Description

Kimolos is an outdoor fabric collection that stands out for its natural elegance and fresh, coastal-inspired palette. Featuring shades of blue, blue-green, beige, and soft neutrals, the collection evokes a serene, Mediterranean atmosphere ideal for sophisticated outdoor settings.

The range is divided into two complementary lines: a selection of solid colors offering versatility and subtlety, and a series of striped patterns that blend the collection's tones in a harmonious, dynamic way. This combination allows for a wide variety of compositions, from understated to expressive, while maintaining a balanced and contemporary aesthetic.

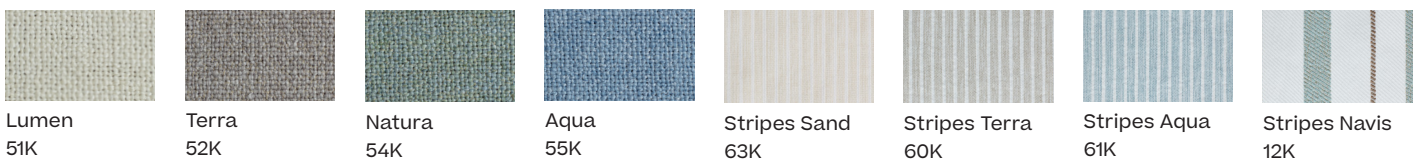

Crafted with high-performance materials designed to withstand outdoor conditions, Kimolos fabrics provide lasting durability without compromising on comfort or style.
