlocks for egress.

## Features

### Standard Features

- Strike plate mounting template provides the easiest install for out-swing doors
- LED Indicator shows the lock is secure, open, or has an incomplete bond
- Wire chamber anti-tamper switch
- Tamper Switch sends an alarm output if the cover is removed and is selectable to NO or NC
- Available integrated BondSTAT and Door Position Switch
- Autosensing dual voltage with microprocessor technology
- Adjustable automatic relock timer (0 to 30 seconds)
- Energy efficient, low power usage
- Size optimized for use with door closers
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- **B** Integrated patented BondSTAT magnetic bond sensor
- **D** Integrated Door Position Switch (DPS)
- **X** Integrated passive infrared request to exit

# DEM680E Delayed Egress Magnalock®

*Configurable, 1,200 lbs holding force, bracket mounted, delayed egress Magnalock*

Highly configurable, strong, easy-to-mount. The latest in delayed egress technology.

Building on the technology of the Securitron EcoMag Series, the DEM680E is a direct replacement for the iMXDA. Designed for applications that require a lock that delays the opening of a door, the DEM680E standard model is HUGS-compliant with specific code compliant models also available. For use on interior and perimeter exit, single, out-swinging doors.

## Features

### Standard Features

- Autosensing dual voltage with microprocessor technology – no field adjustment required
- Patented BondSTAT magnetic bond sensor and integrated Door Position Switch (DPS)
- Instant release circuit – no residual magnetism
- Easily visible LEDs indicate status on secure side of door
- Fully integrated delay and detection features for fast installation of delayed egress system
- Auto calibrated door movement detection up to 1/4" [6.35mm]
- Alarm strobe indicates countdown; stays illuminated post alarm until reset
- Size optimized to work with door closers
- External alarm relay isolated dry contact (1 A at 24 VDC)
- Configurable settings include:
  - » Nuisance delay times 0, 1, 2, or 3 seconds
  - » Irrevocable alarm times 15 or 30 seconds
  - » Bypass delay times 0, 15, 30, 45 seconds
  - » No irrevocable alarm after bypass expiration
  - » Post alarm reminder
  - » Bypass expiration alarm
  - » Manual/delayed relock
  - » Unlocked at startup

- Required sign included
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- 8 architectural finishes
- DEM680E-CA15S California-required 15s exit delay
- DEM680E-CA30S California-required 30s exit delay
- DEM680E-CH Chicago-required 15s exit delay, 1s nuisance delay, and 0s bypass time

## Exit Delay Timer

*Sophisticated control in an easy-to-use, modular exit delay timer*

Configurable exit delay is ideal for fail safe environments that have varying needs throughout the day.

Function is compatible with entry control, door/lock monitoring and authorized immediate exit. Widely used in healthcare environments to alert for patient exit and in retail environments to prevent theft.

### How to Order

**ASSA ABLOY**

### Features

#### Standard Features

- Meets all code requirements including the BOCA 30 second relock function
- Nuisance delay and release times are digitally set using precise DIP switches
- Three 5A SPDT relays for interface capabilities
- External switches such as time clocks can put the XDT into different functions when delayed exit is not desired at all times
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

#### Optional Features

- **XDT** is board only
- **BA-XDT** in surface mount enclosure with piezo sounder and door label
- **FA-XDT** is a flush mount plate enclosure with piezo sounder and door label

### Dimensions

# Modular Exit Delay System

## *Build an exit delay system customized to your specific application*

When the demands of your door environment require specific components, ASSA ABLOY's UL/ULC Exit Delay System (EXD) delivers a system that meets your specific needs.

Modular delayed egress that complies with NFPA 101 Life Safety Code and conforms to IBC and

National Building Code of Canada. This modular approach suits the specific locking requirements of all doors, as well as the desired level of physical security and ease of maintenance.

*See individual product pages for complete specifications.  
Review local codes and amendments for delayed egress*

**With modular upgrades, maintenance and replacement, Component EXD evolves with your changing access control needs.**

### 1. Select a locking device (one per door)

- Determine type of mounting
  - » Direct, Bracket, or Shear
- Determine holding force required
  - » 600 lbs to 1,800 lbs
- Choose from the following products:
  - » M32, M38, M62, M68, M82, M380E or M680E

### 2. Choose an initiating device (one per door)

- Determine type of egress
  - » Egress Control Only or Egress Control with Electronic Access Capability
- Choose from the following products:
  - » SB-MXD, LML, LMS, DSB, TSB, TSH, EMB
  - » Sargent®: 80 Series w/55 prefix
  - » Adams Rite® 3700, 3600, 3300, 3100

### 3. Choose an exit delay timer (one per opening)

- Choose from the following products:
  - » XDT, BA-XDT, FA-XDT
- If XDT is chosen, a sounder must be installed
- If BA-XDT or FA-XDT is chosen, a Sonalert and exit sticker are included
- More than one door requires purchases of additional EXD-1L Door Label

### 4. Choose a system reset (one per opening)

- Determine required reset method
  - » Manual (IBC, NFPA 101 and NBC of Canada) or Automatic (IBC)
- Choose from the following products
  - » MK Series with momentary switch for Manual Reset
  - » DPS-W and DPS-M for Automatic Reset

### 5. Choose a power source (one per building)

- Component EXD is based on a single power supply
- Power source or other output board must have a fire relay for connection to FA system.
- Different sizes are available depending on the number of doors
- Choose from AQ, BPS or BPSM Series

# SB-MXD Exit Delay Sex Bolt

The SB-MXD detects door movement and initiates a signal for delayed egress when used in conjunction with ASSA ABLOY's XDT logic timers.

Door movement tolerance ranges from  $1\frac{1}{2}''$  –  $3\frac{3}{4}''$ . Options are available for standard, thin and thick doors. Backed by our MagnaCare® lifetime replacement, no-fault, no questions asked warranty.

## Dimensions

PART NUMBER	DESCRIPTION
SB-MXD	SB-MXD Sex Bolt Kit—Door Movement

Request additional part # 390-15690 for doors > 2" [50.8mm] thick.

Request additional part # 390-15650 for doors < 1.75" [44.45mm] thick.

# Building Codes Affecting Delayed Egress in the United States

Building codes are adopted to meet the needs of local authorities having jurisdiction (AHJ) charged with the enforcement of maintaining building standards for new construction and retrofit/aftermarket projects. AHJs may determine a need to formally modify or amend adopted codes to account for the physical and/or political landscape of a jurisdiction, to generally protect public health and life-safety, and to account for evolving technologies. Remember, always confirm which code series and amendments have been adopted in your local jurisdiction before beginning any project.

The following information surrounding delayed egress code is not intended to represent the final code requirements adopted in your state, county, and/or local jurisdiction and reflects Securitron's best understanding of the individual code series published by the International Code Council (ICC), International Building Code (IBC), and National Fire Protection Association (NFPA) at the time of this catalog's printing.

This chart provides a high-level outline of commonly adopted code series published by ICC/IBC and NFPA and basic delayed egress requirements. To reference specific code requirements, noted exceptions, and occupancy details pertaining to delayed egress, refer to the chapter, section, sub-section, and paragraph designations listed in the first column. Base codes are available to view online free of charge by visiting [iccsafe.org](http://iccsafe.org) and [nfp.org](http://nfp.org)

# M32 Magnalock®

*600 lbs holding force  
direct mounted Magnalock*

## The ultimate in Magnalock reliability for indoor/outdoor traffic control.

The M32 electromagnetic lock is ideal for traffic control in high-use areas within secured or monitored perimeters. With unsurpassed durability, the M32 will last long after most buildings wear out. Applications include storage areas, rooms, and hallways where reliability, high durability and low-maintenance are required.

*NOTE: M32-SS in cabinet lock section. See page #48.*

## Features

### Standard Features

- Fire rated—3 hours
- PoE friendly
- Sustainability documentation
- Efficient, low power usage
- Automatic dual-voltage—no field adjustment required
- Fully sealed for weather resistant operations
- Size optimized for use with door closers
- Rust resistant—all ferrous metal surfaces plated for durability
- Instant release circuit—no residual magnetism
- Noise suppression with built-in MOV
- 10 ft [3.05m] of jacketed, stranded conductor cable
- Ultra-secure collapsing blind nuts mount to door frame for strength and reliability
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- **F** Face drilled
- **B** Patented BondSTAT magnetic bond sensor
- **D** Integrated Door Position Switch (DPS)

# M62 Magnalock®

*1,200 lbs holding force  
direct mounted Magnalock*

**The ultimate in  
Magnalock versatility  
for indoor/outdoor  
higher security.**

The M62 is a strong, easy-to-maintain solution for interior, perimeter and exterior access control. With unsurpassed durability, the M62 will last long after most buildings wear out. Flexible mounting options support applications for hollow metal, concrete filled metal, wood, or glass with aluminum frames, and all glass doors. Options include single and double door configurations, or specialty applications such as gates and fences, and hazardous locations.

*NOTE: M62FG-SASM in Specialty Lock section. See page #62.*

# DM62 Magnalock®

*The ultimate 1,200 lbs holding force Magnalock double magnet for indoor/outdoor high security*

The versatile DM62 electromagnetic lock offers strength and ease of maintenance for interior, perimeter and exterior access control—in a compact double magnet.

This all-in-one unit is designed for double doors with no mullion. With unsurpassed durability, the DM62 will last long after most buildings wear out.

## Features

### Standard Features

- Ultra-secure collapsing blind nuts mount to door frame for strength and reliability
- Fully sealed for weather resistant operations
- 3' [1 m] of jacketed, stranded conductor cable for each lock
- Automatic dual-voltage —no field adjustment required
- Instant release circuit —no residual magnetism
- Noise suppression with built-in MOV
- Efficient, low power usage
- Rust resistant—all ferrous metal surfaces plated for durability
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- **B** Patented BondSTAT magnetic bond sensor
- **D** Integrated door position switch (DPS)
- **OS** Offset strike plates

Grade 2

# M82 Magnalock®

*1,800 lbs holding force  
direct mounted Magnalock*

## Industrial strength hold for challenging indoor/outdoor environments.

The M82 electromagnetic lock offers unsurpassed magnetic holding strength, durability and ease of maintenance for interior, perimeter and exterior access control applications in high-risk environments. With unsurpassed durability, the M82 will last long after most buildings wear out. Flexible mounting options are available for higher security locations and other environments where extreme forces may be encountered.

## Features

### Standard Features

- Efficient, low power usage
- Automatic dual-voltage —no field adjustment required
- Fully sealed for weather resistant operations
- Rust resistant—all ferrous metal surfaces plated for durability
- Instant release circuit —no residual magnetism
- Noise suppression with built-in MOV
- 10 ft [3.05m] of jacketed, stranded conductor cable
- Ultra-secure collapsing blind nuts mount to door frame for strength and reliability
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- **F** Face drilled
- **G** Gate conduit
- **B** Patented BondSTAT magnetic bond sensor
- **D** Integrated Door Position Switch (DPS)
- **SS** Split Strike
- **OS** Offset Strike

## ASB Aluminum Spacer Bracket

- Use when a blade stop requires the Magnalock to be lowered
- Comes pre-drilled for the mounting bolts and wire
- Provides a blind nut for surface installation of strike
- Available in clear aluminum or black anodized
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## M32/62/82 Magnalock Accessories

### AOS Offset Strike Plate

- Alters the position of the mounting hole by 1/4" [6mm]. This is often required to clear the glass on aluminum frame store doors.
- Includes Offset Strike Plate only.
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty.

PART NUMBER	DESCRIPTION
AOS-62	Strike Plate – M62, Offset
AOS-62D	Strike Plate – M62D, Offset
AOS-82	Strike Plate – M82, Offset

### ASS Split Strike/Replacement Strike Plate

- Allows a single M32, M62 or M82 Magnalock to secure a double door at traffic control holding force level.
- Includes Split Strike Plates only.
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty.

PART NUMBER	DESCRIPTION
ASS-32	Strike Plate M32 – Split Set w/ Fasteners & Sex Bolt
ASS-62	Strike Plate M62 – Split Set w/ Fasteners & Sex Bolt
ASS-82	Strike Plate M82 – Split Set w/ Fasteners & Sex Bolt

### ZA Z Bracket Kits – Adjustable

- Use on in-swing doors with Magnalock "F" options (8-1/2" [215.9mm] overall length).
- Provides 1-1/4" [31.75mm] of lateral movement to accommodate most openings and allows for precision adjustments (2-1/4" to 3-1/2" [57.15mm to 88.9mm] from door/header).
- Includes an oversized dress cover.
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty.

## EASB Energy Absorbing Sex Bolt

The Energy Absorbing Sex Bolt provides additional protection and shock absorption to augment holding force when a door experiences dynamic forces such as kicks or repeated blows. Used in mental health care and detention ancillary or administrative doors, and perimeter doors.

- For high-security applications on inflexible doors.
- Replaces the standard Sex Bolt.
- Contains a powerful internal spring that absorbs and dissipates the force of a blow.
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty.

## TDK-1 Accessory for Thick Doors

- Provides replacement screws so armature plates for the M32, M62, M82, M38 and M68 can be used on doors thicker than 1-3/4" [44.45mm], and up to 3" [76.2mm].
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty.

## SB-1 Sex Bolt Replacement

- Replaces armature plate sex bolt for M32, M38, M62, M68 and M82B Magnalocks.
- Available in clear, polished brass or oil rubbed bronze finish.
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty.

PART NUMBER	DESCRIPTION	FINISH

### DDC Double Dress Covers

- Use with M32/M62.
- Available in clear anodized and black finish.
- Will cover a pair of Magnalocks on a double door (if they are separated by no more than 2").
- Not for use with the DM62 Magnalock.
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty.

PART NUMBER	DESCRIPTION	COLOR

HHD	32	HHD Max Length 96"
HHSL	62	HHSL Max Length 96"
HHSR	82	HHSR Max Length 48"
HVD		HVD Max Length 96"

NOTE: Configurable parts HHSL-82 and HHSR-82 have been discontinued. Not every combination is possible. Please contact the factory if you need a combination of features not listed above.

# Securitron

*The premier supplier of electromagnetic locking solutions.*

When you choose a genuine Magnalock®, you get quality solutions for high traffic and high security applications plus MagnaCare® Lifetime Replacement No-fault Warranty.

## *Intelligent & Sustainable Magnalocks*

- Available with PIR REX, BondSTAT® and DPS reduce the number of devices to buy and install at the door.
- Sleek, low profile and refined lines for aesthetically demanding applications.
- Patent-pending template and bracket mounting system enable accurate alignment of magnet and armature plate for maximum holding force, installs in less than 22 minutes.
- Reduces energy consumption by up to 80%.

## *Durable Magnalocks*

- Lower power usage than competitor locks. At three watts (less wattage than a typical nightlight), a Magnalock operates efficiently with a smaller power supply, thinner wiring and longer battery backup. Magnalocks consume less energy, generate less heat and outlast the competition.
- Water resistant design, shock absorbing polyurethane, stainless steel casing and plated lock face that is impervious to corrosion operate from -40°F to 140°F [-40°C to 60°C].
- Instant release circuit with no residual magnetism and no inductive kickback.

**MagnaCare  
Warranty**

## *All Magnalocks Include*

- Automatic dual-voltage uses 12 or 24 volt power supply and protects Magnalock
- World-class technical support experts, ready to assist you in selecting hardware, wiring and troubleshooting your opening
- Collapsing blind nuts, securely anchor Magnalocks to the frame with up to 4,000 lbs of tensile strength
- Excellent product quality—Magnalocks are manufactured in an ISO9001 and ISO14001 certified factory in Phoenix, AZ
- MagnaCare®, the best warranty in the industry—lifetime replacement, no-fault, no questions asked

# M38 Series Magnalock®

*600 lbs holding force,  
bracket mounted Magnalock*

Easily installed,  
bracket mounted  
Magnalock for interior  
applications.

The M38 electromagnetic lock is ideal for traffic control in high-use areas within secured or monitored perimeters. Offerings include solutions for interior rooms, closets and hallways where reliability, high durability and low maintenance are required. Bracket mounting and wiring chamber provide quick, accurate installation.

## Features

### Standard Features

- Automatic dual-voltage —no field adjustment required
- Bracket mounting provides the easiest install for out-swing doors
- Rust resistant—all ferrous metal surfaces plated for durability
- Instant release circuit —no residual magnetism
- Internal wire access chamber
- Noise suppression with included MOV
- Ultra-secure collapsing blind nuts mount to door frame for strength and reliability
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- D Integrated Door Position Switch (DPS)
- L LED indicator
- T Anti-tamper switch

## IK Installation Kit

This convenient, cost effective kit contains everything an installer needs to achieve professional, high quality Magnalock® installations. The IK offers substantial savings over purchasing the same items separately.

Securitron's original installation kit includes the following components:

- Tool Box
  - Heavy Duty Drill Guide
  - Blind Nut Placement Tool
  - Sex Bolt – M32/M62/M82
  - T-Handle Hex Wrench
  - Hardware Packs
  - M32/M62/M82
  - Rubber Washers
  - Flat Washers
  - Insulated Crimp Connectors
  - Threadlock
  - 1/8" Cobalt Drill Bit
  - 3/8" Cobalt Drill Bit
  - 3/8" Carbide Drill Bit
  - 1/2" High Speed Drill Bit
  - Blind Nuts with Collapsing Tool
  - Finish Caps
  - Long Screw Pack
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

# M34R Recessed Magnalock®

*500 lbs holding force,  
recessed Magnalock*

## Recessed Magnalock for traffic control on a sliding door.

The M34R secures single sliding doors with Magnalock strength for traffic control applications within a monitored perimeter. The recessed design on the edge of the door that comes against the frame when the door is closed conceals the maglock for hidden protection that blends with the aesthetics of the opening. Ideal on automatic single sliding doors or on sliding doors for patios, storage closets and more.

## Features

### Standard Features

- Efficient, low power usage
- Automatic dual-voltage—no field adjustment required
- Fully sealed for weather resistant operations
- Rust resistant—all ferrous metal surfaces plated for durability
- Instant release circuit—no residual magnetism
- Noise suppression with built-in MOV
- Recessed for aesthetically appealing finish
- 10 ft [3.05m] of jacketed, stranded conductor cable
- Direct mount in door frame for strength and reliability
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- **B** Patented BondSTAT magnetic bond sensor
- **D** Integrated Door Position Switch (DPS)

# M34R Magnalock

## Specifications

### Certifications

- UL 294 listed

# SAM Shear Aligning Magnalock®

*1,200 lbs holding force, shear aligning Magnalock*

## Hidden strength for any application.

This concealed Magnalock is ideal for traffic control or medium security and with its flexible mounting options solutions the most challenging door control situations. The SAM Shear Aligning Magnalock has mounting options for a single door or each leaf on a pair of doors and can be on a sliding, in-swing, out-swing or swing-through door. It mounts fully concealed into wood, steel, aluminum or latching in any position: at the header, door edge or threshold.

## Features

### Standard Features

- Efficient, low power usage
- Automatic dual-voltage — no field adjustment required
- Fully sealed for weather resistant operations
- Rust resistant — all ferrous metal surfaces plated for durability
- Instant release circuit — no residual magnetism

# SAM2-24 Shear Aligning Magnalock®

*600 lbs holding force,  
shear aligning Magnalock*

## Hidden strength at any angle ideal for traffic control.

The compact and versatile SAM2-24 Shear Aligning Magnalock provides 600 lbs. of holding force to swinging or sliding doors. It is ideal for traffic control and to secure smaller applications, like sliding closet doors, atriums, and more. The SAM2-24 mounts fully concealed into wood, steel, aluminum or Herculite doors in any position: at the header, door edge or threshold.

## Features

### Standard Features

- Efficient, low power usage
- Fully sealed for weather resistant operations
- Compact design fits tight spaces
- Rust resistant—all ferrous metal surfaces plated for durability
- Instant release circuit  
—no residual magnetism
- Noise suppression with included MOV
- Recessed for aesthetically appealing finish
- 6 ft [1.83m] of jacketed, stranded conductor cable
- Direct mount in door frame for strength and reliability
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

# Magnalock® Options

## *Anti-Tamper Sensor (T)*

The Anti-Tamper option provides a Single Pole Double Throw (SPDT) switch output that indicates if the wire access chamber cover has been tampered with or removed. When connected to an alarm point on an alarm panel or access control system, it offers real-time notification of tampering attempts.

## *Door Position Switch (D)*

The Door Position Switch (DPS) provides a signal to an access control system indicating whether the door is open or closed. When used in conjunction with BondSTAT or SenSTAT, it provides layered status indication for precise information about the door state. The DPS may be ordered included with many Magnalocks — or as an upgrade kit.

## *SenSTAT (S)*

Unlike commonly used door position switches that indicate only that a door is closed, SenSTAT detects the presence of an armature plate and notifies the access control or alarm system that the magnet is engaged. All SenSTAT Magnalocks use Form 'C' isolated contacts.

## *BondSTAT (B)*

BondSTAT is the next generation of patented electromagnetic lock monitoring. BondSTAT delivers unparalleled peace of mind by detecting an armature plate and notifying access control and/or alarm systems that a door is properly secured. BondSTAT's sensitive magnetic field monitors the entire surface of the armature plate, providing maximum assurance that the lock is engaged. Movement in the armature's position beyond the set tolerance alerts the access control system that the Magnalock may not be generating its full holding force.

## *Conduit Fitting (G)*

The conduit fitting option is offered on some Magnalocks that can be used for gate-mounting applications and features a 3/4" outer diameter and 1/2" inner diameter.

## *Offset Strike Plate (OS)*

An Offset Strike Plate may be required for proper installation of a Magnalock in aluminum frame door applications.

## *Split Strike Plate (SS)*

A Split Strike Plate may be used for a double door with no mullion to provide traffic control using a single Magnalock.

## *Face Mount (F)*

Face Mount Magnalock options provide the holes for the mounting bolts through the face of the magnet in a front-to back orientation rather than through the magnet bottom-to-top.

## *LED (L)*

The LED provides a local visual indicator of the status of the lock. On locks with the SenSTAT option, the LED will be green when the lock is powered but not secure, and red when the lock is secure. Locks without the SenSTAT option will only indicate green when powered.

## *Request to Exit (X)*

Some Magnalock models offer an integrated motion detector that automatically signals the lock to disengage when it detects approaching traffic, also known as request to exit (REX).

- Collapsing blind nuts securely anchor Magnalocks to the frame with up to 4,000 lbs of tensile strength
- Excellent product quality—Magnalocks are manufactured in an ISO9001 and ISO14001 certified factory in Phoenix, AZ

- MagnaCare®, the best warranty in the industry – lifetime replacement, no-fault, no questions asked

Cabinet Locks

# MCL Cabinet Magnalock®

*The compact versatile asset management cabinet locking solution*

The MCL is ideal for extending access control to all sizes and shapes of cabinets and enclosures that require asset protection.

Typical applications include jewelry cases, museum cases, gun cabinets, pharmaceutical storage cabinets, cash drawers and any swinging or sliding door or drawer that needs asset control — indoors or out.

## Features

### Standard Features

- Direct mount or bracket mount with common tools for easy installation
- Universal bracket included to support a variety of applications
- Efficient, low power usage
- Fully sealed for weatherproof operation
- Rust resistant — all ferrous metal surfaces plated for durability
- Sealed 6 ft. [1.8m] jacketed, stranded conductor cable

# Specialty Locks

# GL1 Gate Lock

*Electromechanical gate solution offers one ton of holding power*

The heavy duty GL1 Electromechanical Gate Lock provides weather-resistant access control for a wide range of gate applications.

The GL1 provides 2,000 lbs of holding force for electrical and manually operated indoor or outdoor gates where preload is a concern. Ideal for swinging or sliding vehicle, pedestrian or stock gate access control.

## Features

### Standard Features

- 2,000 lbs holding force
- Operates under preload up to 100 lbs
- Automatic dual-voltage—no field adjustment required
- Accepts a standard mortise cylinder with Adams Rite MS cam for manual key override (not included, see spacer guide below)
- Self-aligning receiver (+/- 1/2" [12.7mm] horizontally) helps compensate for gate misalignment and sag
- Tamper resistant cast housing
- Optional latch status monitor
- Surface mount
- SecuriCare three-year, no-fault, no questions asked warranty

### Optional Features

- **FL** Fail locked
- **FS** Fail safe
- **M** Monitoring option

# M62FG – SASM Gate Magnalock®

*The shock absorbing 1,200 lbs  
Magnalock solution for outdoor gates*

The M62FG-SASM is the only heavy duty Magnalock specifically designed to secure and protect gates.

This weatherproof unit delivers 1,200 lbs of holding force and comes equipped with conduit fittings and a special shock absorbing strike mount (SASM). This unique design dramatically prolongs the life of the lock, the gate and other hardware by controlling excessive impact between the strike plate and the magnet.

The SASM is also available as a separate retrofit kit and is compatible with M32, M62 or M82 Magnalock strike plates for areas prone to excessive force closures or slamming.

## Features

### Standard Features

- Flexible bracket options for swinging or sliding applications
- Fully sealed for weatherproof operations
- Includes universal threaded conduit fitting 1/2" [12.7mm] female – 3/4" [19mm] male
- 10 ft. [3.05m] of jacketed, stranded conductor cable
- Noise suppression with built-in MOV
- Automatic dual-voltage —no field adjustment required
- Rust resistant—all ferrous metal surfaces plated for durability
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- **B** Patented BondSTAT magnetic bond sensor
- **D** Integrated Door Position Switch (DPS)
- **F** Face drilled
- **G** Gate conduit
- **SASM** Shock absorbing strike mount—shock absorption and rebound assistance for proper gate alignment

# FMK Flex-Mount Gate Lock Bracket Kits

*Bracket kits extend access control to gates and fences*

The FMK Flex-Mount Bracket System is an intuitive set of mounting brackets designed exclusively for use with the M62FG Magnalock® and the GL1 Gate Lock.

Pre-formed post channels and plates of varying lengths make it easy for you to assemble a professional looking, high-security gate lock mounting platform in minutes, without special tools.

## Features

### Standard Features

- Permits electronics to be mounted on fence posts or gate posts
- Brackets are reversible
- Bracket kits include brackets, mounting hardware and post shims
- Post brackets are pre-drilled
- Zinc-plated steel provides durability and long life
- Bolt on or weld for installation
- Compatible with maximum 3" [76.2mm] round post with minimum pole separation of 1" [25.4mm]
- Use with post shim brackets for smaller post sizes
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

MagnaCare

# MM15 MEMLOCK® Magnetic & Mechanical Lock

*4,000 lbs holding force,  
bracket mounted, magnetic  
electromechanical lock*

## Unique hybrid design, with two tons of holding power.

The hybrid design of this magnetic electromechanical lock includes two springloaded, hardened steel jaws that deliver up to 4,000 lbs of ultimate holding power. In a forced-entry assault, the jaws of the MM15 MEMLOCK clamp down on the armature plate and hold firm, for an unmatched level of access control.

## Features

### Standard Features

- Efficient, low power usage
- Ideal for mental healthcare and auxiliary detention facilities and other high-risk locations
- Automatic dual-voltage — no field adjustment required
- Mounting plate for easy, accurate installation
- Size optimized for use with door closers
- Accepts AC or DC current
- Ultra-secure collapsing blind nuts mount to door frame for strength and reliability
- Fail Safe, but can be installed with a battery backup power supply
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- **G** Gate conduit
- **D** Integrated Door Position Switch (DPS)
- **T** Anti-tamper switch

DC-MM15BS	DC-MM15, Satin Brass

## HEB-MM15 Header Extension Bracket

- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

PART NUMBER	DESCRIPTION
HEB-1BK-MM15	HEB-1" for MM15 Series, Black Finish
HEB-1CL-MM15	HEB-1" for MM15 Series #130, Clear Finish
HEB-2BK-MM15	HEB-2" for MM15 Series, Black Finish
HEB-2CL-MM15	HEB-2" for MM15 Series #130, Clear Finish
HEB-3BK-MM15	HEB-3" for MM15 Series, Black Finish
HEB-3CL-MM15	HEB-3" for MM15 Series #130, Clear Finish

## Z-MM15 Z Bracket Kit

- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

PART NUMBER	DESCRIPTION
Z-MM15BK	Z-Bracket—MM15, Black
Z-MM15CL	Z-Bracket—MM15, Clear

# Electric Strikes

# UNL UnLatch® Strike

*Works with most cylindrical locksets up to 5/8" throw latchbolt*

The universal compact, high performance, no cut electromechanical motorized electric strike for use with cylindrical locksets.

Designed for easy installation, the UNL is capable of releasing under preload conditions and accommodates latchbolts up to 5/8" throw. Strong enough to withstand windstorm conditions, the UNL is the UL listed, fire rated electric strike that includes lock monitoring standard and provides ANSI/BHMA Grade 1 holding power.

## Features

### Standard Features

- No cutting required
- Preload capable (up to 15 lbs., fail secure only)
- Accommodates 1/2" – 5/8" [12.7mm – 15.875mm] latchbolt (5/8" [12.7mm] with 1/8" [3.175mm] door gap)
- Latchbolt Monitor (standard SPDT)
- Fail secure (standard)
- Tamper Resistant
- Supports deadlatch function
- Strike body depth 1-1/2" [38.1mm]
- SecuriCare five-year, no-fault, no questions asked warranty

### Optional Features

- 12 VDC
- 24 VDC
- FSUNL for field-selectable fail safe operation (ordered separately)

## UNL UnLatch Strike

# Specifications

### Certifications

- UL 10C fire-rated, 3 hour (fail secure only)
- CAN/ULC-S104 fire door conformant
- NFPA-252 fire door compliant
- ASTM-E152 fire door compliant
- ANSI/SDI A250.13 windstorm listed
- Florida Building Code approved TAS 201, 202, 203t
- ANSI-ASTM E330

### Electrical

- 12 VDC (continuous duty):
  - Inrush – 2A
  - Standby Current – 40mA, minimum 700mA when operating
- 24 VDC (continuous duty):
  - Inrush – 4A
  - Standby Current – 40mA, minimum 500mA when operating

### Holding Force

- 1500 lbs [680kg] static

### Operating Temperature

- 20° to 125°F [-29° to 52°C]

### Shipping Weight

- 1.6 lbs [0.73kg]

# Dimensions

PART NUMBER	DESCRIPTION
FSUNL-12	Fail Secure/Fail Safe Unlatch Module, 12 VDC, .90 mA
FSUNL-24	Fail Secure/Fail Safe Unlatch Module, 24 VDC, 1.4 mA

NOTE: FSUNL for field-selectable fail safe operation ordered separately

# FSUNL Field Selectable Unlatch® Module

## Allows Fail Safe or Fail Secure Configuration of UNL and MUNL

The FSUNL is used with a UNL or MUNL installation to provide selectable fail safe or fail secure behavior. Removal of power initiates a full unlatch or latch cycle depending on which mode is selected.

# How to Order

SERIES	VOLTAGE	FINISH
UNL	- 24	- 10B
UNL Cylindrical	12 12 Volt	613 Stainless Steel
	24 24 Volt	626 Oil Rubbed Bronze

# MUNL

*Works with Mortise locksets  
without deadbolts up to a 3/4"  
throw latchbolt*

The universal compact, high performance, no cut electromechanical motorized strike for use with mortise locksets without deadbolts.

Designed for easy installation, the MUNL is capable of releasing under preload conditions and accommodates latchbolts up to 3/4" [19mm] throw. Strong enough to withstand windstorm conditions, the MUNL is the UL listed, fire rated electric strike that includes lock monitoring standard, provides ANSI/BHMA Grade 1 holding power and includes field adjustability for latch and deadlatch positions.

## Features

### Standard Features

- No cutting required
- Preload capable (up to 15 lbs., fail secure only)
- Accommodates up to 3/4" [19mm] latchbolt (with 1/8" [3.175mm] door gap)
- Latchbolt Monitor (standard SPDT)
- Tamper Resistant
- Fail secure (standard)
- Maintains dead latch function at all times
- Strike body depth 1-7/8" [47.6mm]
- SecuriCare five-year, no-fault, no questions asked warranty

### Optional Features

- 12 VDC
- 24 VDC
- FSUNL for field selectable fail safe operation
- One model works with most North American Mortise Locks (Sargent 7800 and 8200 require tab kit model #STK-1 for retrofit installations)

# Keypads & Card Readers

# DK-12 Digital Keypad System

*All-in-one keypad system  
for single door traffic control*

The DK-12 standalone keypad is ideal for lower security applications such as traffic control.

Easy to install and to program, the one-piece DK-12 supports 99 user codes, including Passage mode and Lockout mode.

## Features

### Standard Features

- Single gang, stainless steel plate with low voltage mounting ring
- 12-key illuminated 3x4 keypad
- True 10-digit operation (10 digits plus \* and # keys)
- 99 user code capability
- Easy programming from the keypad
- Passage mode and Lockout mode
- Configurable audible keystroke echo
- Red, green and yellow LEDs for status and programming feedback
- Fail secure or fail safe-capable
- Easy to install with simple hand tools
- 5A SPDT timed, control relay output
- Request to exit (REX) input
- Primarily for indoor applications
- US32D/630 Satin Stainless Steel finish
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Accessories

- **WCC** Weather-resistant cover
- **WBB** Weather-resistant backbox

## Specifications

### Electrical

- 100 mA at 12 or 24 VDC
- 325 mA at 12 or 24 VAC
- Max 30 Volt input
- 5A SPDT Relay

### Operating Temperature

- -10° to 140° F [-23° to 60° C]

### Shipping Weight

- 1lb [0.45 kg]

## Need an Outdoor Solution?

WCC and WBB allow DK-12 to be mounted in outdoor locations not directly exposed to rain or snow.

WCC

WBB

Ordered Separately

## Dimensions

# DK-16 Digital Keypad System

*Secure, easy-to-program, single-door control system*

The DK-16 digital keypad system provides medium/high security control of electric locks in a one- or two-door application where both doors have the same control needs.

The tamper-resistant keypad provides true ten-key operation for use and programming. Encased in a separate enclosure for secure installation in a protected area, the controller offers REX input and relay output for lock control, alarm shunt or other interfaces.

## Features

### Standard Features

- 12-key keypad with engraved and paint filled numbers
- Stainless steel plate
- Red, green and yellow LEDs for status and programming feedback
- Audible keystroke echo
- True 10-key operation (keys are not paired)
- 59 users with multiple entry codes
- User code and hard code disable feature
- Passage mode and Lockout mode
- Request to exit (REX) input
- 16 ft. [4.8m], 12 conductor, 22 gauge keypad cable
- US32D/630 Satin Stainless Steel finish
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Accessories

- **WCC** Weather-resistant cover
- **WBB** Weather-resistant back box
- Keypad available as system or separately

# R100 Aperio® Wireless Card Reader

*Surface mounted,  
no drilling required*

The R100 surface mounted wireless card reader offers a cost effective, aesthetically pleasing way to extend access control to glass, metal or stone surfaces without the need for cutting or drilling.

A retrofit solution capable of being installed in minutes that complements virtually any ASSA ABLOY electrified locking device. Provides flexible, robust retrofit options for entryways unlike any the industry has seen before.

## Features

### Standard Features

- For use on glass or metal surfaces
- 2.4 GHz Aperio wireless technology
- Supports HID multiCLASS SE® card technologies
- Supports NFC & BLE mobile credentials
- Integrates with existing access control systems and ID badges
- Audit trail limited by EAC system
- LEDs indicate valid/invalid entries; Red/Amber or Green/Amber
- Black finish
- SecuriCare three-year, no-fault, no questions asked warranty

### Accessories

- **R100-DCA** R100 adhesive Aluminum dress cover plate
- **EXT-10-ANT** Aperio® Hub External Antenna (Omni-directional)
- **APD10USB** Aperio Radio Dongle\*
- **ACC10** Credential Test Cards
- **HSA-HPK** Hard Powered Kit
- **HSA-HE** Heating Element
- **HSA-CWK** Cold Weather Kit

\*Only available through ACP/CI channel

*NOTE: The R100 card reader is available as either a pre-paired reader and hub kit (no certification required) or as a field configurable component (requires Aperio® Certified Integrator certification). Pre-paired kits support limited features, field configured devices are required in order to support all options. Visit IntelligentOpenings.com to learn more.*

# R100 Series Card Reader

## Specifications

### Certifications

- FCC Part 15 & Industry Canada Compliant
- CE RED – Radio Equipment Directive – 2014/53/EU
- RoHS Compliant

### Electrical

- Estimated Battery Life: 50,000 Cycles
- (2) "AA" lithium batteries (included)  
AA Lithium Batteries required. Use of other types of batteries, such as alkaline, will significantly decrease battery life.
- microUSB port for emergency power

### Environmental

- Operating Temperature

# DR100 Aperio® Wireless Card Reader with Relay

*Surface mounted reader with configurable relays.*

The DR100 is the industry's first universal I/O module with built in reader and Aperio wireless technology.

This unique hardpowered product is designed to activate traditional electrified hardware, providing the flexibility to secure the most challenging openings. Applications may include turnstiles, overhead doors, loading dock doors and roof access where an integrated wireless lock cannot be used.

The DR100 supports HID multiclass SE and NFC/BLE mobile access card technologies, easily interfacing with existing access control systems to extend real-time, cost-effective security to more openings.

## Features

### Standard Features

- 2.4 GHz Aperio wireless technology
- Integrates with existing access control systems and ID badges
- Supports HID multiCLASS SE® card technologies
- Supports NFC & BLE mobile credentials
- Audit trail limited by EAC system

# Push Buttons & Egress Devices

# XMS2 Exit Motion Sensor

*Versatile motion detection for hands-free exit request*

The XMS2 passive infrared (PIR) motion sensor request to exit (REX) device reliably detects motion near a door and releases its lock.

Versatile mounting options and an easily adjustable infrared beam pattern provide optimal coverage of the egress area for smooth, hands-free lock release and exit.

**SAFETY NOTE:** Securitron recommends that an emergency exit button, such as the EEB, be used in conjunction with the XMS2 to meet applicable building codes and specific life safety issues.

## Features

### Standard Features

- Passive infrared (PIR) request to exit (REX) device
- Automatically and reliably cuts power to the lock with no human intervention
- REX output
- Easily adjustable beam pattern
- Suitable for openings up to 12 ft in height
- Adjustable time relock
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Dimensions

## Specifications

### Operation

- Indoor use only

### Electrical

- 20 mA-50 mA (depending on switching status) at 12 or 24 VDC

### Shipping Weight

- 0.5 lbs [0.23kg]

# EEB Emergency Exit Button

*Redundant backup ensures safe egress*

Install the EEB Emergency Exit Button next to the door to provide additional safety and redundancy as required by code when using a motion detector for a request to exit device.

**NOTE:** Securitron's UL294 certification indicates that when the EEB is used with the XMS Motion Sensor, it meets the NFPA Life Safety Code 101 requirements for exit of access-controlled egress doors.

## Features

### Standard Features

- Backup device in case of exit sensor failure per BOCA, NFPA, IBC, and VBC code
- Momentarily pressing the button releases the door for 30-seconds
- Re-triggerable for added 30-second release
- Interchangeable green and red lenses included standard
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- Single gang
- Narrow stile
- EEB2 includes standard lenses plus blue ADA lens
- Illumination kits

*Medium round, illuminated push button*

High quality Push Buttons are available in a broad selection of colors, sizes, switch types and outputs.

With a wide range of options for interchangeable lenses and field convertible outputs, push buttons can release any lock, alone or in conjunction with door closers and other hardware.

## Features

### Standard Features

- Includes interchangeable green, red and blue ADA lenses
- Field convertible from DPST to DPDT
- Field selectable 12/24VDC
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Specifications

### Dimensions

- Stainless steel single gang plate: 4-1/2" x 2-3/4" [114mm x 70mm]

### Electrical

- 9 mA at 12 VDC
- 20 mA at 24 VDC
- 5 A rated contacts

## Push Button Accessories

WCC

WBB

PB2-LK

PB3-LK

- WCC and WBB weatherize any single gang push button to permit mounting in outdoor locations not directly exposed to rain or snow.

- PB2-LK – Illumination kit for PB2E, PB5E & EEB2
- PB3-LK – Illumination kit for PB3E, PB3EN & EEB3N Series

# MK Mortise Key Switch

*Turns standard mortise cylinder into full featured key switch*

The MK Mortise Key Switch supports electric lock control, alarm panel arming, reset and override when paired with any mortise cylinder 1-1/8" to 1-1/2".

## Features

### Standard Features

- 12 or 24 VDC
- Bi-color LED
- Backing bracket permits integration with any 1-1/4" [32mm] or 1-1/8" [28mm] mortise cylinder (not included)
- Support for 1-1/2" [38mm] cylinder using spacer ring and backset
- Additional switch position on backing bracket allows another switch to be activated by turning the key in the opposite direction
- 5A rated plunger switch
- Includes anti-tamper screws
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- Momentary or Alternate
- SPDT or DPDT relay
- Narrow Stile, Single- or Double-Gang
- Local annunciation via Piezo sounder
- Additional switch add on
- 1-1/8" [28.5mm] Key Cylinder, 26D Finish, SC keyway

# KP1 Tubular Key Switch

*Simple solution for exit, door release, manual override or reset*

The KP1 Key Switch supports electric lock control; alarm panel arming, reset and override when paired with any tubular cylinder 1-1/8" to 1-1/2".

## Features

### Standard Features

- Stainless steel face plates
- 12/24 VD bi-color LED tubular style key switches
- Momentarily turning the key changes the state of the contacts
- Includes anti-tamper screws
- Includes two keys
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- Momentary or Alternate

## Specifications

### Electrical

- 7A rated SPDT switch
- 40mA at 12 or 24VDC

## Single Pole – Single Throw (SPST)

Switches that have one input and one output (NO or NC) and turn on or off in response to the switch action

## Single Pole – Double Throw (SPDT)

Switches with one input and two outputs. When the switch operation occurs, the connection shifts from output A to output B

## Double Pole – Single Throw (DPST)

Two SPST switches that operate in tandem using one switch operation so that two outputs turn on or off simultaneously in reaction to the switch operation

## Double Pole – Double Throw (DPDT)

Two SPDT switches that operate in tandem using one switch operation so that each connection shifts simultaneously from its primary output to its secondary output

## Momentary Switch

A momentary switch changes state during activation and reverts to its original state upon deactivation. A doorbell is a common example of a momentary switch. A timer can be used to extend the effect of the switch operation for a specific amount of time.

US [securitron.com](http://securitron.com) | 800 626 7590 | [customerservice.securitron@assaabloy.com](mailto:customerservice.securitron@assaabloy.com)

Canada [assaabloydss.ca](http://assaabloydss.ca) | 800 461 3007 | [sales.dss.ca@assaabloy.com](mailto:sales.dss.ca@assaabloy.com)

## Alternate Switch

An alternate switch changes state upon activation and does not change back until reactivated. A light switch is a common example of an alternate switch. Alternate switches are also called maintained or latching switches

## Normally Open Contacts (NO)

A normally open contact provides an open circuit where no current is flowing in its usual state.

Wired in parallel for fail secure type electric locks (i.e. electric strike). Activating any switch will apply power, releasing the lock.

## Normally Closed Contacts (NC)

A normally closed contact provides a closed circuit where current is flowing in its usual state.

Wired in Series for fail safe type electric locks (i.e. Magnalocks). Activating any switch will break power, releasing the lock.

# WSS-WSD Wave Sense® Switch

No-touch switch for hands-free activation

A new class of motion sensing technology for hands-free, contactless switch activation.

Use for request to exit (REX), activation or on/off switching to trigger a variety of access control devices in place of a push plate or push button.

## Need an Outdoor Solution?

WCC

WBB

WCC and WBB allow the Wave Sense Switch to be mounted in outdoor locations not directly exposed to rain or snow

## Features

### Standard Features

- Active microwave motion sensing using Doppler radar that is more reliable than infrared sensors
- Adjustable sensing zone from 4" to 24" (102mm to 610mm) helps screen out incidental traffic
- FCC certified for use in general and medical environments
- Touchless activation for hands-free operation, reduces transmission of germs
- Pulse mode to initiate action or toggle mode to provide on/off switch
- Mounting ring included or install in standard plastic or metal gang box
- Water-resistant foam gasket included
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- Weather-resistant cover
- Weather-resistant backbox
- Offered in a single-gang or double-gang model

## Specifications

### Certifications

- Electromagnetic compatibility to 2004/108/EC
- FCC: G9B-MS08 and IC: 4680A-MS08

### Dimensions

- Single gang faceplate 4-1/2" x 2-3/4" [114mm x 70mm]
- Double gang faceplate 4-1/2" x 4-1/2" [114mm x 114mm]

### Electrical

- Self-sensing 12 or 24 V DC or AC input ( $\pm 10\%$ )

### Maximum Power Consumption

- Less than 1.5 W (125 mA at 12 VDC) 1 A SPDT contact can be operated in toggle or pulse mode
- Pulse output: 0.5 seconds

### Environmental

- Operating Temperature: -4° to 131° F [-20° to 55° C]
- Indoor use

### Shipping Weight

- 0.5 lbs

# SP-1 Touch Sense® Plate

*Touch Sense technology in a wall-mount request to exit plate*

The SP-1 uses touch sensing technology to create a push plate with no moving parts.

For indoor use only, the unit is oversized to cover a single gang cutout. Ideal to assist with ADA compliance, the unit includes a three-part vinyl "Touch to Exit" decal. A red LED is incorporated into the backbox.

Dual Voltage  
12/24

## Features

### Standard Features

- Internal 0-25 second timer
- Backup push button
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Dimensions

## Specifications

### Electrical

- 40 mA at rest; 25 mA releasing at 12 or 24 VDC

### Environmental

- Operating Temperature: 32° to 110° F [0° to 43° C]
- Indoor use only

### Shipping Weight

- 1.5 lbs [0.68kg]

# MagnaCare® Lifetime Replacement Warranty

*The Industry's Best Warranty*

- **Lifetime** — We guarantee our products, and since we've been making Magnalocks for over 35 years that's a promise you can trust
- **No-Fault** — For any reason, including but not limited to installation error, vandalism or act of God
- **Tomorrow** — Replacement product is shipped at Securitron's expense, next day air if needed
- **Hassle Free** — No product registration is required

At Securitron, we pay special attention to the needs of our customers. Our 1.800.MAGLOCK sales and service support line puts you in touch with our knowledgeable and friendly team to assist you with the smallest detail, or the most difficult application, including free wiring diagrams. In 1999, introduced the first "no strings attached" warranty program called MagnaCare, because we believe quality products and quality service should be the expectation, not the exception.

*Select products are covered under Securitron's other warranty programs. Full details are available at [securitron.com](http://securitron.com).*

**MagnaCare  
Warranty**

# DSB Dual Sense® Bar

*Dependable touch and mechanical release for superior safety and redundancy*

The dependable DSB Dual Sense Bar is the most reliable exit device available for electronically locked, non-fire-rated doors.

Its unique design delivers superior fault tolerance with two independent, redundant switch circuits for releasing the lock. The DSB can be installed on all types of interior metal, aluminum or wood doors. Meets "no special tools or knowledge" criteria required by code.

## Features

### Standard Features

- Redundant switches
- Release triggered by either 1/8" [3mm] mechanical movement or reliable touch sense technology
- Resistant to interference from radio frequency or electromagnetic frequency and external impact/ bounce attempts
- All metal construction
- Can be field cut to fit non-standard door widths
- 16 ft. [4.8m] 22 AWG 6 conductor cable and armored door cord included
- Resists electrostatic discharge up to 27,000 volts
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- 36 36" [914mm] Length
- 42 42" [1,067mm] Length
- 48 48" [1,219mm] Length
- **EL** ElectroLynx® ready
- **I** Illuminated via fiber optics
- Through-bolt kit for doors 1-3/4" to 2-1/4" [44.5mm to 57mm] thick
- Cover plates per DSB

# Specifications

## Certifications

# TSB Touch Sense® Bar

*Touch-triggered release  
for reliable egress*

The TSB Touch Sense Bar provides touch-triggered release of electronically locked, non-fire-rated doors.

Touching the bar, even through light gloves or clothing, triggers an electronic sensor that releases the lock. For indoor use only, the TSB installs easily on all types of metal, aluminum or wood frame doors. Meets "no special tools or knowledge" criteria in code requirements.

## Features

### Standard Features

- Can be field cut to accommodate non-standard openings up to 48" [1219mm]
- Activates a 2A DPST rated relay when touched (no mechanical movement) which will allow free egress, or initiates the delay on an exit delay timer
- Backup push button included
- 16 ft. [4.8m] 22 AWG 6 conductor cable and armored door cord included
- Available ElectroLynx® ready
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

# EMB

## Electromechanical Bar

*Mechanical activation for electronic lock release in a reliable, durable exit bar*

Use the Electromechanical Bar (EMB) on electronically locked, non-fire-rated doors or as an initiate device for a delayed egress timer.

Pressing the bar activates internal mechanical switches that release the lock. Optional waterproof switches are available, which allow the EMB to function in protected outdoor applications. Meets "no special tools or knowledge" criteria for code requirements.

### Features

#### Standard Features

- Low profile design requires only 1/4" [6.35mm] movement for activation
- Can be field cut to accommodate non-standard openings up to 48" [1219mm]
- Uses same mounting pattern as the TSB and DSB
- Direct retrofit for some competitor footprints
- Mechanical action activates a DPDT relay
- 5A rated output to allow free egress or initiate an exit delay timer
- Redundant switches ensure reliable, fault-tolerant operation
- All metal construction
- 16 ft. [4.8m] 22 AWG 6 conductor cable and armored door cord included
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

#### Optional Features

- 36 36" [914mm] Length
- 42 42" [1,067mm] Length
- 48 48" [1,219mm] Length
- W Weather-resistant upgrade
- Cover plates for retrofit of competitor products (TCP-BK-CL)

# TSH Touch Sense® Handle

*Compact push or pull egress alternative for electronic lock release*

Sized to conceal existing mounting holes, the TSH Touch Sense Handle replaces standard pulls on aluminum doors to allow electronic lock release for egress.

With flexible options, it works equally well on in-swing doors or as a push-open device for out-swing doors, offering a clean look on aluminum frame glass doors.

## Features

### Standard Features

- For use on any push, pull or swing-through door
- Activates electronic release via 2 A DPST rated relay when touched to allow free egress
- Backup push button
- 16 ft. [4.8 m] 22 AWG 6 conductor cable and armored door cord included
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Power

# AQL Series

*Single, dual & multi-voltage  
ready intelligent power system*

An out-of-the-box solution that offers unique performance and value.

The AQL Series of switching power supplies is an out-of-the-box solution that makes installation easier. It is feature rich, network management ready and available in 12 or 24 VDC single, dual and multi-voltage units.

## Features

### Standard Features

- Low battery cutoff protects batteries from deep discharge
- Dedicated fast charger prolongs battery life
- Enhanced surge immunity for input/output protection
- LockSafe keeps locks cooler by providing a separate, dedicated battery charging circuit
- OutSmart technology dual-color LED notification which prevents incorrect voltage application to locking devices [Green: 12 V | Blue: 24 V]
- Auxiliary output rated 1.4 A continuous
- Mix and match UL Listing
- Instant auto-switch to battery on AC loss
- Multi-voltage with B100
- Integrated Fire Alarm Interface (FAI) allows main output shutdown or disconnect on a per output basis when using an R8 output module
- Remotely manage locks and connected devices when using an M8 managed output module on network models
- Network ready with optional Netlink module
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- Enhanced Network Management – AC line voltage monitoring

- Remote battery monitoring and testing
- 1000 event data recording
- Email fault reporting

## Specifications

### Certifications

- UL 294 Listed
- UL 603 Listed
- UL 1076 Listed
- ULC-S318 Listed
- ULC-S319 Listed
- CSA C22.2 #107.1
- RoHS Compliant

### Electrical

- 12 VDC or 24 VDC output
- 12 VDC & 24 VDC output (optional) with B100
- 120 or 230 VAC input
- Up to 91% efficiency

### Environmental

- Operating Temperature: 32° to 120° F [0° to 49° C]

### Max Shipping Weight

- 15.50 lbs [7 kg]

## P Variants

Some AQL modules, like the D8, R8 and M8 come with or without a P variant.

- Models without a P indicate that there are ATM style fuses used on the device. These fuses can be replaced if the fuse gets damaged.
- Models with a P indicate that there are PTC style outputs used on the device. This style is considered self-healing. These devices are Class 2 power limited, which is required in certain jurisdictions. Consult your local AHJ for more information.

# B100 Secondary Voltage Module

*Works with AQL intelligent power systems*

The B100 provides a means to easily and economically add an additional voltage to any AQL system.

The B100 terminal block output is Class 2 power limited and jumper selectable for either a fixed 12 VDC or an adjustable range between 5-18 VDC at 4 amps maximum current. Multiple B100's can be added to a system for virtually unlimited voltage combinations.

Primary power for the B100 is derived from a AQL power supply. The B100 steps the AQL voltage down to the user defined range (typically 12 VDC).

## Features

## Standard Features

- Provides the odd voltage required to power modems, routers and other IT or similar devices (ie., 5 V, 9 V, 15 V etc)
  - Snap-in style mounting standoffs with fast-on connect cables for easy field installation
  - Eliminates need for a 12 V battery set in dual voltage access power systems
  - Small size allows for dual voltage in a smaller enclosure
  - Jumper selectable output voltage
    - 12 VDC fixed
    - 5 to 18 VDC user adjustable
  - 4 Amps current at any selected voltage
  - Overload protection
  - Short circuit protection
  - Over temperature protection
  - Fault report to host power supply on abnormal operation, voltage loss and overcurrent
  - Visual indicators for DC in/DC out and fault
  - Input and output LEDs indicate voltage by color [Green: <15 V | Blue: >15 V]
  - Adds an economical secondary 12 V output to any 24 VDC system
  - Fiberglass PCB and high efficiency circuit generates less heat leading to a longer service life and lower MTBF

- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Certifications

- UL 294 Listed
  - UL 603 Listed
  - UL 1076 Listed
  - ULC-S318 Listed
  - ULC-S319 Listed
  - CSA C22.2 #107.1
  - RoHS Compliant

[101.6mm x 63.5mm x 38.1mm]

# D8/D8P Power Distribution Module

*Works with AQL intelligent power systems*

Provides 8 auxiliary power outputs, each one individually protected by a fuse (D8) or solid state circuit breaker (D8P).

The D8/D8P Distribution Module offers programmable outputs to either of the two voltages available when used in an AQL dual voltage power system or to the continuous output of the power supply when used in a single voltage system.

## How to Order

MODEL SERIES	FUSE TYPE
D8	P
D8 8 Continuous outputs	(blank) 3 A ATM Fuse P 2.5 A polyswitch fuse

## Features

## Standard Features

- Dual Buss architecture for field selectable Buss 1 or Buss 2 output
  - 8 outputs for auxiliary power distribution or direct lock control and additional accessory power distribution modules
  - Multi-voltage when used with B100
  - Output Protection
    - D8 ATM style fuse: 3 A/per output
    - D8P Solid state circuit breaker: 2.5 A/per output
  - DC Out visual indicators (Dual color LED per output – Green: 12 V | Blue: 24 V)
  - Multiple modules can be daisy chained to add additional outputs
  - Snap-in style mounting standoffs with fast-on connect cables for easy field installation
  - Fiberglass PCB and high efficiency circuit generates less heat leading to a longer service life and lower MTBF
  - MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Dimensions

# R8 Power Relay Module

*Works with AQL intelligent power systems*

The R8 contains multiple relayed outputs for direct lock control and additional accessory power distribution.

The R8 module provides eight access control inputs capable of NO dry contact or open collector activation. It also includes eight relay outputs, programmable for dry or wet contact or powered for fail-safe or fail-secure locking devices.

12/24

MagnaCare  
Warranty

Dual Voltage  
12/24

## Features

### Standard Features

- Dual Buss architecture for field selectable Buss 1 or Buss 2 output
- 8 outputs for direct lock control and additional accessory power distribution
- Multi-voltage when used with B100
- Configurable for fail-safe, fail-secure and dry contact operation modes
- Fire alarm fault detection and reporting to the AQL series power supply
- Visual indicators
  - Relay activation per output – Red LED
  - Voltage level – Bi-color LED voltage indicators
- Multiple modules can be daisy chained to add additional outputs
- Snap-in style standoffs with fast-on connect cables for easy field installation
- Fiberglass PCB and high efficiency circuit generates less heat leading to a longer service life and lower MTBF
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Dimensions

# M8 Managed Lock Power Module

Works with AQL intelligent power systems

The M8 power control modules add 8 zones to a Securitron AQL power supply system for powering and monitoring locks, cameras, or other critical devices.

The M8 power control modules add 8 zones to a Securitron AQL power supply system for powering and monitoring locks, cameras, or other critical devices. The M8 MUST be used with Netlink network module. The M8 accepts either one or two voltage sources, either of which are selectable for each output. Each input is fully programmable via software to accept a voltage, dry contact, or open collector input. Each zone output is selectable via software for FAI operation, constant output, maglock output, or door strike outputs. Programmable voltage and current limits per output allow proactive detection of impending lock failure.

## Features

### Standard Features

- Managed power:
  - 8 outputs for powering and monitoring locks, cameras, or other critical devices
  - MUST be used with Netlink module
  - Remote reset of individual outputs for power cycling devices
  - Output cycle count detection allows proactive reporting of lock end-of-life
- Dual Buss field selectable Buss 1 or Buss 2 output
- Multi-voltage when used with B100
- On-board fault detection reports to the AQL series power supply
- Each zone output is selectable via software for FAI operation, constant output, maglock output, or door strike outputs
- Multi-color LED visual indicators per output – Green: 12 V | Blue: 24 V | Yellow: Fault
- Snap-in style standoffs with fast-on connect cables for easy field installation
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Dimensions

# Netlink Power Monitoring Module

*Works with AQL intelligent power systems*

The Netlink is a four data port network communication interface for remote power monitoring, reporting and control.

Netlink (NL4) is a four data port network module that communicates and controls power status over a local or wide area network. The NL4 provides four SPI ports for connection to AQL devices that enables monitoring and control of the power system. Typical data gathered and reported includes operational fault status, power supply output voltage, battery charging voltage, battery charging current, and fire alarm input status.

## Features

### Standard Features

- Monitoring and reporting for health and status of host power supply and battery set
- 1000 event buffer
- Time/Date stamp log reports last 1000 events
- Auto-schedule, test, and report battery standby time
- Remote supervision of battery's state of charge
- Monitoring internal cabinet temperature
- Monitoring external room temperature with "over temp" alert
- Remote power cycling control of external equipment
- Receive system monitoring email notifications for
  - AC and system fault conditions
  - Aging or drained battery, battery not meeting standby specification
  - Fire Alarm Interface (FAI) activation
  - External room temperature outside preset limit
  - External Event activation
- SNMP set and trap notification on version 1, 2, or 3
- Encrypted password, user and certificate logging
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Specifications

# AQD Series

*Dual & single voltage switching power supplies*

A full line of highly efficient power supplies that protect devices from over voltage.

AQD Series dual voltage and AQS Series single voltage switching power supplies are both supervised units with a battery charger designed to power magnetic locks, electric strikes, card readers, sensors, access control boards and other devices in access control systems. The AQD and AQS Series can also be used to power DC cameras and other DC locking equipment. These units provide field selectable 12 or 24 VDC with up to 16 independently controlled power limited outputs.

## Features

### Standard Features

- AQD Series is dual voltage 12 or 24 VDC field selectable continuous output
- AQS Series is single fixed voltage 12 or 24 VDC continuous output
- Tolerates brownout or overvoltage input  $\pm 15\%$  of nominal voltage
- Thermal shutdown protection with auto restart
- Circuit breaker protects against overcurrent and reverse battery faults (*batteries sold separately*)
- Dedicated battery charging circuit prevents over voltage on locking devices (except for AQD1)
- Expandable up to 16 outputs in the standard enclosure
- Outputs are Class 2 limited when used with PTC Polyswitch output distribution boards
- Available with a single relay fire trigger or individually fire trigger relayed outputs
- Low noise design provides better than linear performance
- Mix and match configuration allows for UL compliance even when used in other UL Listed enclosures
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Dimensions

- Enclosure: 14" x 14" x 4-3/4" [356mm L x 356mm W x 121mm D]

## Specifications

### Certifications

- UL 294 Listed
- UL 603 Listed

# Power Distribution Board with Access Control & Fire Trigger

## Works with AQD power supplies

Power plus interfaces  
for sophisticated  
access control.

The PDB-8F8R and PDB-8C8R split a power supply main output into eight fused- or PTC circuit breaker-protected outputs. Each output is individually configurable to respond and react to access control relay inputs and/or fire trigger.

## Features

## Standard Features

- Eight power outputs
  - Eight individually configurable relays with status LEDs
  - End-of-Line resistor master trigger for Fire System interface
  - LED indicator for trigger status
  - Removable terminal blocks for easy connection
  - Each output individually configurable for:
    - Fire trigger enabled or disabled
    - Normally Open or
    - Normally Closed
    - Continuous output
  - 8F8R can provide dry contacts by removing fuses
  - Relay inputs individually configurable for:
    - Low current open collector
      - Normally Closed switch
      - Normally Open switch
  - MagnaCare® lifetime replacement, no-fault, no questions asked warranty
  - 8C8R provides class 2 outputs

# Power Distribution Board with Fire Trigger

Works with AQD power supplies

## Power distribution with configurable, supervised fire relay.

The PDB-8C1R and PDB-8F1R split a main DC power source into eight Class 2 power limited outputs. Each output is individually configurable for "Normally On" or "Normally Off" and can change state in response to an alarm condition from either or both supervised triggers, or can remain in its native state.

## Features

### Standard Features

- 8 Class 2 power limited outputs with PTC circuit breakers
- Individual LED output status indicators
- LED main input power indicator
- Removable terminal blocks for easy connection
- Two supervised triggers
  - End-of-line resistor
  - Optically isolated trigger by voltage or reverse polarity
- LEDs and form C contacts indicate trigger status
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty
- Trouble and Fire alarm states supervision

## Specifications

# Power Distribution Board

*Works with AQD power supplies*

Creates multiple outputs for separate circuits.

Power Distribution Boards split the primary AC or DC output from a power supply into multiple outputs of the same voltage type to separate equipment onto individual circuits.

## Features

### Standard Features

- Splits main board output into multiple outputs
- Each output has a status LED indicator
- Main input has a status LED indicator
- 12 V or 24 V output (based on power supply output)
- Accepts AC or DC input/ provides same output
- PDB-4 has an on/off power switch
- PDB-8 has a main power indicator that indicates AC, DC or reverse DC input
- Individually fused with 2 Amp options available
- PTC variants provide class 2 power limited outputs
- Separate fuse for main input surge protection—standard automotive ATO sizes
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Specifications

### Electrical

- **PDB-4C, PDB-8C**
  - PTC circuit breakers rated holding current at 130° F
  - Accepts AC or DC input up to 32 V
  - Outputs rated Class 2 power limited
- **PDB-4F, PDB-8F**
  - Fuses for individual outputs are standard 3 AGC
  - Accepts AC or DC input

# Fire Alarm Interface

Works with AQD power supplies

## Fire relay triggers power transfer in an alarm situation.

The PDB-1R uses an end-of-line resistor to trigger a form C contact in response to a fire system alarm condition. In response to the trigger, the unit transfers power from the "Normally On" output to the "Normally Off" output. Additional triggered reactions include status feedback to fire control or annunciation systems, ground fault trigger and input trigger that latches until reset.

## Features

### Standard Features

- Individual LED indicators show which output is powered
- Form C contact indicates trigger status
- Latching or non-latching mode
- Can provide ground supervision via jumper configuration
- Output triggers include:
  - Normally Open or Normally Closed with supervised End-of-Line resistor
  - Normally Closed override switch trigger input
  - Normally Closed Auxiliary switch trigger input
  - Ground fault detection
  - Trigger status reporting
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Specifications

PDB-1R	Fire Trigger/Relay Interface Board

# AQE Single Port Injector

## Power over Ethernet

## Gigabit data and power all-in-one.

brings power and data together with our latest innovation. The AQE15 and AQE30 are single port Power over Ethernet (PoE) MidSpan Injectors designed for access control and security applications. These modules enable the powering of PoE devices from a non-PoE source. AQE Series Injectors power PoE cameras, access control door controllers and other PoE equipment.

Product Number	AQE15	AQE30
Input Amps	1.4	2.6
Input Voltage	24 VAC or VDC	24 VAC or VDC
Output Current	300 mA	600 mA
Data Rate – BASE T	10/100	10/100/1000
UL 294B	Listed	Listed
UL/CUL 60950-1	Listed	Listed
IEEE 802.3at	Listed	Listed

## Features

### Standard Features

- Allows powering of PoE devices from a non-PoE source
- Operates from low voltage 24 VAC or 24 VDC input
- Reset feature allows PoE shutdown
- Visual diagnostics via on board LED
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Specifications

### Certifications

- UL 294B Listed
- UL/CUL 60950-1
- 15W IEEE 802.3af
- 30W IEEE 802.3at
- CSA C22.2 No.205-M1983, Signal Equipment
- RoHS Compliant

### Electrical

- 24 VAC or 24 VDC  $\pm$  15% input
- 1.4 or 2.6 A input current
- 50 VDC output
- 300 or 600 mA output current
- 5 to 24 VDC, 10 mA max shutdown terminals
- 100m (328 feet) max data cable length
- 10/100/1000 data rate Base-T compliant

### Environmental

- Operating Temperature: 32° to 120° F [0° to 49° C]

## How to Order

MODEL SERIES	POWER	FUNCTION	Mounting Style

AQE PoE	15 1.4 A, Dual Voltage 30 2.6 A, Dual Voltage	(blank) PoE Injector	(blank) Single Port

Items can only be ordered as listed above

# AQE Single Port Extractor

## Power over Ethernet

## Gigabit data and power all-in-one.

The AQE30E is a single port Power over Ethernet (PoE) MidSpan Extractor designed for access control and security applications. This module provides 12 VDC up to a maximum of 25W output power to a non-PoE device from a PoE source. The AQE30E Extractor is used to power DC, IP and PTZ cameras, access control, door controllers and other similar equipment.

The AQE Series Extractor provides RJ45 connectors for data input and output and two terminal strips for the DC output and power level selection.

Product Number	AQE30E
Input Amps	0.6
Input Voltage	12 VDC
Output Current	1 A/2 A (13/25W)
Data Rate – BASE T	10/100/1000
UL294B	Listed
UL/CUL 60950-1	Listed
IEEE 802.3at	Listed

## Features

### Standard Features

- Allows powering of non-PoE devices from a PoE source
- 12 VDC output power derived from PoE source
- Selectable for 13 W or 25 W output
- Visual diagnostics by on-board LED
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Specifications

### Certifications

- UL 294B Listed
- UL/CUL 60950-1

# PSP

# Medium Filtered DC

# Plug-In Power Supply

*Medium capacity plug-in power supply*

PSPs are ideal for powering a wide range of DC devices where power is available via an outlet.

The PSP Plug-in DC Power Supplies are available in 12 volts at 3 A maximum capacity or 24 volts at 1.5 A maximum capacity.

## Features

### Standard Features

- 36 watts continuous output
- 6 ft. [1.8m] output cable included
- Folding, two-prong AC connector
- Input voltage 100 VAC to 240 VAC
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Certifications

- UL listed

## Dimensions

PART NUMBER	DESCRIPTION
PSP-12-3	Power Supply Plug-In—Switching, Regulated, 12 VDC, 3 A
PSP-24-1.5	Power Supply Plug-In—Switching, Regulated, 24 VDC, 1.5 A

# PSP

# Small Filtered DC

# Plug-In Power Supply

*Small capacity plug-in power supply*

PSPs are ideal for powering a wide range of DC devices where power is available via an outlet.

The PSP Plug-in DC Power Supplies are available in 12 volts at 700 mA maximum capacity or 24 volts at 350 mA capacity.

## Features

### Standard Features

- Internal thermal fuse
- 12 ft [3.6 m] output cable included
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Certifications

- UL listed

### Electrical

- 120-240 VAC input

Lead Acid Battery

BR-4 Bridge Rectifier

CCB-8 Control Board

CKL Cabinet Key Lock

## Sealed Lead Acid Battery

Lead Acid Batteries provide battery back up when used with linear, switching, or EcoPower power supplies, ensuring continued operation of access control devices when the AC source power is compromised.

- Batteries are not covered under warranty

## BR-4 Bridge Rectifier

Converts AC input to full wave rectified DC output with a maximum 4 A output capacity.

- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## CCB-8 Control Board

Eight (8)-output power distribution board splits a BPS primary output into eight (8), Class 2 power-limited outputs protected by 2 A polyswitch breakers.

- Slide switches connect or disconnect load from power
- LEDs indicate power status for each output zone
- Compatible with all BPS models larger than 2 A output
- MagnaCare lifetime replacement, no-fault, no questions asked warranty

## CKL Cabinet Key Lock

Fits the standard knockout on all power supply enclosures to protect against tampering and unauthorized access. Includes two (2) keys.

- MagnaCare lifetime replacement, no-fault, no questions asked warranty

## AQL Series

### Intelligent Power Supply

Smart Battery Charger  
Network Ready  
Multi-Voltage Ready

#### Specifications

- AQL 4 & 6 — Dual Voltage 12 or 24 VDC field selectable
- AQL 102 & 104 — Single Voltage 12 or 24 VDC set at factory
- Typical Output 12.5 or 25.0 VDC
- 120/230 VAC input
- Smart Battery Charging Circuit — programmable current for optimum charging

- Built in Fire Alarm Interface with latching capability
- Overall Enclosure Dimensions 14" x 12" x 4.5"
- Black finish

#### Supervision

- AC Failure Supervision
- Low Battery Supervision

#### Available Accessory Boards

- D8/D8P — 8 Continuous outputs
- R8 — 8 Access control outputs
- B100 — Multi-voltage output (5 to 18 VDC)
- NL4 — Netlink monitoring provides real-time health status monitoring and reporting to any AQL model power supply

## AQD Series

### Switching Power Supply

High Efficiency  
Dual Voltage  
12 or 24 VDC

#### Specifications

- AQD 4 & 6 — Dual Voltage 12 or 24 VDC field selectable
- Typical output 12.5 or 25.0 VDC
- 120/240 VAC input
- Dedicated battery charging circuit for safe charging of optional 12 or 24 V sealed lead acid batteries
- Overall Enclosure Dimensions 14" x 12" x 4.5"
- White finish

#### Supervision

- AC Failure Supervision
- Low Battery Supervision

#### Available Accessory Boards

- PDB-1R — Fire Trigger
- PDB-4C or F — 4 Outputs
- PDB-8C or F — 8 Outputs
- PDB-8C1R or 8F1R — 8 Outputs with Fire Trigger
- PDB-8C8R or 8F8R — 8

Access Controlled Outputs with Fire Trigger

#### UL Listings

- UL 294
- UL 603
- ULC-S318
- ULC-S533
- All combinations of AQD Power Supplies and Accessory Boards are UL Listed when used in a UL Listed enclosure

Power Transfers

# CEPT Concealed Electrical Power Transfer

*Beautifully crafted, compact,  
secure power transfer*

The heavy-duty, tamper-resistant Concealed Electrical Power Transfer (CEPT) securely transfers power and data from the hinge side of the frame to electrified hardware on the door.

The unit is discreetly concealed between the frame and door when the door is closed. Available in three multi-wire configurations and four finishes, the CEPT complements any architectural setting.

## Features

### Standard Features

- Mortises into the edges of the door and frame
- Direct retrofit for competitor products
- Tamper resistant
- All metal construction including back boxes
- 7/8" [22.25mm] knockouts on back boxes accommodate EMF-type fittings
- Tested to 1 million cycles
- Compatible with butt hinges up to 6" [152.4mm] and continuous hinges with cutout
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- **CEPT-10** includes 8–22 AWG wires plus 2–18 AWG wires for higher current devices
- **CEPT-C5E** includes CAT5E compatible with 8–24 AWG wires, 1–22 AWG wire, conductor, Molex connectors
- **EL-CEPT** is ElectroLynx® compatible with 12–22 AWG wires, ElectroLynx connectors

# SEPT

## Square-Cut Electrical Power Transfer

*Square tabs, medium length for flexible power & data transfer*

Concealed, secure conduit for power and data transfer between a frame and door.

This unit is designed with a stamped steel housing and spring steel conduit to protect power and data wires. The square mounting tabs provide easier installation for recessed installation. The SEPT can be used on swing doors with butt hinges, continuous hinges or pivots with less than 3/4" offset.

Square mounting tabs simplify recessed prep on any door

### Features

#### Standard Features

- Heavy duty design
- Installs in the door and frame edges
- Flexible steel shield protects wires – 1/4" [6.3mm] inside diameter
- Works with almost any type of butt hinge or continuous hinge
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

#### Optional Features

- **SEPT-10** includes 8–22 AWG wires plus 2–18 AWG wires for higher current devices
- **SEPT-C5E CAT5E** compatible with 9–22 AWG wire stranded conductor, Molex connectors
- **EL-SEPT** ElectroLynx® compatible with 12–22 AWG Wires, ElectroLynx connectors

# EPT

# Electrical Power

# Transfer

*Concealed, tamper resistant,  
flexible power and data transfer*

The EPT Electric Power Transfer provides concealed, secure power and data conduit between a frame and door, transmitting power to electrified locks, exit bars and more.

Its durable stamped steel housing and flexible spring steel conduit make the EPT suitable for most types of swinging doors with butt or continuous hinges or pivot hinges up to 3/4" offset. The EPT-SC accommodates swing-clear hinges and most pivot hinges.

## Features

### Standard Features

- Installs in the door and frame edges
- Flexible steel shield protects wire bundles up to 5/16" [8mm] thick
- Works with almost any type butt hinge, continuous hinges and some pivot hinges.
- Rounded mounting tabs
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- EPT for standard hinges and pivot hinges less than 3/4" [19mm] offset
- EPTL for extended length up to 5" center to center
- EPT-SC for swing-clear hinges or pivot hinges with larger offset; not for use with center pivot doors
- EL Models are ElectroLynx® compatible including 12-22 AWG wires, ElectroLynx connectors

NOTE: Not every combination is possible.  
Please contact factory if you need a

# EH Electric Hinge

*Double duty hinge for  
streamlined power transfer*

The EH is an efficient, discreet, concealed solution that provides secure power and data transfer from frame to door when streamlined wiring is needed.

Each hinge features concealed plug connectors that eliminate separate or exposed wiring. Ultimate concealment for tamper-resistance.

## Features

### Standard Features

- Transfer power with the highest level of concealment
- Produces the most aesthetically pleasing appearance
- Available in 4-1/2" [114.3mm] or 4" [101.6mm] hinge length
- 500 mA power capability
- 6 conductor, 28 gauge wire
- 6" [152.4mm] pigtail provided for connections
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

# TSB-C Door Cord

*Simple, affordable solution  
for durable, tamper resistant  
power and data transfer*

The  
TSB-C Door Cord is  
the simplest and most  
economical solution  
for power transfer  
between a door  
frame and the door.

Designed with an armored stainless  
steel cable and mounting caps  
for ease of installation.

## Features

### Standard Features

- Flexible armored stainless steel cable conduit with plastic end caps
- Maximum flexibility for installation site on door/frame
- Include both gray and black end caps
- Interior diameter: 1/4" [6mm]
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

# Accessories

# TM-2 Time Master II Multi-Function Timer

The TM-2 is a premium, industrial duty, multi-function timer that provides precise timing using stackable increments in seconds or minutes and easy-to-use dip switch settings.

Ideally suited for unusual time sequencing requests, like bank or ATM vaults.

## Features

### Standard Features

- Industrial quality multi-function timer for delay or time sequencing
- DIP switches select delay times of 1 to 255 seconds or minutes
- Flashing LED provides visual indication of remaining time or alert status
- Triggering can be from a NO or NC switch
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Specifications

### Electrical

- 12 or 24 VAC or VDC
- 5A DPDT relay output

### Environmental

- Operating Temperature: 32° to 149° F [0° to 65° C]

# TM-9 Time Mate Timer

The compact TM-9 extends the hold-open request of a momentary push button or key switch, enabling single-hand operation of the door or delaying re-arming of alarms.

## Features

### Standard Features

- Miniature timer extends momentary switches
- Fits in outlet boxes with push buttons or key switches
- 3A SPDT relay energizes for 2 to 36 seconds
- Time setting is selected by easy to configure DIP switches
- Applications include releasing electric locks and shunting alarm contacts
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Specifications

### Certifications

- UL 294 Listed

### Electrical

- 12 or 24 VAC or VDC
- 3A SPDT relay output

### Environmental

- Operating Temperature: 32° to 149° F [0° to 65° C]

# DT-7 Prime Time Digital Timer

Control doors equipped with electrified hardware—with or without access control—with the DT-7 digital timer.

The DT-7 can be used as a stand-alone unit or in conjunction with DK-26 and other products. Versatile programming supports timed, unlocked, locked, or access-control-only states to turn electric locks or other security systems on and off at programmed times.

## Features

### Standard Features

- 7-day digital timer
- 10 A DPDT relay can be operated in toggle or pulse mode
- 12 programmed on/off times
- Set daily (6 on, 6 off), on selected days, or on blocks of days
- “First Man In” feature delays preset action until first access
- AA battery provides backup to the display module program memory – battery not included
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Specifications

### Electrical

- 170 mA at 12 or 24 VAC or VDC

### Environmental

- Operating Temperature: 32° to 113° F [0° to 45° C]

### Shipping Weight

- 0.75 lbs [0.34 kg]

# PZ1 Piezo Sounder

The PZ1 can be used as a local or remote alarm sounder for exit delay or door prop alarm.

## Features

### Standard Features

- Remote annunciator
- Powerful Piezo sounder — 86 db
- Includes anti-tamper screws
- Stainless steel single gang plate 4-1/2" x 2-3/4" [114mm x 70mm]
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Specifications

### Electrical

- Operates on 5 VDC – 28 VDC
- Rated at 20 mA operating current at 24 VDC
- 103 dB max at 1 ft and 24 VDC

# DPA Door Prop Alarm

The DPA complements door position/door state detection with timed logic and relays that provide escalating alerts when a door is held, propped or unsecure after a defined time period.

This unit promotes safety and loss prevention at ancillary exits for healthcare, commercial and retail facilities.

## Features

### Standard Features

- Multi-functional control timer provides relay action for alarms and alerts
- Monitors whether a door remains open after a defined time frame
- Includes three SPDT outputs providing local and remote signaling
- Digital time settings from 30 to 240 seconds
- Detects attempts to tamper with lock or door status
- Multiple time ranges for escalating alerts
- Bypass mode for valid access/egress needs
- Comes with Piezo sounder and LED
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Specifications

### Electrical

- Max draw 100 mA at 12 VDC  
Max draw 50 mA at 24 VDC
- 5 A SPDT Relays

### Environmental

- Operating Temperature: 32° to 120° F [0° to 49° C]

### Shipping Weight

- 2.05 lbs [0.93 kg]

# DPS Door Position Switches

DPS-W and DPS-M door position switches enable access control systems to monitor the open or closed state of a door.

These switches can transmit an initiate signal to XDT delayed exit logic timers and DPA door prop logic timers.

## Features

### Standard Features

- Mated magnetic switch and cylindrical magnetic contact
- Recesses into door and frame
- 3/4" [19mm] round installation, 15/16" [23.8125mm] deep
- Provides normally closed SPST switch
- Works with door gap up to 3/4" [18mm]
- Larger cylindrical magnet counters shielding effect of steel
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- Available in white, gray or black

## Specifications

### Electrical

- Switching Current AC/DC (max): 0.4 A

# MSS Maximum Security Switches

*Maximum security switches  
for door position detection*

Tamper-resistant switches provide versatile door monitoring with armored cable options to detect the status of opened areas in higher security settings.

With multiple options for different environments, MSS can be used with access control or alarm systems to provide peace of mind where status detection is a critical concern.

## Features

### Standard Features

- Interfaces to access control and alarm systems for remote indication of open/closed status
- Unique “mated” magnetic contact for preventing defeat attempts by foreign magnets
- Can be used to provide initiate signal to XDT delayed egress timer
- Hidden anti-tamper output (MSS-1 and MSS-1G)
- Layered protection for tamper detection and reporting
- SPDT Contact
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- MSS-1 includes jacketed cable for hollow metal applications
- MSS-1G includes a 3-foot [936mm] stainless steel cable
- RT — Enables remote testing to confirm function
- C — Concealed

## Specifications

### Certifications

- UL 634 Listed
- ULC/ORD-C634 Listed

### Electrical

- Main Output: SPDT at max of 125 mA at 24 VDC; 250 mA at 12 VDC
- Tamper Output: Closed when secure; open to alarm — 1A max current

### Environmental

- Operating Temperature: -40° to 150°F [-40° to 65°C]

### Shipping Weight

- 1.5 lbs [0.68 kg]

# LM Latch Monitors

The LM Series interfaces with an access control or alarm system to indicate the state of the latchbolt.

Used alone or in conjunction with a door position switch, the LM provides confirmation that the door is secure, preventing false alarms and unauthorized access while providing tamper detection. Can also be used to transmit an initiate signal to XDT delayed egress logic timers.

## Features

### Standard Features

- Electronically detects and reports mechanical latch and bolt positions
- Provides peace of mind that the door is secure
- Installs easily, conceals behind existing hardware
- Requires no jamb or strike plate modification
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Optional Features

- LML-1 provides SPDT switch, fits ANSI 4-7/8" [123.825mm] cutout
- LMS-1 provides SPDT switch, fits ANSI 2-3/4" [69.85mm] cutout
- LML-2 monitors mortise latch and deadbolt separately with two SPDT switches

# RB-4 Relay Board

The relay board provides normally-open or normally-closed relays that can be interconnected.

Ideal for interlock installations or wherever a basic relay board is used to trigger action, shunt alarms or report status from an access control system.

## Features

### Standard Features

- 4 DPDT relays with 2 A contacts
- Individual coil connections—common negative or positive
- Replaces socket mount relays
- Dry contact connections via screw terminals
- Relays have low current coils (13 mA at 12 VDC; 8 mA at 24 VDC)
- Allows operation from most LED drive outputs
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

## Relay Logic Pack

The economical, multi-function RLP logic circuit can be used as a DPDT latching alarm relay.

It can also provide a relay for two-door interlocks (mantrap), or can initiate a brief signal delay to eliminate timing problems among multiple monitoring points on a door under access control.

### Features

#### Standard Features

- Provides additional relay to access control systems requiring NO or NC dry status signals
- Provides a brief delay to harmonize door state reporting from multiple detection points
- Can create a relay interlock circuit
- Use with locks to create an interlocked trap entry
- Provides time delay of door operator when electric lock is used
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

### Specifications

	<b>Dual Voltage</b> Product able to be configured in the field to operate on either 12 or 24 volts or provide 12 or 24 volts
	<b>Auto Sensing Dual Voltage</b> Product automatically configures to operate on either 12 or 24 volts
	<b>PoE Friendly</b> An electronic locking device with a standby current draw of less than 300 mA at 12 VDC, which ensures compatibility with most PoE enabled door controllers with sufficient capacity to allow for other access control peripherals to be powered around the door
	<b>Battery Backup</b> Supports the addition of batteries to provide backup power in case of a primary source power outage
	<b>Fire-Rated</b> Products with a Fire Rating have been evaluated and listed to UL10B, "Fire Test of Door Assemblies" and UL10C, "Positive Pressure Fire Tests with Door Assemblies". The hourly rating qualification is also noted
	<b>Windstorm Rated</b> Windstorm rated products are certified to meet the performance requirements of windstorm-rated assemblies on exterior swinging door applications (Products are designed and tested to perform in sustained winds up to 150 miles per hour)
	<b>Preload Capable</b> Preload capable products are capable of opening under load as defined applicable ANSI/BHMA standards
	<b>Outdoor Rated</b> Product has been tested and shown to comply to UL1034, including the "Outdoor Equipment Use" section
	<b>Burglary Rated</b> Product has been tested and shown to comply to UL1034
	<b>UL Listed</b> UL Listed means that UL has tested representative samples of the product and determined that it meets UL's requirements. These requirements are based primarily on UL's published and nationally recognized Standards for Safety
	<b>CE Listed</b> CE listed is a conformity marking for certain products sold within the European Economic Area (EEA)
	<b>Environmental Product Declaration</b> A UL-certified Environmental Product Declaration (EPD) is a thorough, internationally harmonized report produced by a manufacturer documenting the ways a product, throughout its lifecycle, impacts the environment

# Basic Magnetic Locking System

Use on any exit door where free egress is permitted

## Inside Operation

The door is secured via the Magnalock®. Free egress is accomplished by pushing on the TSB which de-energizes the lock. Contact the factory for additional exit devices necessary for fire-rated installations.

## Outside Operation

The door is secured via the M62 Magnalock. Entry is permitted using an optional entry device which releases the magnetic lock.

## System Components

AQD4 Power Supply	.....	p. 120
TSB Touch Sense Bar	.....	p. 100
DK-26 Digital Keypad	.....	p. 76
TSB-C Door Cord*	.....	p. 142

\*Door cord is included with the TSB Touch Sense Bar

# Delayed Egress Magnetic Locking System

Use on exit doors where a 15 to 30 second delay is desirable before egress is allowed. This exit delay system is typically used to fight risk of loss by theft in retail sites, museums, libraries, etc. Exit delay technology is also an important safety consideration for hospitals and nursing homes as these facilities are often responsible for preventing unauthorized exit by patients under their supervision. This system meets NFPA life safety code 101 and all US/Canada model codes.

## *Inside Operation*

The door is secured via the Magnalock. Egress without the alarm is accomplished using an optional bypass device. Emergency egress is accomplished when the BA-XDT is activated by pushing on the TSB bar which will initiate the exit delay cycle.

## *Outside Operation*

The door is secured via the M62B Magnalock. Entry is permitted using an optional entry device which releases the magnetic lock and shunts the exit delay system as well as the alarm contacts. The Magnalock will release after the selected delay period has expired, allowing egress. The Magnalock will not resecure until the door system is reset using the MK Key switch.

## *System Approvals and Listings*

# Store Front Magnetic Locking System

Use on any bi-directional exit door where free egress is permitted

## Inside Operation

The door is secured via the SAM. Free egress is accomplished by pushing on the TSH which de-energizes the lock.

## Outside Operation

The door is secured via the SAM Magnalock. Entry is permitted using an optional entry device which releases the magnetic lock.

# Motion Activated Magnetic Locking System

Use on any interior or exterior access controlled egress security door

## Inside Operation

The door is secured via the Magnalock. Free egress is accomplished by activating the motion sensor or by pushing the emergency exit button. Both will de-energize the lock.

## Outside Operation

The door is secured via the M680EBDX Magnalock. Entry is permitted using the keypad or optional entry device.

## System Components

M680EBDX EcoMag®	p. 6
AQD4 Power Supply	p. 120

# Glass Door Magnetic Locking System

Use on any full glass interior or exterior access controlled egress security door. The R100 surface mounted wireless reader with ASSA ABLOY Aperio® technology offers an aesthetically appealing way to extend access control to glass, stone, granite or marble entryways.

## Inside Operation

The door is secured via the M380BDX Magnalock adhered with 's accessories for glass door installations. Free egress is accomplished by activating the Request to Exit or by pushing the emergency exit button. Both will de-energize the lock.

## Outside Operation

To enter, an RFID credential is presented to the R100-H surface mount wireless reader. The door controller checks the credential and if it is approved, releases the M380BDX.

# Gate Locking System

*Use on any exterior access controlled security gate*

Maximize your gate locking system by pairing it with an Ameristar fence. ASSA ABLOY group brand Ameristar, based in Tulsa, Oklahoma, focuses on increasing strength and durability, enhancing the aesthetic appearance of modern fence products, and promoting ease of installation. Ameristar is known for producing the highest quality residential, commercial, industrial and high-end security fences in today's market place, including sites such as the Statue of Liberty, the 9/11 Memorial in New York City and the Dallas Cowboys Stadium.

## Outside Operation

The gate is secured via the GL1 Gate Lock. Entry is permitted using the weatherproof keypad.

# Warranty Policy

In 1999 Securitron introduced the first no-fault, no questions asked warranty to the industry, MagnaCare®. We believe that the best products in the industry should be supported by our commitment to deliver the highest quality products and services. Securitron is proud to now extend the most comprehensive no-fault, no questions asked warranty coverage to all of our products and solutions. This is our expectation and commitment to you – our valued customer.

## MagnaCare Warranty

**Duration:** Lifetime

**Condition:** Any reason, including, but not limited to, installation error, vandalism or force majeure.

**Replacement:** Replacement product or equivalent shipped at Securitron expense via next day air freight in most cases.

**Products Covered:**

- Electromagnetic and Specialty Locks
- Power Supplies (excluding BPSS) and Power Transfers
- Push Buttons, Keypads, Keyswitches and Egress Devices

## SecuriCare 5-year Warranty

**Duration:** Five years from date of shipment

**Condition:** Any reason, including but not limited to, installation error, vandalism or force majeure

**Replacement:** Replacement product or equivalent shipped at Securitron's expense via next day air freight in most cases.

**Products Covered:**

- Electric Strikes & Accessories (MUNL, UNL, FSNUL)

## SecuriCare 3-year Warranty

**Duration:** Three years from date of shipment

**Condition:** Any reason, including but not limited to, installation error, vandalism or force majeure

**Replacement:** Replacement product or equivalent shipped at Securitron's expense via next day air freight in most cases.

**Products Covered:**

- DR100 and R100 Aperio® Wireless Card Readers
- BPSS Solar Power Supplies
- GL1 Gate Lock & Accessories
- Accessories

Check your individual product to determine warranty coverage. Batteries and consumables are not covered by Securitron Warranty programs. Replacement products, at Securitron's sole option, may be the identical item or a unit which serves as a functional replacement. If the customer has an account with Securitron or a valid credit card, the customer may order an advance replacement product, whereby Securitron will charge the customer's account for the price of the product plus next day air freight, and will credit back to the customer the full amount of the charge, including outbound freight, upon Securitron's receipt of the original product from the customer. Securitron's sole and exclusive liability, and customer's sole remedy, is limited to the replacement of the Securitron product when delivered to Securitron's facility (freight and insurance charges prepaid by customer).

# Securitron Terms & Conditions

**PRICES:** All prices are subject to change without notice. Prices listed on the Securitron website will serve as the most current list price. All shipments will be made at prices in effect at the time of order. The customer shall be responsible for payment of all applicable sales and/or use taxes and freight costs.

**MINIMUM ORDER:** Minimum product charge per invoice is \$150.00 USD.

**PAYMENT TERMS:** Net thirty (30) days from date of invoice. Interest at the rate of up to 1-1/2% per month may be charged on all past due accounts. An order received on an account which has not been paid within 45 days of the date of invoice may not be processed until the account is current. Custom orders may require a deposit.

**DELIVERY TERMS:** All prices are Ex-works factory. Purchaser assumes the risk of loss or damage to the goods while in transit from the point of shipment. Securitron reserves the right to make delivery in installments. Installments shall be separately invoiced and paid for when due. Delay in delivery of an installment shall not relieve the purchaser of its obligation to accept remaining deliveries.

**FREIGHT POLICY:** All Purchase Orders received with a minimum net value of \$3,500 will qualify automatically for free standard freight within the continental United States. This minimum amount applies per Purchase Order to qualify and does not include free expedited freight. Qualified orders may ship partial or ship complete at your preference. Qualified orders that ship partial will not incur freight charges. All shipments that do not qualify for free freight will be charged for freight based upon our terms in effect at the time of shipment. Customers may provide their own carrier account number for expedited freight methods or for any Purchase Order to be used to cover freight costs. Minimum amounts are subject to change without notice.

**SHORTAGE:** Any claim for shortages must be made to Securitron in writing within one (1) week of receipt of merchandise.

**WARRANTY RETURNS:** A Customer Care Form (CCF) for defective product must be obtained from Securitron before any merchandise can be returned. CCF's are valid for sixty (60) days from date of issuance. Goods returned under the terms of MagnaCare® and SecuriCare® Warranties may require a copy of the original invoice.

**RETURNS:** A Customer Care Form (CCF) must be obtained from Securitron before any merchandise can be returned. CCF's are valid for sixty (60) days from date of issuance. Items that are not factory sealed, or that are returned later than 90 days from the date of receipt are subject to a restocking charge plus an additional charge for any damage.

**CANCELLATIONS:** Any order may be subject to a 5% cancellation charge for catalog items. Cancellation of non-catalog or custom items will be subject to a 20% cancellation charge plus all costs (both direct and indirect) incurred by manufacturing at the point of cancellation that are properly allocated to the cancelled item(s).

**LIMITATION OF LIABILITY:** Neither party will be liable to the other for any delay or failure in performance arising directly out of war, sabotage, insurrection, riot, and any other act of civil disobedience, act of public enemy, fire, explosion, flood, storm, or other act of God or nature, or similar cause beyond its reasonable control, including shortage or unavailability of labor or materials. If, notwithstanding the foregoing limitations, Securitron has any liability to the purchaser, the purchaser agrees that the total liability to the purchaser for all losses, damages, and causes of action, whether in contract, equity, tort (including without limitation, negligence and gross negligence), or otherwise, will not exceed the amount the purchaser paid to Securitron for the products (including, without limitation, incidental or consequential damages, damages for lost profits or business interruption, and punitive damages).

**NO THIRD PARTY LIABILITY:** If the purchaser uses the Securitron Products on behalf of others or provides to others any products referenced herein, the Securitron Parties shall have no liability to such persons whatsoever, and the purchaser agree to defend and indemnify the Securitron Parties from any and all claims and demands asserted against them, and from any legal fees, costs and other expenses that the Securitron Parties incur therewith.

**EXPORT CONTROL AND SANCTIONS:** The Customer represents and warrants to Securitron that it will always act in compliance with Economic Sanctions and Export Control Laws, and that:

- a. neither the Customer, its affiliates, or any of their respective directors, officers, employees nor, so far as the Customer is aware, any agents or other persons acting on behalf of any of the foregoing:
  - i. is, or has been, a Listed Person;
  - ii. has engaged in any business dealings or activities that would reasonably be expected to result in it becoming a Listed Person;
  - iii. directly or indirectly, has conducted or is conducting any business dealings or activities with or for the benefit of, or is otherwise involved in any business with a Listed Person, or otherwise acting in violation of Economic Sanctions and Export Control Laws;
  - iv. has engaged or is engaging in any transaction that circumvents, evades or avoids, or has the purpose or effect of circumvention, evading or avoiding, or attempts to violate, any Economic Sanctions and Export Control Laws; or
  - v. is, or has been, in violation of, or subject to, any investigation or enquiry by, or on behalf of, any governmental or other regulatory body relating to Economic Sanctions and Export Control Laws.
- b. the Customer shall act in compliance with Economic Sanctions and Export Control Laws, and shall not sell nor re-export the Product without all requisite licenses and approvals under Economic Sanctions and Export Control Laws;
- c. the Customer shall not sell, export or re-export, the Product, directly or indirectly, to the Russian Federation or Belarus or for use in the Russian Federation or Belarus (whether or not permitted under Economic Sanctions and Export Control Laws applicable to the Customer);
- d. the Customer shall undertake its best efforts to ensure that the purpose of this Clause is not frustrated by any third parties further down the commercial chain, including by possible resellers;
- e. the Customer agrees to (i) cascade the contractual obligations set forth in this Clause, in contracts with third parties, including possible resellers, further down the commercial chain; and (ii) set up and maintain an adequate monitoring mechanism to detect conduct by any third parties further down the commercial chain, including by possible resellers, that would frustrate the purpose of this Clause;
- f. the representations and warranties set forth in this Clause shall always remain true and correct;
- g. the Customer will provide written notice to Securitron as promptly as possible and in any event within five business days, if (i) any representation or warranty should cease to be true at any time, or (ii) the Customer should encounter any problems in applying Clauses b)- e), above, including any relevant activities by third parties that could frustrate the purpose of said clause; and
- h. the Customer will not engage in any transaction for Military End-Use unless explicitly approved by Securitron.
- i. The Customer will provide all information relating to requests for Products, that the Customer suspects could violate or circumvent Economic Sanctions and Export Control Laws, including requests from or on behalf of a Listed Person, and other attempts to acquire Securitron products in violation of Economic Sanctions and Export Control Laws. The Customer will, to the best of its abilities, cooperate with Securitron to facilitate compliance with Economic Sanctions and Export Control Laws and will upon Securitron request provide Securitron with true, complete and correct copies of all documentation relating to any business dealings involving the Product, including but not limited to, end-user certifications, information concerning compliance with the obligations under Clause. b)- e), and other information as may be required by Securitron within two weeks of the simple request of such information.

Securitron shall not be obliged to make any payment or take any other action if Securitron believes in good faith that such action may constitute a violation, contribute to a violation, or constitute a circumvention of any Economic Sanctions and Export Control Laws.

**COMPLIANCE WITH ANTI-TRUST, ANTI-CORRUPTION AND DATA PRIVACY LAWS:** The Customer, its directors, officers, and employees shall perform their obligations under these Terms and Conditions in full compliance with the ASSA ABLOY Code of Conduct which is accessible online at: <https://www.assaabloy.com/group/en/sustainability/code-of-conduct/code-of-conduct-business-partners>
