REPRESENTING THE DATA

1. Complete this **column graph** to represent the data.
   a) Write appropriate labels on the x and y axis.
   b) Plot your data on the graph.
   c) Give your graph a title.
   d) Write some statements about your graph using words and numbers (statistics).

2. Show what your data will look like on a **pie graph**.
   a) Divide the circle into sectors (use estimation).
   b) Colour and write labels on each sector.
   c) Give your graph a title.
   d) Write some statements about your graph using words and numbers (statistics).
