Description

The **LUMO Drawing Board** is an innovative space for interactive play, designed to be accessible for children using wheelchairs.
This interactive play panel stimulates imagination and fine motor skills through creative, hands-on play. The possibility of drawing with chalk, colorful details, and a friendly design encourage children to express themselves artistically, cooperate, and learn through activity. Built-in rotating wheels that emit colorful light when set in motion make the experience even more engaging and exciting. The LUMO Drawing Board is perfect for schools, playgrounds, and recreational areas as an element that supports sensory development and creativity in children.

The structure of **LUMO Drawing Board** is made of powder-coated, galvanized steel, resistant to corrosion and weather conditions.The 15 mm HDPE board with engraved mathematical patterns offers high durability and UV resistance. The drawing surface is made of 8 mm HPL board suitable for chalk drawing.The pipes are finished with spherical decorative elements. The panel includes 13 integrated colorful, rotating, illuminated wheels.The unit is designed for installation in outdoor play and educational zones.

* The board is also available in a stainless steel version.
