SOFTWARE ENGINEER

/ EXPERIENCE

Software Engineer - Docket *March 2020 - Current*

- Built major features of the Docket application such as our Collaborative Editor, Dashboard, Scheduling, App Integrations, Search, Global Navigation, Editor Serialization/Normalization, Tasks, and more.
- Worked with design, product, and engineering teams to improve existing or proposed features through collaborative testing, ideation, and feedback sessions using modern AGILE practices.
- Re-architected the front-end codebase and updated legacy React class components to use hooks.

Front-end Engineer - Ava Inc. *2019 - 2020*

- Utilized styled-components, hooks, easy-peasy, Electron, and more to help build React projects for clients.
- Converted an Electron app to be fully compatible and responsive for the web.
- Provided design system and UI/UX ideas and improvements for our projects.

Web Developer - THE PLAID AGENCY *2016 - 2020*

- Responsible for the development, testing, deployment, and maintenance of all client websites and applications.
- Helped push the agency to utilize new technologies including React/Gatsby, CI/CD, and headless CMSes.

Web Developer, Founder - Xenostar Studios *2014 - 2016*

- Provided full-stack website development for clients using technologies including Wordpress, React, and Angular.

Web Developer - Stormfront Productions (SFP) *2012 - 2014*

- Developed, designed, and maintained over 50 web projects of various sizes for businesses and organizations.
- Lead the design team for half a year. Introducing mobile design guidelines and standardized the design process.

/ EDUCATION

Purdue University *2008 - 2012*

Bachelors of Science, Computer Graphics Technology
West Lafayette, Indiana, USA

Core GPA **3.76**
GPA **3.45**

6 of 8 Semester Dean's List
4 of 8 Semester Honors
