Description

A large glowing sensory board designed for creative play, adapted for use by children in wheelchairs. The main theme is the competition between cars on a racetrack. The rotating wheels serve as the car wheels. These wheels emit colorful light when set in motion, making the play experience more engaging. At the top of the board, there is the inscription "SPEED RACE." The racetrack is surrounded by grooves that imitate vegetation. The structure is made of black steel, powder-coated for durability. The board itself is made from HDPE plastic. The pipes are finished with decorative spherical elements.

* Available posts colors [RAL]: 7016; 9006.

Playground device consists of

- 2 x posts
- 1 x board with a theme of eight cars on a racetrack
- 28 x rotating wheels emitting colorful light

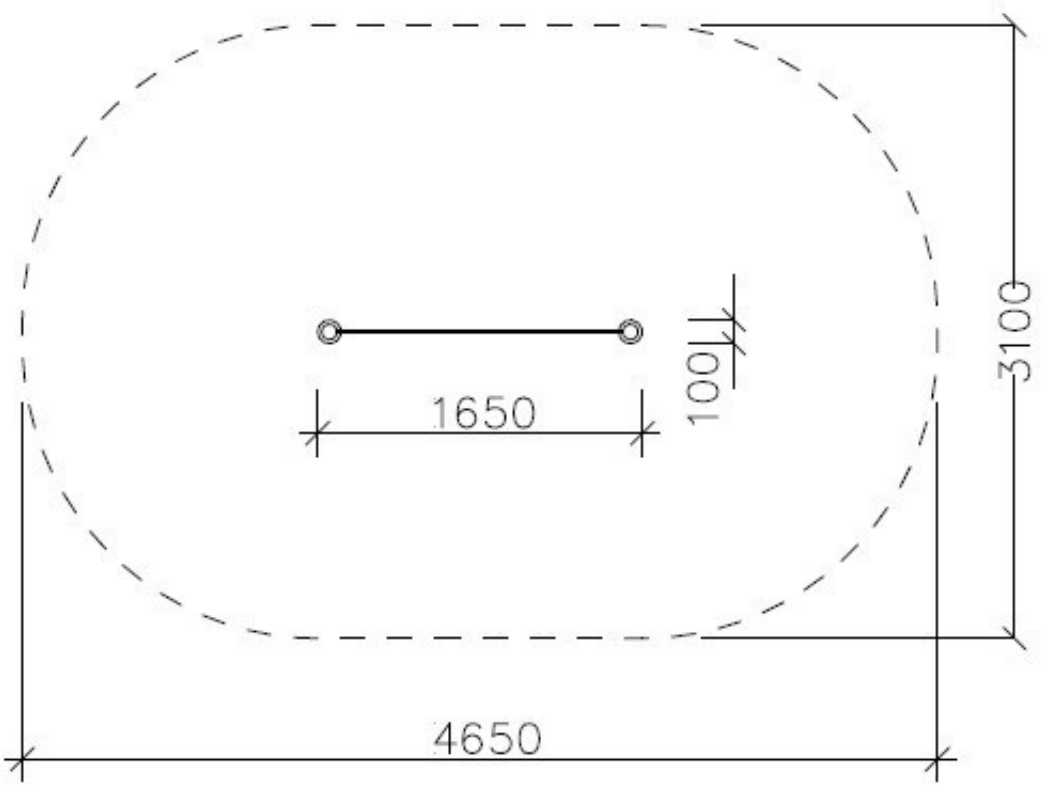

Product details

- Dimensions (LxWxH): 0,9 x 0,1 x 1,25 m
- Safety area (LxW): 4,65 x 3,1 m
- Age group: 2+
- Number of users: 4 people
- A certificate confirming compatibility with norm EN 1176
- Dimensional differences of no more than +/- 5% are allowed.

Materials

- The structure is made of black steel, galvanized, and powder-coated.
- Main structural profile dimension: Ø76.1x2 mm.
- The board is made of 15 mm HDPE material.
- Available posts colors [RAL]: 7016; 9006.
- Board color: orange.
- Wheel colors: 6 x red, 10 x blue, 6 x green, 6 x multicolor (red, blue, green).
