

## November Gardening Calendar

### Approximate Timing & Gardening Activities

#### Early November:

- Treat current crops for mildews and aphids
- It's time for cold crop planting—lettuce, broccoli, cauliflower, etc.

#### Mid-November:

- Warm days means there's still time to plant your ryegrass seed for a great winter lawn or limited turf area
- It's the perfect time to plant pansies—winter's hardiest flower!
- Fertilize your ryegrass after 2nd mowing with True Organic - Organic Lawn Food (for all types of lawns), Ferti-lome New Lawn Starter Fertilizer (for new lawns and sod), or Ferti-lome Green Maker or GreenAll Lawn Food (for established lawns).

#### Late November:

- Looking for the perfect gift for the host of your holiday events? We've got some ideas!
- Looking for festive holiday color? Hanging baskets make a great addition to your garden or patio!
- Christmas trees available after Thanksgiving. Buy yours early and enjoy it all season long!

*Happy Thanksgiving!*
