

Oak

kettal

Description

Oak is a strong and durable hardwood widely valued in furniture making. Known for its distinctive grain patterns and natural resistance, it combines beauty with longevity. Oak is commonly used for indoor furniture only.

Suitable for indoor use only

Technical specifications

Grain	Straight / medium size
Texture	Slightly sanded surface
Monnin Hardness	5,1
Coeff. volumetric shrinkage	0,43%
Total tangential shrinkage	10,5%
Total radial shrinkage	5,6%
TS/RS ratio	1,9 / 1,6
Strength (Compressive)	Perpendicular / Parallel (Oak: 7.8 / 43 MPa
Modulus of elasticity	Between 6670 - 16000 MPa

Colour Options

Natural Oak
