Description

A large glowing sensory board designed for creative play, adapted for use by children in wheelchairs. The main theme features off-road car struggles in a rugged terrain. The rotating wheels represent the cars' wheels and exhaust smoke, and when set in motion, they emit colorful lights, enhancing the fun of playtime. The track for the cars is surrounded by grooves that imitate vegetation, adding to the immersive experience. The construction is made of black, galvanized, and powder-coated steel, ensuring durability and safety. The board is crafted from HDPE material, and the tubes are finished with decorative, spherical elements.

* Available posts colors [RAL]: 7016; 9006.

Playground device consists of

- 2 x posts
- 1 x board featuring six off-road cars
- 28 x rotating wheels emitting colorful lights

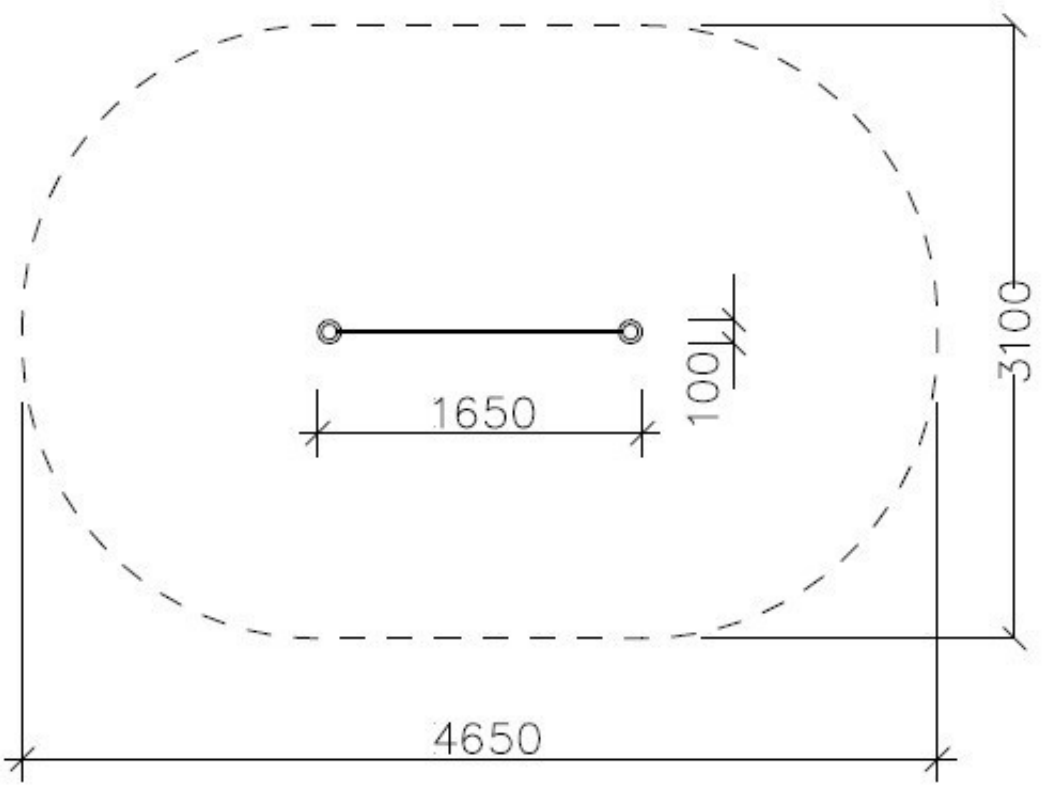

Product details

- Dimensions (LxWxH): 0,9 x 0,1 x 1,25 m
- Safety area (LxW): 4,65 x 3,1 m
- Age group: 2+
- Number of users: 4 people
- A certificate confirming compatibility with norm EN 1176
- Dimensional differences of no more than +/- 5% are allowed.

Materials

- The structure is made of black steel, galvanized, and powder-coated.
- Main structural profile dimension: Ø76.1x2 mm.
- The board is made of 15 mm HDPE material.
- Available posts colors [RAL]: 7016; 9006.
- Board color: orange.
- Wheel colors: 11 red, 2 blue, 6 green, 10 multicolor (red, blue, green).
