

Technical Data VACUDEST XS-XXL

180 – 30,000 m³ industrial wastewater per year

- VACUDEST Modular-System – Customized systems
- Energy efficient due to 95 % energy recycling
- Cost efficient due highest evaporation rates
- Maintenance friendly design to optimize system availability
- Comfortable Vacutouch control system including internet connection
- State of the art technology stands for highest distillate quality

Customized system solutions. Cost efficiency based on the VACUDEST Modular-System.

An integral part of H2O's philosophy is the development of customized system solutions. Industrial wastewater is never equal. The manifold of applications requires customized treatment systems. Thus we don't offer VACUDEST vacuum distillation systems off the shelf.

To ensure that a customized solution is affordable for our customers we developed the VACUDEST Modular-System. Based on a cost efficient variant management we choose exactly the right configuration for your individual requirements, from over 3.5 million variants – fast and flexible - with the highest quality.

Clearcat	Smellcat	Activepowerclean
Vacutouch	VacuCIP	Destcontrol
Quickstart	Jetflex	...

Our cost efficient VACUDEST Modular-System allows us to optimally configure any system, using standardized functional groups and technological applications.
