Description

The set of three connected, glowing sensory panels is an innovative space for interactive play, designed with children in mind, including those using wheelchairs. Thanks to various textures, vivid colors, and engaging elements, the panels stimulate the senses, enhance cognitive abilities, and spark children's imagination. The main characters of the set are a diver, a firefighter, and an astronaut – inspiring children to explore new worlds! The built-in rotating wheels emit colorful light when set in motion, making the play even more exciting.The structure is made of black steel, galvanized, and powder-coated. The panel is crafted from HDPE material. The pipes are finished with spherical decorative elements.

- Available pole colors [RAL]: 7016; 9006.
