Description

The set of three connected, glowing sensory panels is an innovative space for interactive play, designed with children in mind, including those using wheelchairs. Thanks to a variety of textures, vibrant colors, and engaging elements, the panels stimulate the senses, enhance cognitive abilities, and spark children's imagination. The main theme of the set features three space rockets, taking kids on a fascinating journey! The built-in wheels, which emit colorful light when set in motion, make the play even more exciting. In the background, there are carved details resembling buildings and clouds. The structure is made of black steel, galvanized, and powder-coated, while the panel is crafted from HDPE material. The pipes are finished with spherical decorative elements.

*Available pole colors [RAL]: 7016; 9006.

Playground device consists of

- 4 x poles
- 3 x panels in the set with a space rocket theme
- 34 x rotating wheels emitting colorful light

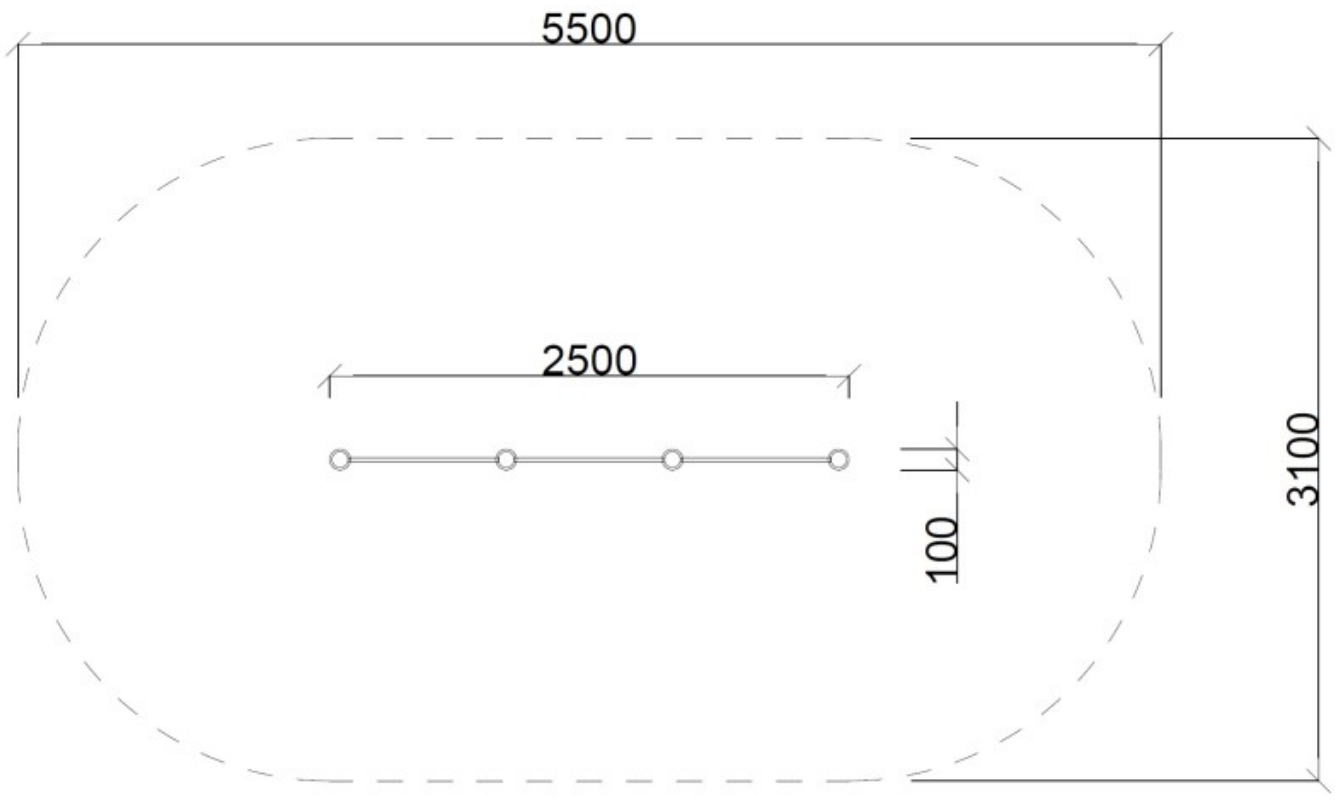

Product details

- Dimensions (LxWxH): 2.5 x 0.1 x 1.25 m
- Safety area (LxW): 5.5 x 3.1 m
- Age group: 2+
- Number of users: 6 people
- A certificate confirming compatibility with norm EN 1176
- Dimensional differences of no more than +/- 5% are allowed.

Materials

- The structure is made of black steel, galvanized, and powder-coated.
- Main structural profile dimension: Ø76.1x2 mm.
- The board is made of 15 mm HDPE material.
- Available posts colors [RAL]: 7016; 9006.
- Board color: orange.
- Wheel colors: 8 x red, 17 x blue, 2 x green, and 7 x multicolor (red, blue, green).
