Description

A triple sensory board for creative play with a sound that enhances the creativity and sensory experience of children, including those in wheelchairs. The equipment has three panels: the colorful rotating drums produce a delightful maraca-like sound, while the vibrant tube chimes and bongos offer endless opportunities for creative musical expression. The board's structure is powder-coated black steel, weatherproof, and ready for intensive use. The board is made of HDPE plastic. The poles are finished with spherical decorative elements.

With this triple sensory board, children will be able to develop their fine motor skills, hand-eye coordination, and imagination, all while having fun in a safe and inclusive environment.

Available panel colors: green, yellow, red, blue.

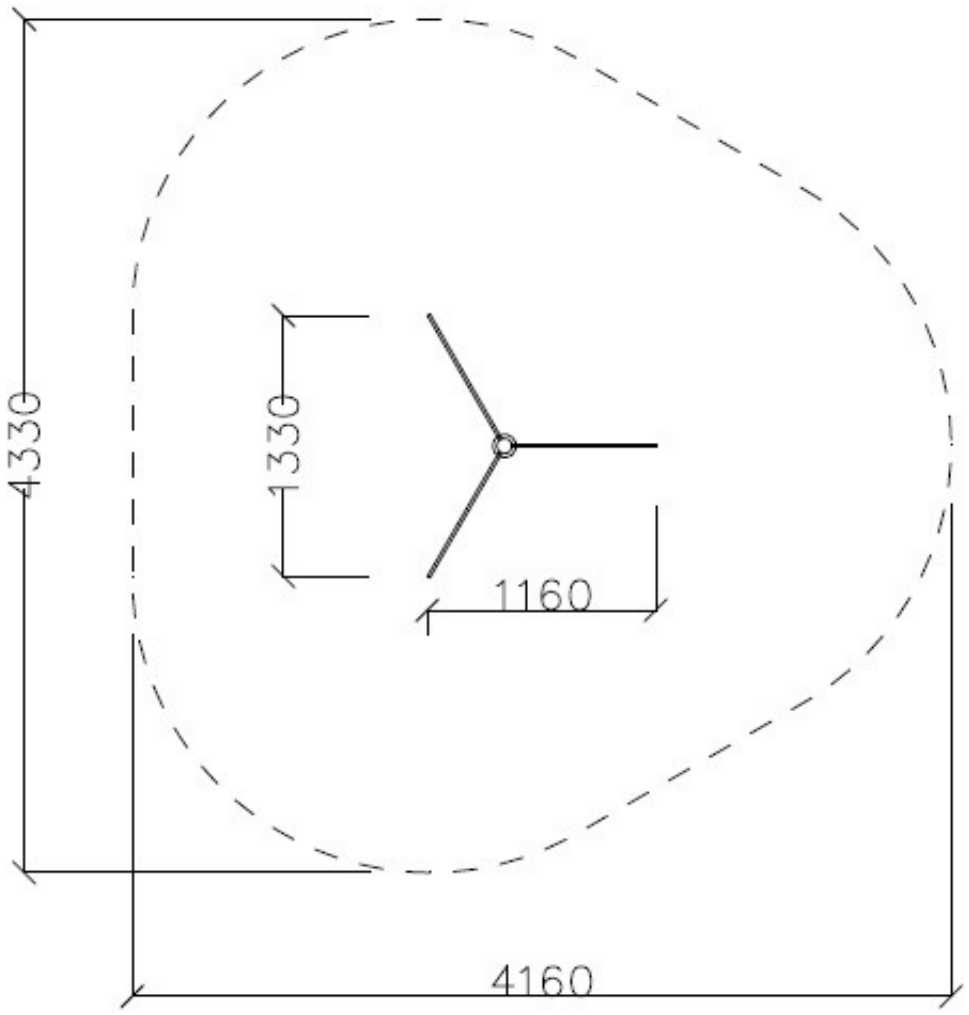

Product details

- Dimensions (LxWxH): 1.16 x 1.33 x 1.50 m
- Safety area: 4.16 x 4.33 m
- A certificate confirming compatibility with norm EN 1176
