Description

A large glowing sensory board designed for creative play, adapted for use by children in wheelchairs. The main theme features a large, colorful dragon breathing fire. The board includes rotating wheels that emit colorful lights when set in motion, making playtime more engaging. It also features grooves that mimic trees, grass, and clouds, creating an immersive environment. The construction is made from black, galvanized, and powder-coated steel, ensuring durability and safety. The board is constructed from HDPE material, and the tubes are finished with decorative spherical elements.

* Available posts colors [RAL]: 7016; 9006.

Playground device consists of

- 2 x posts
- 1 x board featuring the fire-breathing dragon theme
- 17 x rotating wheels emitting colorful lights
