Description

LUMO PLAY Carousel – light, sound, and motion in one!

Turn an ordinary ride into an extraordinary adventure! Our carousel is equipped with the innovative LUMO PLAY system – a unique technology that generates colorful lights and melodies during motion. This transforms every ride into a dynamic, multi-sensory experience that delights children of all ages.

The 1.30 m diameter carousel with three seats and a driving handle ensures comfortable and safe play. The spectacular lighting, built into a solid metal structure, adds a modern look to any playground.

And that's not all! The carousel requires no external power supply or batteries – all energy is generated purely by motion. The entire system can be easily controlled via an intuitive mobile app available on Google Play and the App Store. Play music on the carousel directly from your phone, Spotify, YouTube Music, or any other streaming service.

The structure is made of corrosion-protected and powder-coated steel sheets and pipes in graphite color (RAL 7016). The floor is made of HPL board with LUMO engraving.

The LUMO PLAY Carousel is the next generation of playground fun – innovative, interactive, safe, and full of color!

Device includes

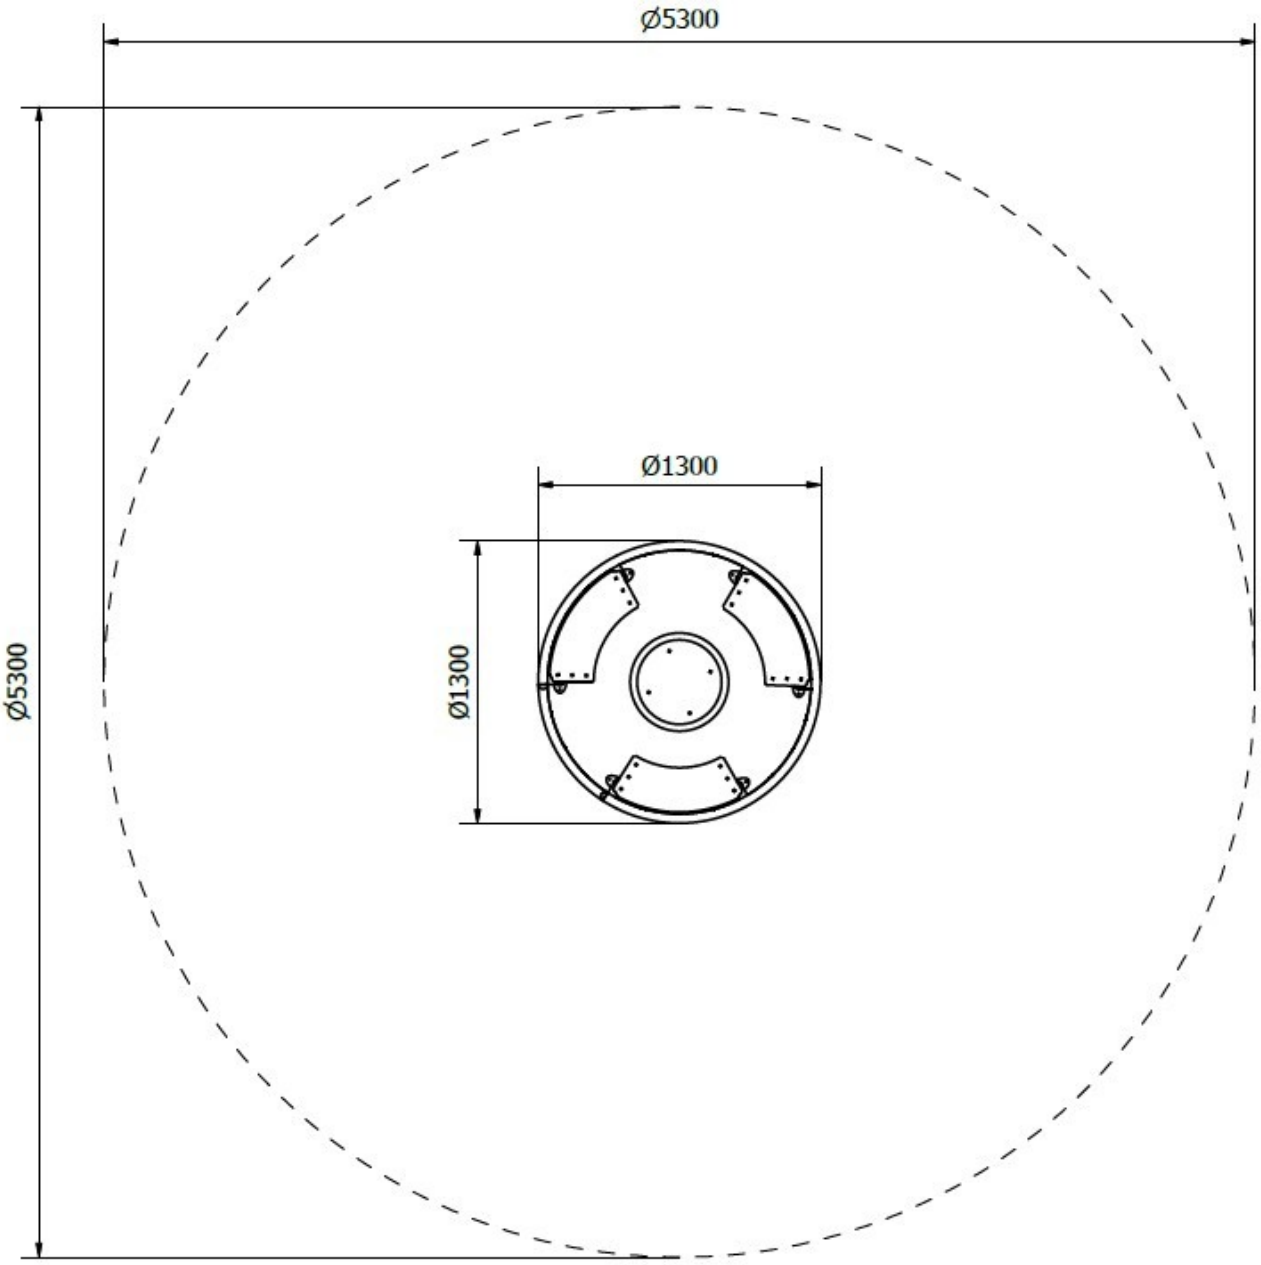

- LUMO PLAY function – light and sound
- 1 carousel with 3 seats

Technical data

- Dimensions (LxWxH): 1.30 x 1.30 x 0.77 m
- Safety zone: 5.30 x 5.30 m
- Maximum fall height: 1.0 m
- User age: 2+
- Maximum number of users: 4
- A certificate confirming compatibility with norm EN 1176
- Dimensional differences not greater than +/- 5% are allowed

Materials

- Structure made of corrosion-protected and powder-coated steel in graphite color (RAL 7016)
- Seats made of 10 mm thick black HDPE
- Floor made of orange HPL board with LUMO engraving
- Decorative elements made of orange HDPE with round engraving
