

Parterre, the new chair designed by Cristina Celestino for Quinti, pays homage to the Italian garden, inspired by the rich and elaborate world of ornamental geometric designs. The flexibility of the individual elements at different heights creates infinite variations.

DIMENSIONI elementi singoli

- 1 – LARGE TRIANGLE P tot 65 L tot 113 L lati 81_ 44 H seat cm
- 2 - SMALL TRIANGLE P tot 50 L tot 71 L lati 52_ 44 H seat cm
- 3 - SEMICIRCLE 104*52*44H cm
- 4 – FREE BACKREST 115*45*72H cm
- 5 – WALL BACK 122*23*112H cm
- 6 - MODULAR POUF 51*42*45H cm
- 7 - PAINTED METAL COFFEE TABLE DIAM. 80 H 37 cm

STRUCTURE

The structure is made with a base in plywood with feet n which is fixed a core in preformed polystyrene that is then coated with high-density polyurethane rubber. Everything is covered with fabric, leather or eco-leather.

Disassembly

All products have been designed in such a way as to allow them to be disassembled at the end of their useful life, so that their parts and components can be reused, recycled, or recovered for energy purposes.

Warranty and Safety

QUINTI guarantees that the products will retain their characteristics for 6 years from delivery, except for normal wear and tear and provided that they are used in accordance with the instructions provided. QUINTI will replace any product found not to comply with this warranty at no cost, without incurring any other liability. The warranty does not apply to components, external accessories, or materials supplied by the buyer and applied to the products for the purpose of customizing them. For optimal maintenance of the products and to keep the characteristics of the materials with which they are made unchanged, some simple precautions are necessary.

All chairs offered are SAFE in accordance with EU Regulation 2023/988 on general product safety (GPSR), reinforced by UNI EN certifications.

The company is not liable for improper use (standing on or using the product as a ladder, or rocking it, which could compromise its operation and the user's safety). To lift or move the product, grasp it firmly by the supporting structure. The product must not be subjected to off-center loads; it is designed to be used under normal conditions of support on 4 legs or on the base).

Usage and Care

For an optimal maintenance of the products and to maintain unchanged the characteristics of the materials with which they are made, some simple attentions are necessary.

FABRICS

Cleaning: check the dedicated selection written on the color Swatch card. Usage: it is recommended to pay attention to the fabrics as they can be easily cut or ripped.

LEATHERS

Cleaning: clean with a white wet cloth with water. We recommend using high quality products for the cleaning of the leather to follow carefully the instructions of the manufacturer. In doubt, try out the product on a hidden part and wait at least 24 hours for the occurrence of any problems. Usage: remember that the leather is a delicate material therefore, it is recommended to pay particular attention while using.

METALS

Cleaning: both steel or aluminum surfaces, and painted ones, must be cleaned with a soft and wet cloth with hot water. For the most persistent stains, a small amount of liquid soap diluted in water may be used. We always recommend drying immediately with a soft cloth or a leather one after the cleaning process. Never using cleaning products for steel, chlorine, bleach or other strong detergents. It is not recommended to use abrasive creams, score pads and abrasive sponges that can scratch the metal surfaces. Usage: pay attention to the stains of food such as coffee, coke, fruit juices that can leave indelible marks on the surface.

WOODS

Cleaning: clean with a soft and wet cloth with warm water. We always recommend drying immediately after the cleaning process. All liquids or other residue must be removed in order to avoid the absorption. Usage: wooden surfaces, being a natural material, could be affected by an alteration of the color shade during time and use. We also remind that wooden surfaces cannot bear with high temperatures if placed directly on the wooden top.
