Description

An integrative set in vibrant colors comprising three towers, slides, a bridge, an openwork canopy, a sensory board with two colorful rotating drums producing maracas sounds, a sensory board with five tubular chimes emitting sounds, a sensory board with a rotating wheel mimicking rain sounds, a sensory board with a clock, a sensory board with sliding elements, and two abacuses. The set is designed with a snail-inspired aesthetic. The structure is constructed from stainless steel, making it weather-resistant and suitable for heavy use. The construction is welded (the use of staples is not permitted). The structural tubes, including six bent tubes, are finished with spherical decorative elements resembling snail antennae. Slide walls, tower elements, balustrades, and the canopy are made from HDPE (high-density polyethylene). The floor is made of HPL (high-pressure laminate) with an anti-slip texture, ensuring safety, preventing overheating in the sun, and minimizing freezing in winter.

Playground device consists of

- 18 structural tubes, including 6 bent tubes, finished with spherical decorative elements,
- 1 tower with an openwork canopy, featuring a wall with a window and a decorative frieze,
- 1 tower with a wall featuring a window and a decorative frieze,
- 1 tower with a wall featuring a decorative frieze and two-step stairs with cut-out handles,

- 1 slide featuring a stainless steel slide, handrails, and sides finished with HDPE,
- 1 bridge with handrails made of ropes,
- 1 sensory board with two colorful drums emitting maracas sounds,
- 1 sensory board with five tubular chimes producing sounds,
- 1 sensory board with a rotating wheel creating the sound of rain,
- 1 sensory board with a clock,
- 1 sensory board with sliding elements,
- 2 abacuses.

Product details

- Device dimensions (LxWxH): 6.07 x 2.84 x 2.49 m
- Safety zone: 9.07 x 6.34 m
- Free fall height: 0.59 m
- Number of users: 17
- A certificate confirming compatibility with norm EN 1176
- Dimensional differences of up to +/- 5% are acceptable.

Materials

- The construction and additional elements (handrails, handles, brackets, etc.) are made of stainless steel AISI 304, with pipes of 76.1 x 2.0 mm (including two curved pipes), 33.7 x 2.0 mm, and 25.0 x 2.0 mm, as well as profiles: 40 x 40 x 2.0 mm,
- Decks made of 10 mm thick HPL board with an anti-slip texture,
- Slide walls, towers, and balustrades made of three-layer, colorful HDPE plastic with a thickness of 15 mm,
- Polycarbonate windows in the window openings.
