Description

A sensory board designed for creative play, adapted for use by children in wheelchairs. The toy features a frog-themed board with two round windows (frog eyes) that attract attention and stimulate visual perception. This unique product not only entertains but also supports a child's sensory development. The structure is made of black steel, galvanized, and powder-coated. The board is made of HDPE plastic. The pipes are topped with spherical decorative elements.

Playground device consists of

- 2 x posts
- 1 x frog-themed board
- 2 x round windows (frog eyes)

Product details
