Norte 130 LUMO

Code: GK-RO-201-L-H

Physical | Social-emotional | Cognitive | Creative | Spinning | Interaction | Socialisation | Lighting

Description

Carousel with LUMO function – light and motion in one!

Turn an ordinary ride into an extraordinary adventure! Our carousel is equipped with the innovative LUMO system – a unique technology that generates colorful lights during motion. This makes every playtime a dynamic, multi-sensory experience that delights children of all ages.

The triple handle in a star-shaped arrangement ensures a comfortable and safe ride, while the striking lighting integrated into the solid metal construction gives every playground a modern look.

And that's not all! The carousel requires no external power source or batteries – energy is generated 100% through the motion of the toy, making it environmentally friendly and encouraging physical activity. The carousel's structure features a graphite color (RAL 7016) and is made of anti-corrosion-protected and powder-coated steel sheets and tubes. The platform is made of HPL board with a LUMO engraving.

The LUMO carousel is a new generation of playground entertainment – innovative, safe, and full of color!

The device includes

- LUMO light function
- 1 carousel platform with three star-shaped handles

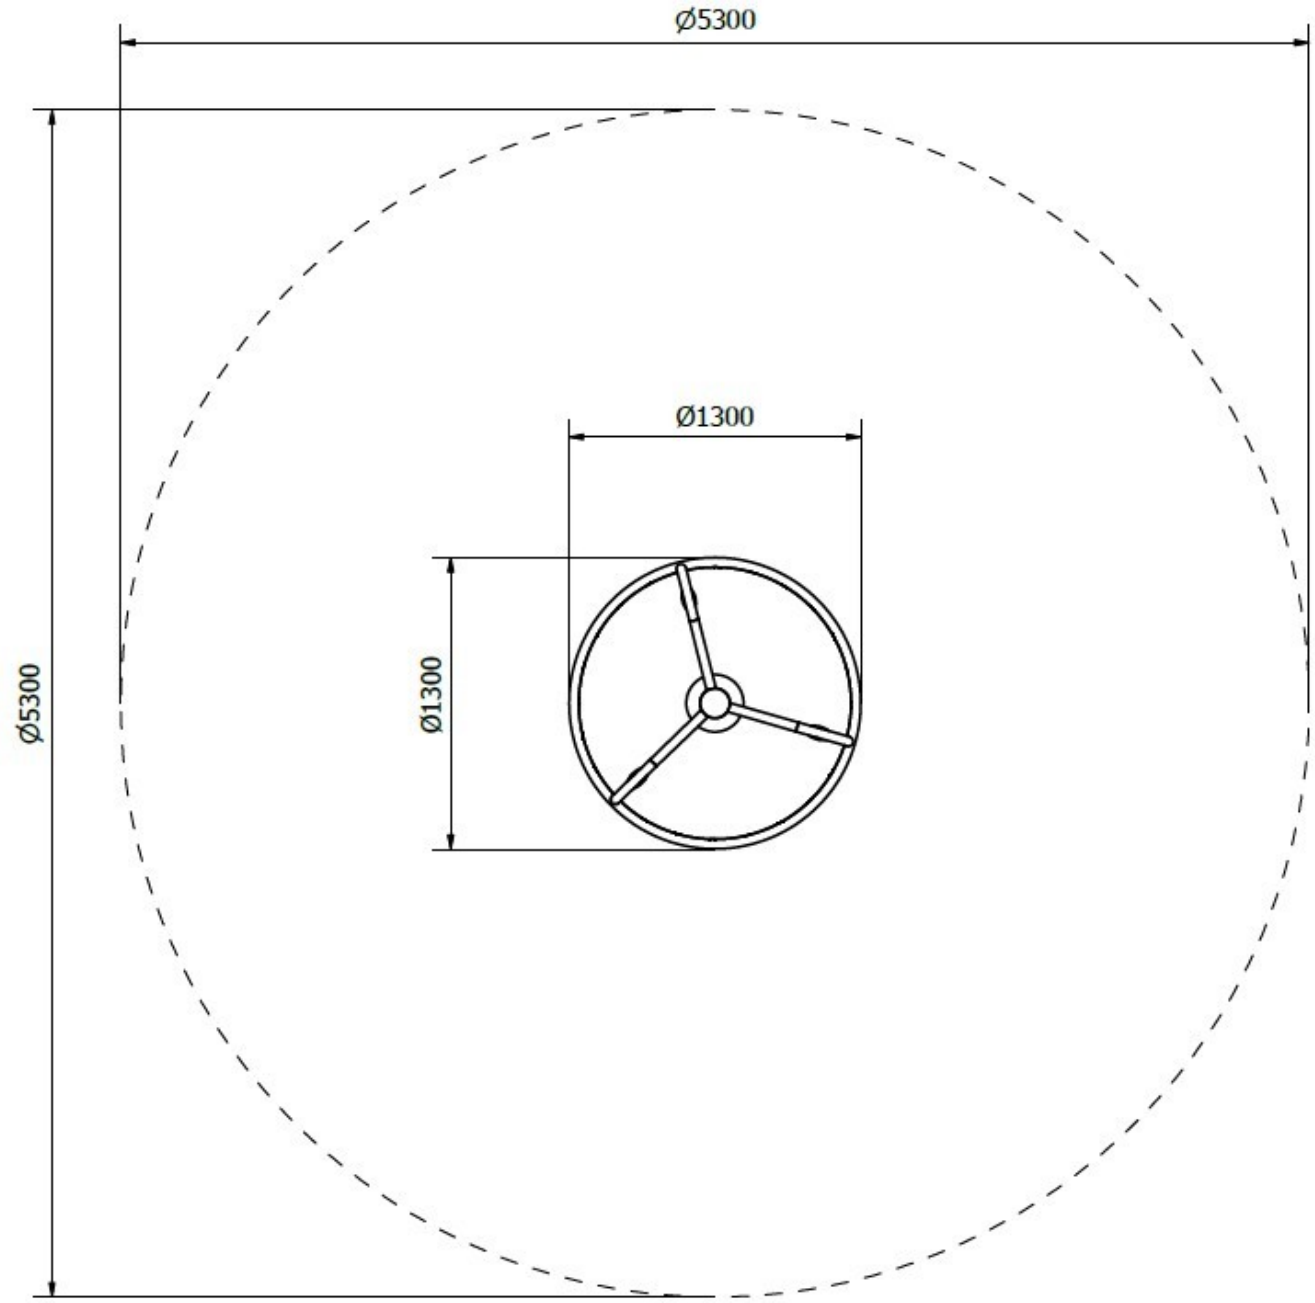

- 1 foundation element

Product details

- Device dimensions (LxWxH): 1.30 x 1.30 x 0.80 m
- Safety zone: 5.30 x 5.30 m
- Maximum fall height: 1.0 m
- User age: 2+
- Maximum number of users: 4
- A certificate confirming compatibility with norm EN 1176
- Dimensional differences not greater than +/- 5% are allowed

Materials:

- Graphite-colored structure (RAL 7016) made of corrosion-protected, powder-coated steel sheets and tubes
- Blue HPL platform with LUMO engraving
- Orange HDPE plastic decorations with circular engraving
