

Approximate Timing & Gardening Activities

Early September:

- There's still time to plant early fall vegetables this week, such as tomatoes, peppers, zucchini and more...
- Pull summer flowers and begin planting fall flowers—many varieties in-store now!
- Use insect preventatives in early flowers and vegetables.
- Start planting winter vegetables this week...

Mid-September:

- Now's the time to plant iris starts and garlic bulbs.
- It's time to fertilize* your citrus.
- Rose care—clean up, light pruning and fertilizing*.
- Grow a lush winter lawn or limited turf area—start prepping for winter ryegrass seed.
- It's a great time to plant citrus!

Late September:

- Landscape clean up and fertilization* of trees and shrubs.
- Plant select seeds indoors for your fall/winter Tasty Garden.
- Winter Lawn—begin planting ryegrass seed once nighttime temperatures are a consistent 65° F.

* = Fertilize once temperatures are below 90° F. However, you can still support your plants during heatwaves with vital nutrients like SUPERthrive®, Fox Farm's Bush Doctor® Boomerang®, or any of our kelp/seaweed supplements.
