

# VISION AND PRINCIPLES

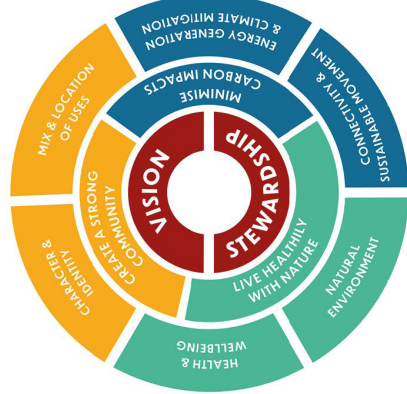

## PR6A LAND EAST OF OXFORD ROAD Enquiry by Design - Session 1

## PR6A LAND EAST OF OXFORD ROAD Enquiry by Design - Session 1A

**Introduction**  
This is an introductory session to set out the purpose of vision; where the principles came from, what they (generally) mean and give some initial examples.  
We will also have a brief introduction on how to use Mural for our interactive sessions.

### A Vision for PR6a

PR6a will be founded in history and built for the future. It will reflect the location as an entrance to Oxford city, inspired and informed by the best of Cherwell and Oxford's streets and spaces. PR6a will be a diverse and healthy mixed-use intergenerational community, providing essential housing for Oxford. It will be connected to its neighbours, to the city, and to nature and the countryside. A place that people value, where sustainability, wellbeing and quality of life are fundamental.

### AIMS OF THE SESSION

1. Present draft vision and principles to date
2. Gain feedback on the draft vision and key principles
3. What else do we need to consider and how can we measure success against these?
