Description

A large glowing sensory board designed for creative play, adapted for use by children in wheelchairs. The main theme revolves around an emergency response scenario. On the orange background, there are flames suggesting a fire, along with a stream of water. The rotating wheels represent the wheels of a Fire Truck, Ambulance, and Police Car, and they are part of the water stream. When set in motion, these wheels emit colorful lights, making the play experience more engaging and exciting. The track for the vehicles is surrounded by grooves that imitate buildings, enhancing the immersive environment. The construction is made of black, galvanized, and powder-coated steel for durability and safety. The board is made from HDPE material, and the tubes are finished with decorative spherical elements.

* Available posts colors [RAL]: 7016; 9006.

Playground device consists of

- 2 x posts
- 1 x board featuring three vehicles (Fire Truck, Police Car, Ambulance)
- 33 x rotating wheels emitting colorful lights

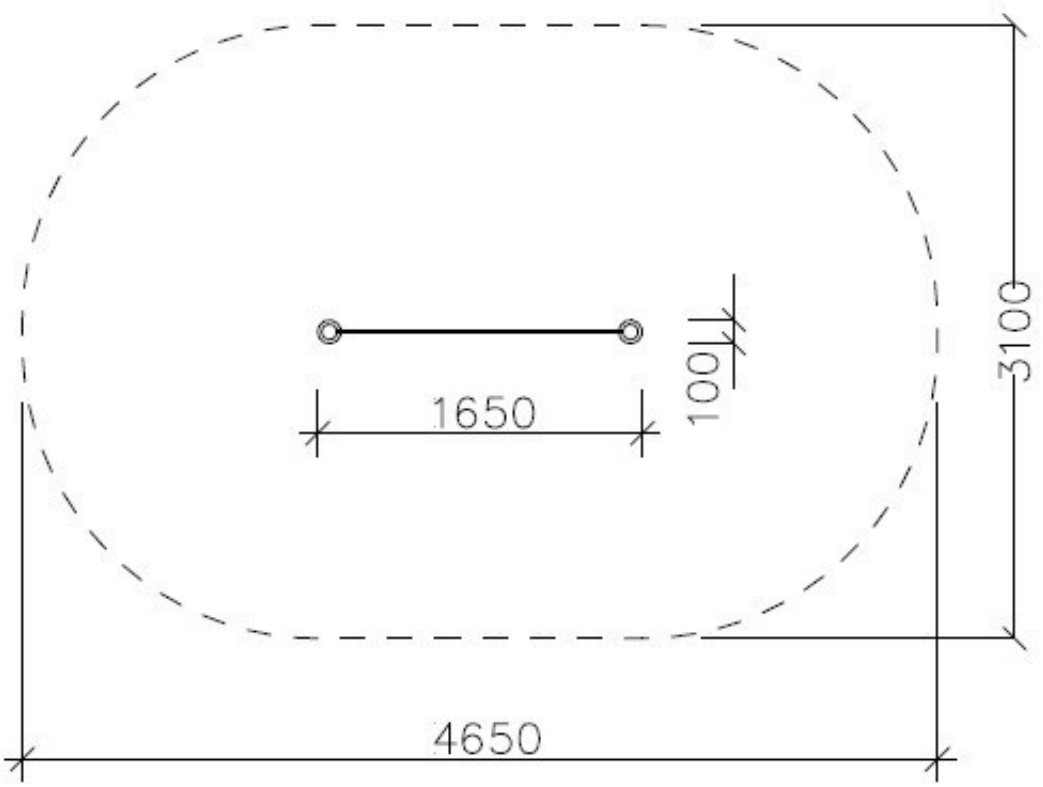

Product details

- Dimensions (LxWxH): 0,9 x 0,1 x 1,25 m
- Safety area (LxW): 4,65 x 3,1 m
- Age group: 2+
- Number of users: 4 people
- A certificate confirming compatibility with norm EN 1176
- Dimensional differences of no more than +/- 5% are allowed.

Materials

- The structure is made of black steel, galvanized, and powder-coated.
- Main structural profile dimension: Ø76.1x2 mm.
- The board is made of 15 mm HDPE material.
- Available posts colors [RAL]: 7016; 9006.
- Board color: orange.
- Wheel colors: 9 red, 16 blue, 8 multicolor (red, blue, green).
