

the David Geffen School of Medicine at UCLA and a board-certified radiation oncologist, Dr. Gabayan spent years caring for patients with complex cancers before recognizing that the future of medicine lies in prevention. Today, he combines evidence-based medicine with the latest advances in precision diagnostics and longevity science to help patients detect disease earlier, reduce future health risks, and maximize both lifespan and healthspan. His mission is simple: empower patients with the knowledge and tools to stay healthy for decades to come.

Bringing that vision to life every day is **Hana Ayoub, MHA, Program Director of Beverly Hills Concierge Health**. With more than two decades of healthcare leadership in oncology, executive healthcare operations, and medical practice management, Ayoub has become the driving force behind the organization's signature concierge experience. She serves as the trusted connection between physicians, specialists, and patients, ensuring every individual receives highly personalized attention from their first consultation through every stage of their health journey.

From coordinating executive health screenings and advanced diagnostic testing to arranging specialty consultations, reviewing next steps, and providing ongoing guidance, Ayoub oversees every detail with exceptional care and precision. Her commitment to building meaningful relationships and creating a seamless, white-glove experience has become one of the defining characteristics of Beverly Hills Concierge Health. Patients know they have a dedicated advocate who understands their goals, anticipates their needs, and remains by their side throughout their wellness journey.

This commitment to personalized service is reflected in the **practice's exclusive Premier and Elite Concierge Memberships**. Designed for individuals and families seeking comprehensive, continuous healthcare, the memberships provide direct physician access, same-day or next-day appointments, executive wellness planning, priority scheduling,

and personalized preventive care. Members also benefit from dedicated care coordination, ensuring every appointment, diagnostic study, specialist referral, and follow-up is managed seamlessly by the concierge team.

As part of the **Beverly Hills Health Center campus, Beverly Hills Concierge Health offers patients the convenience** of advanced diagnostic imaging, an on-site laboratory, in-house pharmacy, infusion center, and access to an extensive network of medical specialists—all within a single destination. This integrated approach allows patients to receive comprehensive, coordinated care with exceptional efficiency, convenience, and continuity, redefining the modern healthcare experience.

As precision medicine and longevity science continue to shape the future of healthcare, Beverly Hills Concierge Health is setting a new standard—one where advanced technology, compassionate physicians, and exceptional concierge service come together to help patients live healthier, longer, and more fulfilling lives.

Because true luxury isn't simply living longer—it's living better.
