Description

The Chest Pull great outdoor gym device for building body strength. Develops strength of the arms, back muscles and abdominals. Improves the functioning of the cardiopulmonary system. What sets us apart from others is that the seat and backrest are covered by polyurethane foam (PU system). As a result users never have a feeling of hot touch on very sunny days, or cold during frost. The key point is to provide everyone with optimal comfort for exercise.

To do exercise sit comfortably on the seat, and grab the handles. Pull the handles towards. Keep your back upright.
