

<p>A</p> <p>All angles are right angles</p>	<p>A</p> <p>At least one angle is obtuse</p>	<p>A</p> <p>There is an odd number of angles</p>
<p>A</p> <p>At least two angles are acute</p>	<p>A</p> <p>All angles are the same</p>	<p>A</p> <p>There is an even number of angles</p>
<p>A</p> <p>No angle is a right angle</p>	<p>A</p> <p>At least one angle is less than <math>90^\circ</math></p>	<p>A</p> <p>At least one angle is a right angle</p>

S

There is an odd number of sides

S

All pairs of opposite sides have equal length

S

WILD CARD Pick your own side property

S

No pairs of sides are parallel

S

Exactly one pair of sides is parallel

S

All sides are of equal length

S

All pairs of opposite sides are parallel

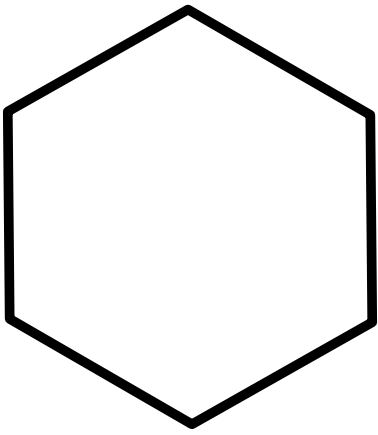

S

At least one pair of sides is perpendicular

S

It is a quadrilateral
