Description

A education board designed for observing the "Water Cycle," adapted for creative play by children in wheelchairs. The board features a colorful panel depicting the water cycle, including evaporation, cloud formation, precipitation, and transpiration. This unique product not only entertains but also educates. The structure is made of black steel, galvanized, and powder-coated. The board is made of HDPE plastic. The pipes are topped with spherical decorative elements.

Playground device consists of

- 2 x posts
- 1 x board with the "Water Cycle"
