Checking the digital advertising medium

Before delivering the digital advertising medium, please check it against our specifications.

Static

The “XnView” tool can be used for these checks; it can be downloaded at xnview.com. Open the JPEG file of your still picture in the tool and, using the “View” icon or key combination “Ctrl+Enter”, check if the properties listed on the right-hand side are correct.

Limited Animation

The “MedialInfo” tool can be used for these checks; it can be downloaded at mediaarea.net. Open the “MedialInfo” tool in HTML view and then check your file. The spot must correspond to the length of the reserved booking.

Delivery

To ensure a punctual start to your campaign, upload your digital advertising media at the latest 5 working days before the start of broadcasting:

www.apgsga.ch/myapg or use the upload link on the digital sales documents.
