Description

An integrative playset with vibrant colors consisting of three towers, a slide, two entrance ramps, a bridge, and latticed canopies, a sensory board with two colorful rotating drums that produce maraca sounds, a sensory board with five tubular chimes producing sound, a sensory board with a rotating wheel producing the sound of rain, a sensory board with a clock, a sensory board with movable elements, and two abacuses. The set is styled with reference to snail shapes. The construction is made of stainless steel, resistant to weather conditions and heavy use; it features welded construction (the use of staples is not allowed). The structural pipes, including six curved pipes, are finished with spherical decorative elements resembling snail antennae. The walls of the slide, towers, balustrades, and canopies are made of HDPE board. The floor is made of HPL board with an anti-slip texture, ensuring safety during use and preventing overheating in the sun and freezing in winter.

Playground device consists of

- 20 structural pipes, including 6 curved pipes finished with spherical decorative elements,
- 1 tower with a latticed roof, featuring 1 wall with a window and an HPL entrance ramp, and sides finished with HDPE board,
- 1 tower with 1 wall with a window and 1 wall with a routed pattern,

- 1 tower with two-step stairs with cut-out handles and an HPL entrance ramp, and sides finished with HDPE board,
- 1 slide with a stainless steel slide and handrails, and sides finished with HDPE board,
- 1 bridge with rope handrails,
- 1 sensory board with two colorful rotating drums that produce maraca sounds,
- 1 sensory board with five tubular chimes producing sound,
- 1 sensory board with a rotating wheel producing the sound of rain,
- 1 sensory board with a clock,
- 1 sensory board with movable elements,
- 2 abacuses.

Product details

- Device Dimensions (LxWxH): 6.07 x 3.59 x 2.49 meters
- Safety Zone Dimensions: 9.07 x 6.89 meters
- Free Fall Height: 0.59 meters
- Number of users: 24
- A certificate confirming compatibility with norm EN 1176
- Differences in dimensions not exceeding +/- 5% are allowed.

Materials

- The construction and additional elements (handrails, handles, brackets, etc.) are made of stainless steel AISI 304, with pipes of 76.1 x 2.0 mm (including two curved pipes), 33.7 x 2.0 mm, and 25.0 x 2.0 mm, as well as profiles: 40 x 40 x 2.0 mm,
- Decks made of 10 mm thick HPL board with an anti-slip texture,
- Slide walls, towers, and balustrades made of three-layer, colorful HDPE plastic with a thickness of 15 mm,
- Polycarbonate windows in the window openings.
