Socialisation

Description

The double pendulum swing features basket-style seats. Its solid structure is made from the highest quality ROBINIA wood, combining a natural ecological appearance with exceptional durability. The wood is resistant to harsh weather conditions. The swing is finished with decorative forest-themed elements (owls). The product drawing is an integral part of the description – the product must comply with the depicted appearance.

Playground device consists of

- 2 x basket-style seats suspended on chains
- 4 x swing legs
- 1 x cross beam
- Decorative elements with forest motifs (owls)
