US permanent resident, British citizen, Irish citizen

EXPERIENCE

Hatched Labs

Team Lead / Senior Software Engineer (React, Relay, GraphQL)
Software Engineer II

San Francisco, CA

08/19 - 08/20

11/18 - 08/19

Led front-end development for a stealth mode startup in the grocery space based in San Francisco. We created an ecommerce platform from scratch to a full-scale production deployment.

Shipt Inc

Hybrid Mobile Developer (Ionic, Angular)
Front-End Web Developer (React, Redux)

San Francisco, CA

09/17 - 05/18

02/17 - 09/17

Developed Shipt's front end through its Android, iOS and Web applications. Co-led web team before switching to the mobile team.

UC Berkeley Full Stack Web Development Program

Teaching Assistant (part-time)

Berkeley, CA

07/17 - 01/18

Providing academic support to the students. The course is for full stack development and teaches common front-end languages in addition to Node, Python, Django, React, React Native, Ruby and Java.

Gobitech AS

Full Stack Web Developer

Palo Alto, CA

09/16 - 12/16

Created JavaScript apps at a seed stage tech startup developing a consumer-facing social media app called Gobi. Made an admin interface and a feed for snaps written with Node, Redis and WebSockets.

Goldman Sachs

Technology Analyst

London, England

06/15 - 08/15

Worked as a Java and Scala developer with the Fixed Income technology team, writing code for the back-end of key bond/insurance products. Also produced some internal front-end web products.

EDUCATION

Stanford University - Machine Learning Course

Online (*ongoing*)

Warwick University

Computer Science & Mathematics BSc (Hons)

England

09/13 - 06/16

PROJECTS

willtheygo.com

Creating a soccer analytical engine using machine learning techniques.

Conference Speaker at Abstractions II

"You're Better at CSS Than You Think" - a fun talk about data mining gigabytes of CSS source code.
