

EXPAND YOUR MSSP OFFERING WITH AUTOMATED CTEM SERVICE

White-labeled CTEM. Fully Automated. Built to Grow Your MSSP Business

As demand grows for continuous visibility and proactive risk reduction, organizations are turning to their MSSP partners for stronger, more scalable security solutions. ULTRA RED helps MSSPs meet this need with a fully automated CTEM platform built for speed, simplicity, and growth. Designed specifically for MSSPs, our platform enables rapid onboarding, efficient service delivery, and differentiated security offerings that position you as a leader in the evolving threat landscape.

Empowering MSSPs to Lead in Proactive Cybersecurity

ULTRA RED enables managed security providers to deliver **Continuous Threat Exposure Management** (CTEM) to their customers as a high-value, scalable service — without adding operational complexity.

Our CTEM platform continuously discovers all internet-facing assets, validates exposures with proof of exploitability, and delivers actionable remediation guidance — enabling security teams to proactively fix real risks before they're exploited.

Why MSSPs Choose ULTRA RED

- **Deliver CTEM Under Your Brand** with a fully white-labeled portal and reporting
- **Onboard Clients Instantly** through simple agentless deployment and full automation
- **Grow Revenue** by offering scalable, high-margin CTEM services with low overhead
- **Stand Out** by delivering validated threats and proof of exploitability, not just noisy alerts
- **Integrate Easily** with existing SIEM, SOAR, ticketing, and collaboration tools

AT A GLANCE

Fully automated, MSSP-ready CTEM platform

Multi-tenant architecture

Self-service presale discovery

White-labeled portal and reporting

Data export to SIEM, SOAR, and other tools via APIs

Flexible billing options

Trusted by leading MSSPs to reduce alert volume by 90%

ULTRA RED for MSSPs: How It Works

Quick onboarding

Start scanning and delivering value to your customers in minutes — no agents, no installation required.

Asset-based subscription

Choose scanning frequency (weekly or daily) and pay per asset scanned.

Monthly billing, annual commitment

Billed monthly by ULTRA RED; resell as annual plans to your customers.

Volume discounts

Automatically applied as total scanned assets increase.

Presale enablement

Run self-service discovery scans for prospects before they commit.

Training & marketing support

Get sales enablement training, co-branded assets, localization help, and more.

Become an ULTRA RED MSSP Partner

Deliver strategic, continuous exposure management at scale — with zero noise, zero agents, and full automation. As an ULTRA RED MSSP partner, you'll expand your cybersecurity offering, generate new revenue streams, and differentiate your brand with a fully white-labeled CTEM solution.
