BIKE II

Code: KS-FS-007

Physical

Cardio

Strenght

Description

The Bike II is a perfect cardio outdoor gym equipment which involves both the arms and the legs. Develops thigh muscles, calves, abdomen and arms. Improves the functioning of the cardiopulmonary system. What sets us apart from others is that the seat and backrest are covered by polyurethane foam (PU system). As a result users never have a feeling of hot touch during very sunny days, or cold during frost. The key point of this version is to provide everyone with optimal comfort for exercise.

To do the exercise sit down on the seat, grab the handle with your hands, and place your feet on the steps. Start to press on the steps as if you were pedalling and move your hands alternately. Keep your back upright.

Product details

- Dimensions (LxWxH): 0,89 x 0,50 x 1,25 m
- Safety zone: 3,84 x 3,50 m
- The number of anchors: 1
- Compatibility with norm EN 16630 is confirmed by a certificate
