### INVESTMENT OBJECTIVE AND STRATEGY

The Fund intends to achieve for its PERA participants high income and potential returns that are higher than regular traditional deposit products by investing in a diversified portfolio of peso-denominated fixed income securities and instruments which are tax-exempt in accordance with the PERA Law and shall have a maximum weighted average duration of five years. The Fund's composite benchmark is composed of Markit iBoxx ALBI Philippines 1-5.

### CLIENT SUITABILITY

A client profiling process is performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are encouraged to update the resulting profile every three (3) years or if there's any change in his/her personal/financial circumstances. Before deciding to invest, clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, or seek an independent/professional opinion when necessary.

### The METROBANK PERA BOND FUND is suitable only for investors who:

- Have a Moderate profile.
- Want potential returns that are higher than regular Peso deposit products and are willing to be exposed to some risk in consideration of higher returns.
- Recommended investment horizon is at least three (3) years
- Filipino individuals with legal capacity to contract and possesses a Tax Identification Number (TIN)

### KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

<b>Interest Rate Risk:</b>	The possibility for an investor to experience losses due to changes in interest rates. The purchase and sale of a debt instrument may result in profit or loss because the value of a debt instrument changes inversely with prevailing interest rates.
<b>Market/Price Risk:</b>	The possibility for an investor to experience losses due to changes in the market prices of bonds. It refers to the portfolio's exposure to marked-to-market valuation due to market price fluctuations of the bonds.
<b>Liquidity Risk:</b>	The possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a price that could result in a loss. This may be caused by low trading volume due to different reasons such as securities with small or few outstanding issues, absence of buyers and/or sellers (limited buy/sell activity) or underdeveloped capital market.
<b>Credit Risk / Default Risk:</b>	The possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner on instruments such as bonds, loans, or other forms of fixed income security which the borrower issued. This inability of the borrower or counterparty to make good on its financial obligations may have resulted from adverse changes in its financial condition thus, lowering credit quality of the security, and consequently lowering the price (market/price risk) which contributes to the difficulty in selling such security.
<b>Reinvestment Risk:</b>	The possibility of having lower returns or earnings when funds mature and are reinvested. Investors in the UITF who redeem and realize their gains run the risk of reinvesting their funds in an alternative investment outlet with lower yields. Similarly, the UIT fund manager is faced with the risk of not being able to find better yielding alternative investment outlets as some of the securities in the fund matures.
<b>Other Risks:</b>	Your participation in the UITFs may be further exposed to the risk of any actual or potential conflicts of interest in the handling of in-house or related party transactions by Metrobank. These transactions may include own-bank deposits; purchase of own-institution or affiliate obligations (stocks, mortgages); purchase of assets from or sales to own institution, directors, officers, subsidiaries, affiliates or other related interests/parties; or purchases or sales between fiduciary/managed accounts.

The Fund invests only in high-credit quality assets which are evaluated using a rigorous internal scoring model required under the Trustee's accreditation process and BSP regulations. Internal risk limits and position limits together with regulatory exposure limits are monitored, reviewed and strictly adhered to on a daily basis. The Fund may also use financial derivatives solely for hedging risk exposures.

THE UIT FUND IS NOT A DEPOSIT AND IS NOT INSURED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC).

RETURNS CANNOT BE GUARANTEED AND HISTORICAL NAVPU IS FOR ILLUSTRATION OF NAVPU MOVEMENTS/FLUCTUATIONS ONLY.

WHEN REDEEMING, THE PROCEEDS MAY BE WORTH LESS THAN THE ORIGINAL INVESTMENT AND ANY LOSSES WILL BE SOLELY FOR THE ACCOUNT OF THE CLIENT.

THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.

## FUND PERFORMANCE AND STATISTICS as of August 31, 2021

(Purely for reference purposes and is not a guarantee of future results)

### NAVPu GRAPH

### NAVPu OVER THE PAST 12 MONTHS

Highest	1.008509
Lowest	0.984969

### STATISTICS<sup>1</sup> (MoM)

Weighted Average Duration (in years)	2.83
Volatility, Past 1 Year (in %) <sup>2</sup>	0.24%
Sharpe Ratio <sup>3</sup>	-1.45
Information Ratio <sup>4</sup>	-2.01

<sup>1</sup> Volatility, Sharpe Ratio and Information Ratio metrics is computed based on available data in past 1 month.

<sup>2</sup> Volatility measures the degree to which the Fund fluctuates vis-à-vis its average return over a period of time. The lower the number, the more stable the Fund's return is relative to its average return over time. Starting December 2017, computation is based on the annualized standard deviation of monthly returns.

<sup>3</sup> Sharpe Ratio is used to characterize how well the return of a Fund compensates the investor for the level of risk taken. The higher the number, the better.

<sup>4</sup> Information Ratio measures reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk.

### CUMULATIVE PERFORMANCE

	1 Month	3 Months	6 Months	1 Year	3 Years	5 Years	Since Inception
<b>Fund</b>	-0.252%	0.180%	0.633%	N/A	N/A	N/A	0.102%
<b>Benchmark</b>	0.217%	0.939%	1.326%	N/A	N/A	N/A	1.952%

Initial benchmark adopted was 80% Bloomberg Philippine Sovereign Bond Index 1-5 year (BPHIL15), Adjusted and 20% Bloomberg Philippines 30-day Special Savings Rate General Average beginning October 1, 2020. The Fund changed its benchmark to Markit iBoxx ALBI Philippines 1-5 on December 1, 2020.

### PORTFOLIO COMPOSITION

Allocation	% of Fund
Government Securities	88.29%
Time Deposits	12.37%
Cash	0.10%
Other Receivables - Net of Liabilities <sup>5</sup>	-0.76%

<sup>5</sup>Includes accrued income from investments, receivables from brokers/counterparties and unpaid expenses.

# Unit Investment Trust Funds

## INVESTMENT POLICY

The Fund may be invested and reinvested in the following instruments:

- Deposits
- BSP deposit facilities
- Repurchase Agreements (Repos)
- Government Securities
- Corporate Bonds
- Other investments allowed under BSP regulations

## OUTLOOK AND STRATEGY

Local government bond yield curve steepened as the belly part of the curve are lower by 5-14 bps while long-dated bonds are higher 6-20 bps as inflation expectations rose on higher electric prices and typhoon effects. Fears loomed on the new COVID strain as daily fresh cases reached new record highs, above 22,000 mark, and delayed vaccine shipments prompting the government to once again limit mobility on imposing the strictest lockdown measure (Enhanced Community Quarantine) in Metro Manila and certain areas from August 6 to 20 then downgraded by one notch to Modified Enhanced Community Quarantine until first week of September. In its sixth consecutive Monetary Board meeting, the Bangko Sentral ng Pilipinas has kept policy rates unchanged at 2% citing its commitment to complement the government's fiscal policy measures in combating the negative effects of the pandemic in the economy. BSP Chief Benjamin Diokno reiterated that usual policy tools are far from being fully utilized with the end goal in mind to meet sustained recovery and prevent permanent scarring of the economy. Inflation forecasts were raised to 4.1% from 4.0% for 2021 while 3.1% from 3.0% for 2022 and 2023.

Monetary policy-infused liquidity has kept short-term rates well-anchored as treasury bills are met with strong demand with average bid-to-cover ratio at 3 to 4.5 times compared to last month's 2.6 to 3 times. Treasury bond auctions are well-received for the 7-, 10-, 20-years however, investors turned defensive on the 12-years as bids were rejected by the Bureau of Treasury stating the yields are "unreasonably high". Albeit slightly narrowed fiscal deficit in July, the Department of Finance sees country's borrowing to expand to as high as 60.8% debt-to-GDP compared to pre-pandemic low of 39.6% only to decline starting 2023. Further, the government plans on cutting its borrowings by next year from Php 3 trillion to Php 2.4 Trillion and instead passes the funding responsibility to Bureau of Internal Revenue and Bureau of Customs through increased duties and tax collections target. Borrowing mix still seen at 77%-23% in favor of domestic versus offshore.

2Q 2021 GDP rose by 11.8% YoY compared to last year's decline of 11%. Government cuts GDP growth target to 4%-5% from 6%-7% citing mobility restrictions while keeping 2022 target at 7%-9%. The peso weakened against the US Dollar for August is as average USDPHP higher at 50.234, with a trading range of 49.59-50.67, compared to July's 49.943. Gross International Reserves remains healthy at \$106Bn in July translating to 12.2 months worth of import cover. August inflation beat expectations at 4.9% YoY versus 4.4% YoY consensus led by the increase in food and non-alcoholic beverages rising by 1.2% MoM as demand for staples rose following strict lockdown measures. BSP Governor Diokno mentioned accommodative stance is still in place to support recovery "to the extent that inflation outlook would allow" and assessed that prices to settle at the midpoint of 2%-4% target by 2022-2023.

## IMPORTANT NOTICE
