Demand for our service continues to grow.

Help us be there for children with cerebral palsy and families who need us, by joining our 365 Business Club for just £365 – £1 a day.

We understand that while many businesses want to help, they don't always have time or resources to do that. Our 365 Business Club makes giving easy. It's a £365 donation or £30 per month that recognises your commitment to support Stick 'n' Step and your local community.

What fantastic news to celebrate with your staff and share with your customers! Whilst also meeting your Corporate Social Responsibility obligations.

Your support will help children like James.

James

James spent the first 12 months of his life in hospital having been born at 24 weeks gestation and was diagnosed with Global Developmental Delay and cerebral palsy. Despite also being severely sight impaired James is a really sociable little boy who loves coming to Stick 'n' Step.

James has been attending Stick 'n' Step since 2017 and mum Naomi confesses, she didn't realise the life-changing impact the sessions would have. "I thought it would be an extension of the physiotherapy he was getting once a fortnight at that time. We never imagined for one minute that James would be able to achieve so much in such a short period of time."

- Within two months of starting his sessions, James was toilet training – something mum readily admitted she wouldn't have contemplated trying for a long time.

- ★ James is making major achievements. When he first arrived at Stick 'n' Step he could only take a few steps with full support, now he is able to walk in his walking frame and is using sticks with some support and guidance. It was a tear-jerking moment for Mum and the classroom team last year when James took a few steps without support. James himself had a beaming smile when he realised what he had achieved!

We are so grateful to the classroom team at Stick 'n' Step, they have definitely changed James' life for the better and encouraged him to achieve so many things that we never thought would be possible.
