

# / BRYAN LEEWOOD

## SENIOR SOFTWARE ENGINEER

### / EXPERIENCE

**Senior Software Engineer - Rivian Automotive, Inc.** Full Time Jan 2022 - July 2022

- Built a Reporting web application that surfaced large data sets to internal teams across Rivian.
- Built a Search product that exposed records across ecosystems through a consistent, centralized experience.
- Contributed to initiatives and built new components for the standard component library used within Rivian.

**Software Engineer - Docket** Full Time 2020 - 2022

- Lead the planning, development, and successful launch of the Docket desktop application built with Electron.
- Built major features of the Docket application such as our Collaborative Editor, Dashboard, Scheduling, App Integrations, Search, Global Navigation, Editor Serialization/Normalization, Tasks, and more.

**Frontend Engineer - Ava Inc.** Contractor 2019 - 2020

- Utilized styled-components, hooks, easy-peasy, Electron, and more to help build React projects for clients.
- Converted an Electron app to be fully compatible and responsive for the web.

**Web Developer - THE PLAID AGENCY** Full Time 2016 - 2020

- Responsible for the development, testing, deployment, and maintenance of all client websites and applications.
- Helped push the agency to utilize new technologies including React/Gatsby, CI/CD, and headless CMSes.

**Web Developer, Founder - Xenostar Studios** Full Time 2014 - 2016

- Provided full-stack website development for clients using technologies including Wordpress, React, and Angular.

**Web Developer - Stormfront Productions (SFP)** Full Time 2012 - 2014

- Developed, designed, and maintained over 50 web projects of various sizes for businesses and organizations.
- Lead the design team for half a year. Introducing mobile design guidelines and standardized the design process.
