

## **International Wine Competition GALICJA VITIS Kraków 2023**

With over 500 wine samples submitted in previous years, the International Wine Competition GALICJA VITIS is the largest and probably the most influential wine competition in Poland. Now, in its 11<sup>th</sup> year, the contest will be held at 18<sup>th</sup> and 19<sup>th</sup> May 2023 in former royal hunting castle in Niepołomice near Kraków.

The overall idea of the Competition is to compare the quality of wines from Central and Eastern Europe with those originated from the rest of the wine world and to promote the fine wine culture, even in non-producing regions, as the most of Poland.

Wine samples submitted to the contest will be assessed by an international jury within several categories and in a 100-point scale following the OIV Standards for International Wine Competitions, and the Regulations of the Competition. Based on the points earned, wines will receive Grand Gold Medals (with at least 92 points), Gold Medals (at least 88 points) and Silver Medals (at least 84 points). The highest scored wines in given categories will be awarded the titles of Champions.

The organiser of the Competition is the Foundation for the Development and Promotion of Winegrowing GALICJA VITIS (Fundacja Na Rzecz Rozwoju i Promocji Winiarstwa GALICJA VITIS) – an independent, non-profit organisation, which, except for the Competition, runs the leading vocational school for vine growers and winemakers (Podkarpacka Akademia Wina) in Jasło, as well as a publishing house specialised in textbooks on wine and viticulture.

For more information about our Competition, please visit our website: [www.galicjavitis.pl](http://www.galicjavitis.pl)

The organising partners of the Competition are: Polish Institute of Vine and Wine and the fine wine importing and distributing company "Vinoteka 13".
