#### INVESTMENT OBJECTIVE AND STRATEGY

The Fund is a Peso-denominated money market Unit Investment Trust Fund that aims to achieve for its participants liquidity and income that is higher than that of regular time deposit products by investing in a diversified mix of peso-denominated deposits with a maximum weighted average fund duration of one year.

The Fund's benchmark is the average rate of the most recent 91-day Philippine Treasury Bill auction, net of taxes. The choice of benchmark is aligned with the general characteristic of the fund which is a short term investment facility.

#### CLIENT SUITABILITY

A client profiling process is performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are encouraged to update the resulting profile every three (3) years or if there's any change in his/her personal/financial circumstances. Before deciding to invest, clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, or seek an independent/professional opinion when necessary.

#### The METRO MONEY MARKET FUND is suitable only for investors who:

- Have a Conservative profile.
- Want their principal preserved at all times and are willing to forego high returns by staying in regular deposit products.
- Recommended investment horizon is at least one (1) month.
- Participation in the Fund shall be open to Filipino individuals, resident and non-resident aliens and corporate accounts.

#### KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

**Liquidity Risk:** The possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a price that could result in a loss. This may be caused by low trading volume due to different reasons such as securities with small or few outstanding issues, absence of buyers and/or sellers (limited buy/sell activity) or underdeveloped capital market.

**Credit Risk / Default Risk:** The possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner on instruments such as bonds, loans, or other forms of fixed income security which the borrower issued. This inability of the borrower or counterparty to make good on its financial obligations may have resulted from adverse changes in its financial condition thus, lowering credit quality of the security, and consequently lowering the price (market/price risk) which contributes to the difficulty in selling such security.

**Reinvestment Risk:** The possibility of having lower returns or earnings when funds mature and are reinvested. Investors in the UITF who redeem and realize their gains run the risk of reinvesting their funds in an alternative investment outlet with lower yields. Similarly, the UIT fund manager is faced with the risk of not being able to find better yielding alternative investment outlets as some of the securities in the fund matures.

**Other Risks:** Your participation in the UITFs may be further exposed to the risk of any actual or potential conflicts of interest in the handling of in-house or related party transactions by Metrobank. These transactions may include own-bank deposits; purchase of own-institution or affiliate obligations (stocks, mortgages); purchase of assets from or sales to own institution, directors, officers, subsidiaries, affiliates or other related interests/parties; or purchases or sales between fiduciary/managed accounts.

The Fund invests only in high-credit quality assets which are evaluated using a rigorous internal scoring model required under the Trustee's accreditation process and BSP regulations. Internal risk limits and position limits together with regulatory exposure limits are monitored, reviewed and strictly adhered to on a daily basis. The Fund may also use financial derivatives solely for hedging risk exposures.

THE UIT FUND IS NOT A DEPOSIT AND IS NOT INSURED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC).

RETURNS CANNOT BE GUARANTEED AND HISTORICAL NAVPU IS FOR ILLUSTRATION OF NAVPU MOVEMENTS/FLUCTUATIONS ONLY.

WHEN REDEEMING, THE PROCEEDS MAY BE WORTH LESS THAN THE ORIGINAL INVESTMENT AND ANY LOSSES WILL BE SOLELY FOR THE ACCOUNT OF THE CLIENT.

THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.

## INVESTMENT POLICY

The Fund may be invested and reinvested in the following instruments:

- Deposits
- BSP deposit facilities
- Government Securities
- Other investments that take the nature of deposits allowed under BSP regulations

## OUTLOOK AND STRATEGY

On its fifth straight meeting, Bangko Sentral ng Pilipinas held the policy rate at its all-time low of 2% amid pace of overall economic recovery remaining unclear. Market analysts deemed that a pause in policy rates will stretch until 2022. Ample liquidity flocked into short-dated papers as average awarded yields for treasury bills are lower by 20.4bps, 14bps, and 16.1 bps for 3 month, 6 month, and 1 year, respectively with auctions oversubscribed by 3 to 3.9 times. Meanwhile, most one-month time deposit rates stay close to sub-0.50%.
