# FAQs

## What is HashiConf?

HashiConf is HashiCorp's annual community conference where developers, system engineers, architects, and security professionals from organizations of all sizes gather in-person and online to share how the products in HashiCorp's product stack help them provision, secure, connect, and run their business-critical applications.

HashiConf takes place twice a year: HashiConf Europe in June, and HashiConf Global in October.

## Where will HashiConf take place?

After two years as a fully digital conference, we are happy to announce that HashiConf is returning to an in-person conference this year. If you cannot join us in-person, there will still be an online version of HashiConf where you can follow along with keynotes, product updates, and technical sessions.

- **HashiConf Europe** will take place in Amsterdam, Netherlands and online June 20-22.
- **HashiConf Global** will take place in Los Angeles, California, and online October 4-6.

## When can I register?

Get ready - Early Bird Tickets for HashiConf Europe will open in February.
Ticket sales for HashiConf Global will begin later in the year in April.

## Can I sponsor a HashiConf?

We are currently working on a prospectus for sponsorship opportunities for HashiConf Global in October (Los Angeles). Please reach out to [hashiconf@hashicorp.com](mailto:hashiconf@hashicorp.com) to receive a copy when it is ready. There will not be a sponsorship program for HashiConf Europe this year.

## Where can I apply to speak at a HashiConf?

If you are a user of our open source or commercial products and you're interested in seeing if your session would be a good fit, we'd love to hear from you. Reach out to us via [speakers@hashicorp.com](mailto:speakers@hashicorp.com) or via your account team.

## I have a question or idea, who do I contact?

We would love to hear from you! If you want to talk about an idea or have a question, please send us an email at [hashiconf@hashicorp.com](mailto:hashiconf@hashicorp.com)
