SPARTAN

HOLLOW METAL DOORS & FRAMES

Manufactured in Houston, TX

Tell offers a complete line of standard hollow metal doors to fit your needs. Spartan Doors are available in 20 and 18 gauge steel. All doors come with a polystyrene core as standard, making every door smoother, flatter, and stronger. Spartan Doors are available in a complete range of fire ratings (up to 3 hours) and are certified by Underwriters Laboratories. All door panels are manufactured from high quality Galvannealed steel and are thoroughly cleaned inside and out to insure excellent corrosion resistance and paint adhesion. Spartan Doors come standard with a prime coat, ready to be finished. Factory applied finish coat paint is available in many colors. Contact customer service for pricing and quantities required, for factory finish paint.

Features

- Insulated with polystyrene core
- Non-handed
- Galvannealed (standard)

Hinge Location Chart

Standard Hollow Metal Door Hinge Location Chart (1 3/4" Doors)

NOTE:

- Hinges are measured from the top of the door to the top of the hinge cutouts.
- 8'0" doors have a 4th, bottom hinge = D
- Lock cutout is measured from top of door to centerline of lock cutout.
Standard deadbolt center-to-center (CTC) is 7-11/16" from lock*.

• Standard deadbolt CTC is 48" above finished floor (AFF). This would be CTC of 7-11/16" above 161 lock prep for Spartan and Viking, or measurement "F" in diagram.

• Tell standard 161 lock prep center-line on door & ASA strike center-line on frame is 40 5/16" above finish floor (AFF).

• Tell standard 00 lock prep (standard 8" x 11/8" mortise pocket edge prep) center-line is 3/8" lower, or 39 15/16" AFF.

INTRODUCING OUR NEW

TELSTAR CD

ENGINEERED CONTAINER DOOR

featuring a 2-STEP EZ WELD

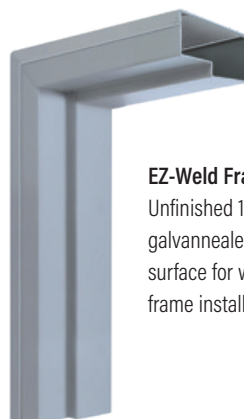

TELSTAR CD

Engineered Container Door

ADVANTAGE - TWO. EASY. STEPS.

Manufactured specifically for the shipping container, the **Telstar CD** is an all-in-one, pre-assembled door/frame combination that comes ready to weld into your storage container building in just two easy steps.

Shipped pre-assembled with a weld cap, the door is placed flush against the walls of the container's opening, ready to weld in place. The **Telstar CD** makes installation easier and faster than welding heavy tube steel into a frame and attaching a door. Our 16 gauge frames are prepped for hinges, ASA and deadbolt strike. The 20 gauge door comes with a polystyrene core, ADA threshold, and are reinforced for door closers.

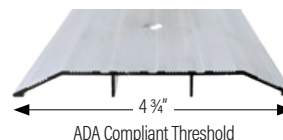

EZ-Weld Frame

Unfinished 16 ga. galvanized steel surface for weld-in frame installation.

Telstar CD comes with unfinished galvanized metal surface for weld-in frame installation.

Lock hardware and lite kits are additional.

Order by product ID number.
