Description

An integrated set in vibrant colors consisting of three towers, slides, bridges, a tubular climbing structure, a pioneer, ladders, a sensory board with two colorful drums that produce maraca sounds, a sensory board with five tubular chimes that produce sound, a sensory board with a rotating wheel that produces rain sounds, a sensory board with sliding elements, an abacus, and a sandbox with nets. The set features a design inspired by the shape of a snail. The construction is made of stainless steel, resistant to weather conditions and intensive use, with a welded structure (the use of staples is not allowed). The structural pipes (including six bent pipes) are finished with spherical decorative elements resembling snail antennae. The walls of the slides, the entrance ramp, the climbing structure, the roofs, colorful rings, and railings are made of HDPE sheet. The floor is made of HPL with an anti-slip texture, ensuring user safety and preventing overheating in the sun and easy freezing in winter.

Playground device consists of

- 28 structural pipes (including six bent pipes) finished with spherical decorative elements resembling snail antennae; the pipes must form a single unit (without joints),
- 2 towers with openwork roofs curved in an arch, each with a wall with a window,
- 1 tower with two walls, one with a window and the other with decorative frieze,

- 1 stainless steel slide,
- 1 entrance ramp with a rope and handles,
- 1 climbing wall with openings,
- 1 straight ladder near one of the towers,
- 2 bridges in the form of 4 colorful rings with metal handrails,
- 1 bridge connecting a tower and a climbing net, consisting of metal pipes with four wheels mounted on chains,
- 1 pioneer,
- 1 climbing net in the form of a tube,
- 3 entrance ladders connected to the climbing net,
- 1 sensory board with two colorful drums that produce maraca sounds,
- 1 sensory board with five tubular chimes that produce sound,
- 1 sensory board with a rotating wheel that produces rain sounds,
- 1 sensory board with sliding elements,
- 1 abacus,
- 1 sandbox with four screens.

Product details

- Device dimensions (LxWxH): 9.20 x 9.13 x 3.73 m
- Safety zone: 12.42 x 12.63 m
- Free fall height: 2.5 m
- Number of users: 30
- A certificate confirming compatibility with norm EN 1176
- Dimensional differences of up to +/- 5% are acceptable.

Materials

- The structure and additional elements (handrails, handles, brackets, etc.) are made of stainless steel AISI 304, with pipes of diameters 76.1 x 2.0 mm (including four bent pipes), 42.4 x 3.6 mm, and 33.7 x 2.0 mm, and profiles: 40 x 40 x 2.0 mm,
- The slide and slide railings are made of stainless steel,
- The platforms are made of HPL with a 10 mm thickness anti-slip texture,
- The roofs, entrance ramp, slide sides, and climbing wall are made of three-layer, colored HDPE with a thickness of 15 mm.
