

July Gardening Calendar

Approximate Timing & Gardening Activities

Early July:

- It's Monsoon season and we've got some tips to help protect your plants, as well as ways you can take advantage of the weather!
- Enjoy your favorite festive recipes with garden-fresh fruits, veggies and herbs on Independence Day!

Mid-July:

- Desert Blooms? Now's the time to purchase beautiful adeniums, and fragrant plumerias!
- Any pests hanging around? We've got solutions for ants, beetles and more...
- Plants turning yellow? Try our great summer-safe fertilizers and plant foods from E.B. Stone Organics!

Late July:

- Apply iron to help green up plants! Did you know, iron is best applied during our warm season.
- The most effective time to feed palms is now! Try E.B. Stone Organics Hibiscus & Palm Food.
- Amend your soil - it's a great time to allow compost and manure to bake into your soil in preparation for fall planting!
- Fall tomatoes arriving soon! Subscribe to our newsletter or follow us on Facebook or Instagram for gardening tips, updates on new arrivals and more!
