

Use this set of directions to make a plan for Geometricity. You will need to include enough roads to add each landmark on its own corner in the town. Be sure to name the roads with a theme.

- An apartment tower and playground are on adjacent angles.
- The police station and CFA are at alternate exterior angles.
- The lake and community garden are at alternate interior angles.
- The lake and school are on co-interior angles.
- The bakery and milk bar are on complementary angles.
- The hospital and school are on corresponding angles.
- Two parallel roads only allow one-way traffic.
- At the intersection of two perpendicular roads there is a roundabout.
- A café and a pizza store are on supplementary angles.
- A hairdresser and a nail salon are on vertically opposite angles.
- A median strip with trees runs up the centre of a transversal road.
