

Individual Training Plan: Pharmacy Technician Training Programme (Apprenticeship Pathway)
STANDARD PLAN+ACPT+ASEPTICS

This Individual Training Plan covers all aspects of the Level 3 Pharmacy Technician Training Programme (Apprenticeship Pathway) that meet the Pharmacy Technician (Integrated) Apprenticeship Standard. It works in conjunction with the Commitment Statement and forms part of the Evidence Pack. It acts both as your Delivery Plan for completing the various tasks required for the programme and also indicates which activities completed can count towards the required off-the-job training for the programme. The Individual Training Plan has been devised using the employer feedback during your enrolment process, alongside the results of the Skills Scan Part 2 call (RPL checks) with a Buttercups Tutor.

How to use the ITP

Delivery Plan

The "Delivery Plan" tab on the excel copy of the Individual Training Plan shows the date ranges for the periods of training for the programme. The programme is split into 21 periods of training; the duration of the periods of training will be determined by your contracted working hours and programme duration. Your tutor will monitor your progress against your periods of training and will complete end of period review calls with you throughout your programme.

Please use the dates in the "Period End Date" column as your target date to complete all the activities within that period of training.

How to use the ITP

Periods

The "Periods" tab on the excel spreadsheet shows all of the activities to be completed in each period of training.

- Column A shows the period of training you are due to complete the activity within.
- Column B shows you the activity type so whether this is e-learning or workplace activity for example.
- Column C details the activity.
- Column D shows the planned OTJ time for this activity in hours, please note some might have 0 which will indicate the activity is ineligible for OTJ or does not need to be completed if an optional activity.
- Column E shows the link to the domain of the standard for the activity.
- Column F shows the portfolio reference of the activity to the e-portfolio.
- Column G indicates whether the activity will span over multiple periods of training.
- Column H shows the planned OTJ time in minutes, this will be useful for you as OTJ is logged on the e-portfolio it uses minutes rather than hours so this column should be a useful reference for you as it has done the calculation for you.
- Column I will be updated throughout the programme by your tutor when the relevant assessments are released to you.
- Column J will be updated throughout the programme by your tutor as the activities are completed
- Column K is for a hidden column for internal reference
- Column L will be updated throughout the programme if any of the activities need to move into different periods of training.
- Column M is for internal use by the tutor

For each Period of Training, you will filter column A "Period" to show the relevant activities you are to complete and the planned off-the-job training time for that period. For example, for Period 1 you will filter column A "Period" to just tick "1". As you progress to Period 2, you will change the filter from "1" to "2". You will then refer to the "Delivery Plan" tab on the spreadsheet to access the dates for which you will aim to complete the set of activities.

Off-the-job Training (OTJ) Requirements

Through the e-portfolio system, the apprentice will need to document how many off-the-job training hours have been completed. Off-the-job training is learning, development and training time relating specifically to the apprenticeship programme which takes place during the apprentice's paid working hours. This includes working through course materials and learning and practising new skills and responsibilities under supervision and guidance as detailed on the Individual Training Plan.

Functional Skills

If you are completing Functional Skills courses as part of your programme you will have a specific plan of learning to complete your Functional Skills. These tasks will be documented in the relevant periods of training as activities to complete. You should be given time within your workplace to complete Functional Skills but they do not contribute to OTJ training hours.

Contracted working hours / week	30.00
Suggested off-the-job training / week	6.00
Statutory Leave for programme (weeks)	11.19
OTJ Stat Leave for programme (hours)	67.15
Start Date	01/08/2025
Minimum Duration	24.00
Minimum Duration Date	01/08/2027
Expected End Date	01/08/2027
Expected EPA Start date	02/08/2027
Expected EPA End date	02/09/2027

2	Portfolio	Create a Personal Development Plan	1	7	A03	1	60					41
2	Portfolio	Create a personal self-checking protocol in line with company SOPs	1	1,5	A04	1	60					42
2	Portfolio	Complete dispensing validation logs	4	1,2	A05a	1	240					43
2	Portfolio	Complete prescription validations observations assessment	0	1,2,3	A05b	2	0					44
2	Virtual Classroom	Attend virtual classroom on calculations	1	1			60					45
2	Welfare Review	Pastoral discussion with Buttercups Reviewer	0				0					46
2	Workplace Activity	Locating and reading the workplace SOPs on receiving prescriptions	0.25	1			15			12		47
2	Workplace Activity	Mapping out the journey of a prescription in your organisation from prescriber to patient, across a range of different types of NHS and private prescriptions	1	1,2,3			60					48
2	Workplace Activity	Observe the practise of the legal and clinical checks that prescriptions undertake	0.5	1,3			30					49
2	Workplace Activity	Learn how to receive, interpret and validate different types of prescriptions in line with workplace SOPs as a pharmacy technician. This should involve shadowing or being mentored on practices specific to your workplace	1	1			60			13		50
2	Workplace Activity	Learn how to deal appropriately with taxes, urgent orders and emergency supply requests. This should involve shadowing or being mentored on practices specific to your workplace	0.5	1,2,3			30			14		51
2	Workplace Activity	Learn how to use the PMR effectively to find a patient, label their medicines, correct/update their details and deal with a deceased patient	0.75	1			45			15		52
2	Workplace Activity	Be able to deal with interactions and warnings that may be flagged on the PMR system. This should involve shadowing or being mentored	0.5	1,2,3			30					53
2	Workplace Activity	Practising the labelling of medication for patients to ensure they meet legal requirements. This will involve shadowing and being mentored on practices specific to your workplace.	1.25	1			75			16		54
2	Workplace Activity	Complete manual handling and PPE training in the workplace	0.5	3,10			30					55
2	Workplace Activity	Learn how to demonstrate safe and hygienic dispensing and be able to safely deal with spillages	0.5	3,10			30			18		56
2	Workplace Activity	Researching the pharmacy resources that are available in the workplace, what they are used for, who can access them and how they may be used to support the dispensing process	1	1,3			60					57
2	Workplace Activity	Reading SOPs on dispensing practices in the workplace, including those for near misses and dispensing errors	0.25	8			15			19		58
2	Workplace Activity	Become familiar with different pharmaceutical stock forms in your workplace and the layout for their locations, including any special locations required to comply with storage conditions, including any automated supply (if available). This should involve shadowing	1	3			60			20		59
2	Workplace Activity	Learn to assemble prescriptions, including calculating quantities to supply, techniques for weighs and measures, robotic supply(if relevant) and use of other equipment. This will involve shadowing and being mentored on practices specific to your workplace	1.75	3			105			21		60
2	Workplace Activity	Learn how to deal with any prescription issues that arise when validating or dispensing a prescription. This will involve shadowing and being mentored on practices specific to your workplace	1.5	1,3			90					61
3	1-2-1 Buttercups Contact	Review, act on feedback and complete additional learning as provided by Buttercups Tutor on all activities and reviews	0	7			0					62
3	Additional Learning Support	Activities will be added here if identified that the apprentice requires additional support	0		ALS		0					63
3	Buttercups led activities	Tasks to be confirmed by Tutor if applicable	0		Stretch and Challenge		0					64
3	E-Learning	Activities will be added here if the apprentice requires teaching support following screening at the beginning of the programme	0		Access Courses		0					65
3	E-Learning	Complete additional learning required to achieve 70% or more in the test your learning section for Dispensing in the B-Hive	1	1,3			60					66
3	E-Learning	Complete module 2 part 4 e-learning activities and competencies	6	1,2,3,4,5,6,7,8,9,10			360			22		67
3	E-Learning	Complete module 2 activities and competencies	2				120					68
3	E-Learning	Complete module 3 part 1 e-learning	10	1,2,3,4,5,6,7,8,9,10			600			23		69
3	Functional Skills	Functional Skills activities only to be added here if you are not Functional Skills exempt	0		Functional Skills Maths		0					70
3	Functional Skills	Functional Skills activities only to be added here if you are not Functional Skills exempt	0		Functional Skills English		0					71
3	Portfolio	Complete the risk assessment questions	1	1,3,10	A07	1	60					72
3	Portfolio	Draw a diagram of your workplace identifying Health and Safety points	1	3	A08	1	60					73
3	Portfolio	On passing the Dispensing MCQ test above, start the Health and Safety observations in the workplace	0	10	A09	2	0					74
3	Portfolio	Start observations on Health and Safety in the dispensing process	0	3,10	A10	2	0					75
3	Portfolio	Be observed handling hazardous substances safely	0	1,3,10	A11	2	0					76
3	Portfolio	Make suggestions for improvements for Health and Safety	1	3,10	A12	2	60					77
3	Portfolio	Be observed following manual handling requirements	0	3,10	A13	2	0					78
3	Portfolio	Using checking protocol from A04 create a dispensing portfolio	3	1,2,5,7	A14a	3	180					79
3	Portfolio	Using checking protocol from A04 create your dispensing logs to demonstrate accuracy in dispensing	3	1,2,5,7,8,10	A14b	3	180					80
3	Portfolio	Complete a reflective account based on communication skills when things may not have gone to plan in period 1-12	1	7	A15	10	60					81
3	Portfolio	WTS review of performance in Period 3 and upload to portfolio	0		PROREV2 - APP	1	0					82
3	Workplace Activity	Following the pharmacy funding webinar, review your procedures for reimbursement for your services, be that claims to the NHS or charging a patient or department	1	3			60					83
3	Workplace Activity	Continue to learn to dispense all types of items, this month focusing on accuracy of dispensing using the self-checking protocol that you have designed. Make adjustments to your protocol if necessary to improve your performance	1.5	1,3			90					84
3	Workplace Activity	Read all SOPs relating to stock management and CDs	0.25	1,3			15			26		85
3	Workplace Activity	Spend time focusing on dispensing CD prescriptions, including learning about record keeping procedures and governance. This will involve shadowing and being mentored on practices specific to your workplace	1.5	1,3			90					86
3	Workplace Activity	Read the SOPs for the safe disposal of stock and patient returns. Have a colleague demonstrate the process for you then switch and ask them to observe you and provide feedback	0.5	3			30			27		87
3	Workplace Activity	Find out your workplace procedures for owing's on prescriptions and learn how to be able to deal with them confidently	0.5	3			30			30		88

Period	Activity Type	Activity	OTJ hours	Duties	Portfolio Ref	Periods to Complete	OTJ (mins)	Activity Released (Date)	Activity Complete	REF	Narrative for Change	Index to sort table back to its original state
3	Workplace Activity	Discover your workplace procedures and policies for safe sourcing and storage of medicines to ensure they remain fit for purpose	0.5	3			30					89
3	Workplace Activity	Experience ordering, receiving and maintaining stock. This will involve shadowing and being mentored on practices specific to your workplace	1	3			60			28		90
3	Workplace Activity	Find out about managing cost-effective stock control	0.5	3			30					91
3	Workplace Activity	Shadow staff dealing with stock recalls and find out how to claim credit	1	3			60			29		92
