

SÉRIE ÍMPAR

Série Ímpar Vinhas dos Homens: A Tribute to the Origins and Authenticity of Trás-os-Montes

Press Release, Trás-os-Montes, November 24, 2025 – Some wines tell stories. Other times, it's the stories that give birth to a wine. Série Ímpar Vinhas dos Homens was born this way — from five old vineyards, all bearing men's names, and owned by five men from Trás-os-Montes. Silent guardians of ancient knowledge and a land of contrasts and authenticity.

Inspired by past practices, this wine is crafted with minimal intervention, where time, nature, and human touch come together with simplicity and respect. A tribute to the essence of Trás-os-Montes and to the people who, for generations, have shaped their land with hands and heart.

Created by **Diogo Sepúlveda, winemaker at Sogrape**, this red wine from native varieties — a field blend of reds (80%) and whites (20%) sourced from the Mirandese plateau and the schist slopes of the Douro River — reveals unusual freshness and elegance. With a bright ruby color, notes of wild berries, pine, and “sous-bois,” and delicate tannins that draw a long, enveloping finish, it is a wine of altitude, memory, and soul.

*“Vinhas dos Homens was born from a deep desire to return to the origins. To make a wine that honors what has always existed in Trás-os-Montes — old vineyards, granite and schist soils, and an intimate connection between those who cultivate and what the land gives back”, shares **Diogo Sepúlveda**.*

Bottled after 24 months in used French oak barrels and an equal period of bottle aging, this DOC Trás-os-Montes 2020 comes in a limited edition of 4,307 bottles. A wine that breathes time and patience, designed to pair with game dishes, grilled meats, and cheeses, and that can evolve for a decade.

For **Fernando da Cunha Guedes, President of Sogrape**, *“Série Ímpar is a space for creativity. It's where we can experiment, reinterpret, and take risks. Vinhas dos Homens proves that the future is also built by looking back — with respect, curiosity, and a willingness to learn from what time has left us.”*
